

**SUMMER 2008 CT DEP MUNICIPAL SOLID WASTE MANAGEMENT FULL COST ACCOUNTING SURVEY**

**REPORT 2 Section 2 – Curbside Pickup of MSW Recyclables**

**To search responses by individual towns/cities, type the town/city's name into the search box at the top of the PDF.**

This report presents individual municipal responses to the following Survey questions related to **pick-up of recyclables**. Section 2 of Report 2 is divided into two parts:

**Part 1 – Residential Curbside Pick-up of Bottles, Cans, & Paper for Recycling**

**The First Table Combines Information from Various Survey Questions Regarding the Infrastructure for Residential Curbside Pickup of Recyclables:**

Curbside Pickup of Residential Bottles, Cans, & Paper (BCP) for Recycling													
Municipality	Population	Question 26 – Curbside Pickup of Residential Bottles, Cans, & Paper for Recycling is Provided by				Question 28 – Up to What Size Multifamily does Your Municipality or Contract Hauler Provide Curbside Pickup	Question 29 – Is Curbside Pickup Manual, Automated, Semi-automated or combination	Question 30 – If Automated is Municipality Considering Switch to Automated or Semi-Automated?	Question 30 – Comments regarding switching to automated from manual	Question 47 – Total Municipal Annual Expenditures for Curbside Collection of residential recyclables	Question 48 – For Contracted Residential Curbside Pickup of Recyclables – Household \$/month Paid by Municipality for pick-up/hauling	Question 48 – For Residential Recyclables Collected Curbside \$/ton tipping fee paid by the Municipality	Question 48 – For Residential Recyclables Collected Curbside \$/ton revenue or rebate received by Municipality
		Residents have option to Self Haul etc	Muni Employees etc	Private Hauler Contracted by Muni r etc	Private Hauler Contracted by homeowner								

**Question 26** - Curbside pickup of residential recyclables in your municipality is provided by:

- Homeowners have the option to self-haul recyclables to transfer station or drop-off facility
- Municipal employees pick-up residential recyclables curbside
- Private haulers contracted by the municipality pick-up of residential recyclables curbside
- Private haulers contracted b homeowners pick-up of residential recyclables curbside

**Question 28** – If the municipality or a municipal contractor picks up recyclables from multifamily buildings, up to what size multi-family building do they pick up from?

**Question 29** – Is residential recycling curbside pick-up in your municipality automated; semi-automated, manual, or a combination?

**Question 30** - If residential recycling curbside pick-up is manual, is your municipality contemplating a switch to automated (or semi-automated) pick-up? Comment

**Question 47**– If your town provides or contracts out for curbside collection of recyclables, please enter annual expenditures for curbside recycling collection. If your municipality does not provide or contract out for curbside collection of recyclables, enter “0” in the total box

- Total annual expenditures for curbside collection of residential recyclables (included in this report)
- Other Related expenditures are included in Report 5 – Section 1

**Question 48** – If your municipality pays for at least one component of curbside residential curbside recycling, please enter the dollar appropriate dollar amounts for each of the following fees (enter “0”, if not applicable)

- Residential curbside recycling pick-up/hauling fees paid to contracted hauling company (per household per month) - (included in this Report)
  - Included in Report 5 – Section 1: Residential curbside recycling (bottles, cans, paper) tipping fees (per ton) and revenue or rebate (per ton amount)

**Part 2 – Pick-up of Commercial Recyclables**

**The First Table in this Section Combines Information from Various Survey Questions Regarding Pickup of Recyclables from Commercial Entities:**

Infrastructure for Pickup of Commercial Recyclables (Bottles, Cans, Paper)					
Municipality	Population	Question 33 –Pickup of recyclables from Commercial Entities (etc.) l is Provided by			Question 34 - Type of Commercial Entities for which Municipality Provides etc.
		Some commercial entities have option to Self Haul etc	Muni Employees etc	Private Hauler Contracted by Muni etc	

**Question 33** -Pick-up of recyclables (bottles, cans, paper) from commercial entities is provided by (check all that apply):

- At least some commercial entities have the option to self-haul recyclables to municipal transfer station or municipal drop-off facility.
- Municipal employees pick-up recyclables from at least some commercial entities.
- Private hauler contracted by the municipality picks-up recyclables from at least some commercial entities.
- Private hauler contracted by individual commercial entities , institutions, etc. picks-up recyclables.

**Question 34** - Presents information regarding the type of commercial entities for which the municipality provides pick-up recyclables.

To obtain more detailed information from the survey please contact Judy Belaval at (860) 424-3237 or [judy.belaval@ct.gov](mailto:judy.belaval@ct.gov).

## Comments For Switching Or Not Switching To Automated Pick-up (Question 30)

Municipality	Population	Comment
Ansonia	18,550	Ease of collection and aesthetics
Branford	28,984	I want the crews inspecting. That's lost with single stream or automated. I would consider semi-automated.
Bridgeport	136,695	may become semi automated if City switches to larger toters with single stream system. currently recycling is blue bins dual stream
Bristol	60,911	Plan to convert existing dual stream "pilot" to single-stream and add one additional route of single-stream collection in early spring of 2009. Plan to expand program in future years as funds are allocated in our budget.
Cheshire	28,833	The blue bins are small enough to perform the work manually
Colchester	15,495	Willimantic Waste has the majority of curbside collection contracts and is working towards automated recycling collection
Coventry	12,192	Single Stream reduces quality of recycables. Single stream recycling does not work well with PAY-as you- Throw Programs
East Lyme	18,690	Waiting for regional single stream MRF
Fairfield	57,548	Private haulers provide the service. The cost of automated equipment would be passed on to homeowners.
Franklin	1,891	Is seperate contract from MSW with Sterling Superior is up to them.
Glastonbury	33,169	Single stream planned by hauler
Hartford	124,563	Contemplating single-stream semi-automated. Presently involved in a national single-stream pilot project.
Harwinton	5,564	If a need to do so becomes apparent then change will be discussed.
Litchfield	8,671	Depends on cost savings.
Middletown	47,778	We are struggling to automate garbage. Its been a multiyear process just to do garbage.
Monroe	19,402	Possibly to be included in next bid.
Newington	29,619	Looking into automated single stream recycling
North Stonington	5,212	Private contractors
Norwich	36,432	we are looking into single stream recycling
Old Lyme	7,384	will implement when single stream is available
Old Saybrook	10,539	Private Hauler
Redding	8,840	up to private haulers
Rocky Hill	18,808	Will stay manual - will go to single stream -will go to a 32 gallon bin and keep the 18 gallon as well
Salisbury	3,987	Salisbury doesn't provide curbside service. It is private subscription with a private hauler
Simsbury	23,659	Private haulers are loooking at automated
South Windsor	25,940	Beginning in July 2009
Southington	42,142	By private haulers
Stonington	18,343	All collection is contracted out. The Town has no preference on how it is collected.

Populations Taken From CT DPH July 2007 Populatin Estimates

### Comments For Switching Or Not Switching To Automated Pick-up (Question 30)

Municipality	Population	Comment
Torrington	35,451	Cost for carts is of significant concern. For 15,000 carts at \$75 = \$1,125,000.
Vernon	29,620	Eventually it would be nice to be fully automated
Waterbury	107,174	If CRRA moves to single stream, we may look into automated recycling collections.
Windsor	28,754	We are "exploring" automated single stream program
Windsor Locks	12,491	We are looking into the possibility. It would have to be cost beneficial.
