INVITATION TO BID

STATE OF CONNECTICUT
DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION
BUREAU OF WATER PROTECTION AND LAND REUSE
INLAND WATER RESOURCES DIVISION
79 ELM STREET, 3RD FLOOR WEST
HARTFORD, CONNECTICUT 06106-5127
TELEPHONE (860) 424-3706

PROJECT NAME: Repairs to Savin Lake Dam, Lebanon, CT

BID OPENING DATE: Thursday, April 23, 2015, @ 11:00 am

1. You are invited to bid on a general contract for construction described as follows:

a. Repair to Savin Lake dam in Lebanon. Main work items include demolition and replacement of a new concrete spillway, splash pad and training walls. Installation of a mid-level drawdown structure with associated piping, sluice gate, upstream inlet structure, and downstream outlet structure. Earthen dam repairs including fill placement, regrading work, placement of riprap, and installation of toe drainage system.

2. The Department of Energy & Environmental Protection will receive sealed proposals from bidders until 11:00 am on the bid opening date shown above in the offices of the Inland Water Resources Division, 3rd Floor, 79 Elm Street, Hartford, Connecticut. Proposals received after that time will not be accepted. All interested parties are invited to attend. Proposals will be opened publicly and read aloud.

3. Bid and contract documents are available on the State of Connecticut's Department of Administrative Services website: http://www.biznet.ct.gov/SCP_Search and the Department's website: <http://www.ct.gov/deep>. No packages will be available at the site showing.

4. A mandatory pre-bid meeting will be held on Thursday, April 2, 2015, at 10 am. Representatives of the Inland Water Resources Division will meet prospective bidders at Savin Lake Dam on Norwich Ave. in Lebanon for the purpose of conducting a site inspection. Bid proposals from any prospective bidder not pre-registered **and** in attendance at the pre-bid meeting will not be received or opened by the DEEP. Prospective bidders **must** pre-register for the mandatory pre-bid meeting by submitting an e-mail including Company Name, Name of Contact Person, mailing address, e-mail address and telephone number by **3 PM on Monday, March 30, 2015** to dan.biron@ct.gov. Contract or bid documents will not be made available at the pre-bid meeting or thereafter for the purpose of bidding.

5. As security, each bid must be accompanied by a Bid Bond, in the form required by the Department and having surety thereto such Surety Company or Companies as are authorized to do business in the State of Connecticut, in the amount of 10% of the Total Bid Price. The Department reserves the right to reject any or all bids and to waive technical defects or irregularities.

6. Bidders must be able to demonstrate recent successful experience with the type of work described in this bid package. Bidders must also list the specific personnel possessing that experience and their intent to employ these same personnel for this project. This information is required in the Statement of Bidders Qualifications section, pages BQ-1 through BQ-3. The Department reserves the right to reject any bidders who lack recent experience with the type of work required for this project.

7. Other DEEP/IWRD bid and contract requirements for this project, and information concerning the completion of bids being submitted, are contained in the Notice to Bidders and Instructions to Bidders included in the contract and bid documents. Prospective bidders are advised to carefully review these documents and requirements prior to preparation and submittal of bids. Prospective bidders should be aware that among these requirements the contractor selected to perform the work necessary to complete this project must file with and receive approval of an Affirmative Action plan from the Connecticut Commission of Human Rights and Opportunities (CHRO). This will also require compliance with CHRO set-aside program subcontracting and hiring goals.

EXECUTIVE ORDERS NO. THREE, SEVENTEEN, SIXTEEN AND 7C:

Bidders are advised that the Contract for this project shall be subject to Executive Order No. Three regarding nondiscrimination, promulgated June 16, 1971, and to the Guidelines and Rules of the State Labor Commissioner implementing said Executive Order.

Bidders are advised that the Contract for this project shall be subject to Executive Order No. Seventeen, promulgated February 15, 1973, requiring contractors and subcontractors to list employment openings with the Connecticut State Employment Service.

Bidders are advised that the Contract for this project shall be subject to Executive Order No. Sixteen, promulgated August 4, 1999, regarding violence in the workplace.

Bidders are advised that the Contract for this project shall be subject to Executive Order No. 7C promulgated July 13, 2006 regarding contracting reforms.

Said documents are hereby incorporated herein and made a part hereof as though fully set forth herein. Bidders may receive copies of these upon request.

Prospective bidders may contact Dan Biron of the DEEP/Inland Water Resources Division at (860) 424-3892 for additional information or clarification regarding the Bid and Contract Documents.

Rob Klee
Commissioner
Department of Energy & Environmental Protection

NOTICE TO BIDDERS

STATE OF CONNECTICUT DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

1. BIDS AND REJECTION OF BIDS

- A. Bids shall be submitted only on the prepared forms furnished for the specific project. In no event will bids or changes in bids made by telephone, telegraph, facsimile or other communication technology be considered. Any bid showing any omission, alteration of form, additions not called for, and any conditional bids, alternative bids or bids showing irregularities of any kind will be rejected.
- B. It is each bidder's responsibility to insure that their bid package is received at the appropriate time and location (offices of the Inland Water Resources Division of DEEP, 3rd Floor) shown on the Invitation To Bid. Any bid received after the scheduled closing time for the receipt of bids will be returned to the Bidder unopened.
- C. Any bid, once deposited with the Department of Energy & Environmental Protection, may only be withdrawn by letter of request, signed by the depositing Bidder and presented to the Commissioner prior to the time of opening of any bid for the project in question.
- D. The Commissioner of the Department of Energy & Environmental Protection reserves the right to waive technical defects in the bids, to reject any bids which do not conform to the terms and conditions described herein, to accept or reject any part of any bid and to reject all bids and again invite bids.
- E. The award of the Contract to a Bidder will be contingent upon determination by the Connecticut Department of Energy & Environmental Protection and the Connecticut Commission on Human Rights and Opportunities that the Bidder is in compliance with Sections 4a-60 and 4a-60a of the Connecticut General Statutes (øC.G.S.ö) and Section 46a-68j-23 of the Regulations of Connecticut State Agencies (øR.C.S.A.ö) regarding equal employment opportunity, and the Bidder's good faith efforts to include minority business enterprises as subcontractors and suppliers for the Work of the Contract. Upon notification of a Bidder by said Department of Energy & Environmental Protection as the lowest responsible bidder, said determination of compliance may require the successful completion of an Affirmative Action Plan as required under C.G.S. Sections 46a-68c and -68d, and R.C.S.A. Section 46a-68j-27(1).

2. BID SECURITY

Each bid must be accompanied by a Bid Bond, in the form required and provided by the Department of Energy & Environmental Protection and having as surety thereto such surety company or companies as are authorized to do business in the State of Connecticut, and for an amount not less than 10 per cent of the Total Bid Amount. Bid Bonds submitted by bidders and received by the Department of Energy & Environmental Protection shall be void upon execution of the Contract by the State of Connecticut.

3. FORFEIT OF BID SECURITY

Failure of the successful bidder to execute a contract awarded as specified and bid shall result in the forfeiture of the Bid Bond.

4. ADDENDA AND INTERPRETATIONS

No interpretations of the meaning of the Plans, Technical Specifications or other Contract Documents will be made orally to any Bidder. Every request for such interpretation should be in writing addressed to the Department of Energy and Environmental Protection and, to be given consideration, must be received at least **five (5)** days prior to the date fixed for the opening of bids. Any and all such interpretations and any supplemental instructions will be in the form of written Addenda to the Contract Documents which, if issued, will be e-mailed to all prospective Bidders (at the respective e-mail addresses furnished for such purposes) and will be made available on the State of Connecticut's Department of Administrative Services' website: <http://www.biznet.ct.gov> not later than **three (3)** days prior to the date fixed for the opening of bids. Failure of any Bidder to receive any such Addenda or interpretation shall not release the Bidder from any obligations under its bid as submitted, provided notice has been sent to the e-mail address furnished by such prospective bidder for the transmittal of notices, addenda and interpretations.

5. SECURITY FOR FAITHFUL PERFORMANCE

- A. Performance Bond (for bids over \$25,000.00): Concurrent with the signing of the Contract by the successful Bidder, the successful Bidder shall submit an executed Performance Bond, prepared on the form of Performance Bond provided by the Department of Energy & Environmental Protection, in the amount of 100 percent of the Total Bid Amount, conditioned upon the faithful performance of the Contract, and having as surety thereto such Surety Company or Companies as are authorized to transact business in the State of Connecticut. Any such Bond furnished shall have as principal the name of the successful Bidder.
- B. Labor and Material Bond (for bids over \$25,000.00): At this same time, the successful Bidder shall submit an executed Labor and Material Bond, prepared on the form of Labor and Material Bond provided by the Department of Energy & Environmental Protection, in the amount of 100 percent of the Total Bid Amount which shall be binding upon the award of the Contract to such Bidder, and having as surety thereto such surety company or companies as are authorized to transact business in the State of Connecticut, for the protection of persons supplying labor or materials in the prosecution of the work provided for in the Contract for use of each such person. Any such Bond furnished shall have as principal the name of the successful bidder. This Bond is to be furnished pursuant to Section 49-41 of the General Statutes of Connecticut, as revised.

The following Sections of the General Statutes of Connecticut, as revised, are inserted as information concerning this Bond.

Sec. 49-41a. Enforcement of payment by general contractor to subcontractor and by subcontractor to his subcontractors. (a) When any public work is awarded by a contract for which a payment bond is required by Section 49-41, the contract for the public work shall contain the following provisions: (1) A requirement that the general contractor, within thirty days after payment to the contractor by the State or a municipality, pay any amounts due any subcontractor, whether for labor performed or materials furnished, when the labor or materials have been included in a requisition submitted by the contractor and paid by the State or a municipality; (2) a requirement that the general contractor shall include in each of its subcontracts a provision requiring each subcontractor to pay any amounts due any of its subcontractors, whether for labor performed or materials furnished, within thirty days after such subcontractor receives a payment from the general contractor which encompasses labor or materials furnished by such subcontractor.

(b) If payment is not made by the general contractor or any of its subcontractors in accordance with such requirements, the subcontractor shall set forth his claim against the general contractor and the subcontractor of a subcontractor shall set forth its claim against the subcontractor through notice by registered or certified mail. Ten days after the receipt of that notice, the general contractor shall be liable to its subcontractor, and the subcontractor shall be liable to its subcontractor, for interest on the amount due and owing at the rate of one per cent per month. In addition, the general contractor, upon written demand of its subcontractor, or the subcontractor, upon written demand of its subcontractor, shall be required to place funds in the amount of the claim, plus interest of one per cent, in an interest-bearing escrow account in a bank in this State, provided the general contractor or subcontractor may refuse to place funds in escrow on the grounds that the subcontractor has not substantially performed the work according to the terms of his or its employment. In the event that such general contractor or subcontractor refuses to place such funds in escrow, and the party making a claim against it under this section is found to have substantially performed its work in accordance with the terms of its employment in any arbitration or litigation to determine the validity of such claim, then such general contractor or subcontractor shall pay the attorney's fees of such party.

(c) No payment may be withheld from a subcontractor for work performed because of a dispute between the general contractor and another contractor or subcontractor.

(d) This section shall not be construed to prohibit progress payments prior to final payment of the contract and is applicable to all subcontractors for material or labor whether they have contracted directly with the general contractor or with some other subcontractor on the work."

Sec. 49-42. Enforcement of right to payment on bond. Suit on bond, procedure and judgement. (a) Every person who has furnished labor or material in the prosecution of the work provided for in such contract in respect of which a payment bond is furnished under the provisions of Section 49-41 and who has not been paid in full therefor before the expiration of a period of ninety days after the day on which the last of the labor was done or performed by him or material was furnished or supplied by him for which the claim is made, may enforce his right to payment under the bond by serving a notice of claim within one hundred eighty days after the date on which he performed the last of the labor or furnished the last of the material for which the claim is made, on the surety that issued the bond and a copy of the notice on the contractor named as principle in the bond. The notice

of claim shall state with substantial accuracy the amount claimed, the name of the party for whom the labor was performed or to whom the materials were furnished and shall provide a detailed description of the bonded public project for which the labor or materials were provided. Within ninety days after service of the notice of claim, the surety shall make payment under the bond and satisfy the claim, or any portion of the claim which is not subject to a good faith dispute, and shall serve a notice on the claimant denying liability for any unpaid portion of the claim. The notices required under this section shall be served by registered or certified mail, postage prepaid in envelopes addressed to any office at which the surety, principal or claimant conducts his business, or in any manner in which civil process may be served. If the surety denies liability on the claim, or any portion thereof, the claimant may bring action upon the payment bond in the superior court for such sums and prosecute the action to final execution and judgement. An action to recover on a payment bond under this section shall be privileged with respect to assignment for trial. The court shall not consolidate for trial any action brought under this section with any other action brought on the same bond unless the court finds that a substantial portion of the evidence to be adduced, other than the fact that the claims sought to be consolidated arise under the same general contract, is common to such actions and that consolidation will not result in excessive delays to any claimant whose action was instituted at a time significantly prior to the motion to consolidate. In any such proceeding, the court judgement shall award the prevailing party the costs for bringing such proceeding and allow interest at the rate of interest specified in the labor or materials contract under which the claim arises or, if no such interest rate is specified, at the rate of interest as provided in section 37-3a upon the amount recovered, computed from the date of service of the notice of claim, provide, for any portion of the claim which the court finds was due and payable after the date of service of the notice of claim, such interest shall be computed from the date such portion became due and payable. The court judgement may award reasonable attorneys fees to either party if upon reviewing the entire record, it appears that the original claim, the surety's denial of liability, or the defense interposed to the claim is without substantial basis in fact or law. Any person having direct contractual relationship with a subcontractor but no contractual relationship express or implied with the contractor furnishing the payment bond shall have a right of action upon the payment bond upon giving written notice of claim as provided in this section.

(b) Every suit instituted under this section shall be brought in the name of the person suing, in the superior court for the judicial district where the contract was to be performed, irrespective of the amount in controversy in the suit, but no such suit may be commenced after the expiration of one year after the day on which the last of the labor was performed or material was supplied by the claimant.

(c) The word "material" as used in sections 49-41 to 49-43, inclusive, includes the rental of equipment used in the prosecution of work provided for in the contract."

6. CONNECTICUT SALES AND USE TAXES

- A. All contractors shall familiarize themselves with the current statutes and regulations of the Department of Revenue Services. The tax on materials or supplies exempted by such statutes and regulations shall not be included as part of a bid.
- B. Nonresident contractors must comply with the provisions of Connecticut General Statutes Section 12-430(7), Bond requirements for nonresident contractors, and the regulations established pursuant to that section.

7. CONTRACTOR'S QUALIFICATIONS

- A. All Bidders shall file with their bids a Statement of Bidder's Qualifications on the provided form.
- B. When evaluating a Contractor's qualifications, as per Section 4b-92 and 4b-94 of the Connecticut General Statutes, the Department shall evaluate: the skill, ability and integrity of the Contractor in terms of the Contractor's ability to fulfill the Contract obligations; and the Contractor's experience or lack of experience and the Commissioner reserves the right to reject any or all such Contractors that are deemed not qualified to perform the Work under this Contract.

8. PERCENTAGE OF WORK TO BE COMPLETED BY THE CONTRACTOR

The bidder must perform at least 70% of the Work with its own forces. At the time of Contract signing, the apparent low Bidder shall submit a letter certifying the percentage of the Work to be completed by its own forces and stating the portions of the Work by division or portion of the Technical Specifications and the estimated value thereof.

This project is also subject to the State's Contractor & Minority Business Set-Aside Program Goals of 25% Small Business Enterprise (SBE) and 6.25% Minority Business Enterprise (MBE) based on the entire amount of the Contract. The selected Contractor is therefore encouraged to solicit bids from subcontractors and/or vendors who are currently certified by the State through its Department of Administrative Services, Supplier Diversity Program, as MBEs which are SBEs with at least 51% ownership by one or more persons who are American Indian, Asian, Black, Hispanic, have origins in the Iberian Peninsula, women or disabled.

9. SUBCONTRACTORS

At the time of Contract Signing, the apparent low Bidder shall furnish the names and addresses of responsible and qualified Subcontractors who will perform Work on the Contract. The list shall show the Work to be performed by each Subcontractor by the division or portion of the Technical Specifications and the estimated value thereof.

10. CONTRACT TIME

- A. The Contract Time is the number of calendar days allowed for the execution and completion of the Contract. Calendar days shall mean consecutive days in order including Saturdays, Sundays and Legal Holidays. The time allowed for the Work to be done on a project will be computed on the basis of calendar days, but actual work shall not be performed on Saturdays, Sundays or Legal Holidays except by written direction or consent of the Department of Energy & Environmental Protection.
- B. All Work under this Contract shall be completed within 365 calendar days after Notice to Proceed.

11. UNION LABOR

Attention is called to the fact that there may be construction work now being carried on at the site at which this construction is contemplated being done by union labor. This fact must be kept in mind by all bidders.

12. QUANTITY OF WORK

- A. Bidders must satisfy themselves by personal examination of the site of the work and the plans relating thereto; and form their own judgements of the quantities and character of the Work to be done, and make their bids accordingly.
- B. No claims on account of the nature of the Work, the amount of the Work to be done or the site where the Work is to be executed will be considered or allowed by the State, except for Unit Price items stated in the Bid Proposal.

13. QUALITY OF WORK

- A. The selected Contractor shall be responsible for constructing and performing, and maintaining quality control, over all Work as required under Articles 2 through 8 and 14 of the Project General Conditions (Ref. Pages CG-6 through CG-8, and CG-10, of the Contract Documents).
- B. The selected Contractor shall also be subject to evaluation by the DEEP Inland Water Resources Division at the conclusion of the Project. The form (Personal Service Contractor Evaluation, OPM Form/Rev. 02-17-09) to be used for this purpose as designated by the DEEP Commissioner, is included in the Contract Documents.

INSTRUCTIONS TO BIDDERS

STATE OF CONNECTICUT DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

A complete bid package shall consist of the following, fully completed:

1. Proposal Form (refer to Part I.A, Page PF-1).
2. Bid Security (refer to Pages BB-1, IB-1, NB-1, and PF-6).
3. Statement of Bidder's Qualifications (refer to Pages BQ-1 through BQ-3 and paragraph 7 on Page NB-5).
4. CT CHRO Contract Compliance Regulations and Notification to Bidders (Rev. 9/17/09) 6 Bidder Contract Compliance Monitoring Report forms (refer to Part I.B).
5. CT OPM Ethics Form 6 (Rev. 4/6/09), Affirmation of Receipt of State Ethics Laws Summary (refer to Part I.B).
6. SEEC Form 10 (Per Public Act 07-1)
7. State of Connecticut Labor Department Form E.O. 3-1, "Employer Report of Compliance Staffing" (refer to Part I.B and Page IB-2 regarding implementation of Executive Order Number Three.)

Under Paragraph 3A of the Proposal Form (refer to Page PF-2), the Contractor agrees to hold the Bid for one hundred twenty (120) days after the opening date.

Bidders should note that the State of Connecticut Labor Department prevailing wage rates will apply to this project as required under Articles 20 and 21 of the General Conditions. (Part III.A, Pages CG-13 and CG-14).

Hartford, Connecticut 06106-5127

Dear Sir:

1. Pursuant to, and in compliance with your Invitation to Bid for the **Repairs to Savin Lake Dam, Lebanon, CT**, the Notice to Bidders, the Contract, including the conditions thereto, and the Bid Security, (I/we) propose to furnish the labor and/or materials, installed as required for the project named and numbered in paragraph 4 of this Proposal, submitted herein, furnishing all necessary equipment, machinery, tools, labor and other means of construction, and all materials specified in the manner and at the time prescribed strictly in accordance with the provisions of the Contract, including, but not limited to, the Specifications and/or Plans together with all addenda issued by your authority and received prior to the scheduled closing time for the receipt of the bids, and in conformity with requirements of the Awarding Authority and any laws or Departmental regulations of the State of Connecticut or of the United States which may affect the same, for and in consideration of the price(s) stated in paragraph 4.C. of this Proposal.
2. The Total Bid Price in paragraph 4.C. of this Proposal includes all work indicated on the Plans and/or described in these Specifications, and is based on the Unit Price Bids as shown.

(I/We) will complete the work of this Project for the Total Bid Price, as may be adjusted for actual quantities of unit bid price items, as listed in paragraph 4 of this Proposal.

(I/We) understand, that (I/we) must complete the Bid by filling out all blanks, unit prices and computed totals for all unit price items and list the Total Bid Price both in figures and words.

3. In submitting this Bid, (I/we) agree:

- A. To hold (my/our) Bid open for 120 days after the actual Bid Opening date.
- B. To accept the provisions of the Notice to Bidders regarding disposition of the Bid Security.
- C. To enter into and execute a Contract, if awarded, on the basis of this Bid and to provide the required Performance Bond and Labor and Material Bond for the work in accordance with the Notice to Bidders.
- D. To complete the work in accordance with the Contract Documents.
- E. To complete the work within the Contract Time of 365 calendar days.

4. PROPOSAL AND OTHER PROJECT DATA

- A. The undersigned proposes to furnish all labor and materials required to complete:

**Repairs to Savin Lake Dam
Lebanon, CT**

- in accordance with Plans and Technical Specifications prepared by Macchi Engineers, LLC, and subject to and in compliance with the foregoing and following conditions and information set forth and contained in the Contract Documents. Specifically, the Bidder acknowledges that only those Unit Price items as are listed in this Proposal, exclusive of extra work, will be measured for payment. Contractors will be paid only for actual Work performed as measured in accordance with the Contract Documents.
- B. This Bid includes all Addenda issued as of the bid due date set forth in the Invitation to Bid (refer to Page IB-1).
 - C. This Bid was determined as follows:

TOTAL CONSTRUCTION BID ESTIMATE					
Total Bid Price in Words: _____ _____ _____					

AWARD - I/we acknowledge the following:

- i) All proposals shall be subject to provisions of Paragraph 1 of the Notice to Bidders and for the purpose of award; consideration will be given only to Proposals submitted by qualified and responsible bidders.
- ii) The Award will be made on the basis of the lowest responsive Total Bid Price, provided funds are available.
- iii) In the event of any discrepancy between the amount written in words and the amount written in numerical figures, the amount written in words will be controlling.
- iv) That award of the Contract to a Bidder will be contingent upon determination by the Connecticut Department of Energy & Environmental Protection and the Connecticut Commission on Human Rights and Opportunities that the Bidder is in compliance with Sections 4a-60 and 4a-60a of the Connecticut General Statutes (øC.G.S.ø) and Section 46a-68j-23 of the Regulations of Connecticut State Agencies (øR.C.S.A.ø) regarding equal employment opportunity, and the Bidder's good faith efforts to include minority business enterprises as subcontractors and suppliers for the Work of the Contract. Upon notification of a Bidder by said Department of Energy & Environmental Protection as the lowest responsible bidder, said determination of compliance may require the successful completion of an Affirmative Action Plan as required under C.G.S. Sections 46a-68c and -68d, and R.C.S.A. Section 46a-68j-27(1).

E. CONTRACT SCHEDULE AND LIQUIDATED DAMAGES

All work under this Contract will be completed within 365 calendar days after Notice to Proceed. If the project completion is delayed, liquidated damages will be assessed at the rate of one thousand three hundred dollars (\$1300.00) per calendar day thereafter.

F. CONTRACTOR'S INSURANCE REQUIRED

- i) The limits of liability for the insurance required for this project shall be those listed in Article 16 of the General Conditions.
- ii) Special Hazards Insurance is Required.

G. STATEMENT OF BIDDER'S QUALIFICATIONS

Refer to Paragraph 7 of the Notice to Bidders relative to the submitting of Statement of Bidder's Qualifications.

When evaluating a Contractor's qualifications, as per Section 4b-92 and 4b-94 of the Connecticut General Statutes, the Commissioner shall evaluate: the skill, ability and integrity of the Contractor in terms of the Contractor's ability to fulfill the Contract obligations; and the Contractor's experience or lack of experience and the Commissioner reserves the right to reject any or all such Contractors that he deems are not qualified to

perform the work under this Contract.

H. NONDISCRIMINATION LABOR RECRUITMENT

(I/We) agree that the Contract awarded for this project shall be subject to Executive Orders No. Three and Seventeen, promulgated June 16, 1971 and February 15, 1973, respectively, and to currently applicable State of Connecticut guidelines and requirements for implementation.

I. VIOLENCE IN THE WORKPLACE

(I/We) agree that the Contract awarded for this project shall be subject to Executive Order No. Sixteen, promulgated August 4, 1999, regarding violence in the workplace.

J. CONTRACTING REFORMS

(I/We) agree that the Contract awarded for this project shall be subject to Executive Order No. 7C, promulgated July 13, 2006, regarding contracting reforms.

5. ACCOMPANYING THIS PROPOSAL IS

A STANDARD BID BOND having as surety thereto a Surety Company or Companies authorized to transact business in the State of Connecticut and made out in the penal sum of:

_____ DOLLARS (\$_____)

6. (I/We), the undersigned, hereby declare that (I am/we are) the only person(s) interested in the Proposal; that it is made without any connection with any other person making any bid for the same work; that no person acting for, or employed by, the State of Connecticut is directly or indirectly interested in this proposal, or in any contract which may be made under it, or in expected profits to arise therefrom; that this Proposal is made without directly or indirectly influencing or attempting to influence any other person or corporation to bid or to refrain from bidding or to influence the amount of the bid of any other person or corporation; that this Proposal is made in good faith without collusion or connection with any other person bidding for the same work; and this Proposal is made with distinct reference and relation to the Plans and Specifications prepared for this Contract.

7. (I/We) further declare that in regard to the conditions affecting the work to be done and the labor and materials needed, this Proposal is based solely on (my/our) own investigation and research and not in reliance upon any representations of any employee, officer or agent of the State.

STATE OF CONNECTICUT
DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

KNOW ALL BY THESE PRESENTS, That we, _____,
hereinafter called the Principal, of _____, as
Principal, and _____, hereinafter,
called the Surety, a corporation organized and existing under the laws of the State of _____,
and duly authorized to transact a surety business in the State of Connecticut, as Surety, are held and
firmly bound unto the State of Connecticut, as Obligee, in the penal sum of ten (10) per cent of the
amount of the bid set forth in a proposal hereinafter mentioned,

_____,
lawful money of the United State of America, for the payment of which, well and truly to be made to
the Obligee, the Principal and the Surety bind themselves, their heirs, executors, administrators,
successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, That, whereas the Principal has submitted or is
about to submit a proposal to the Obligee related to construction of the project entitled:

“Repair to Savin Lake Dam, Lebanon, CT”

NOW, THEREFORE, if the said Contract be awarded to the Principal and the Principal shall, within
such time as may be specified, enter into the said Contract in writing with the State of Connecticut and
give the required bonds, with surety acceptable to the Obligee, or if the Principal shall fail to do so, pay
to the Obligee the damages which the Obligee may suffer by reason of such failure not exceeding the
penalty of this bond, then this obligation shall be void, otherwise to remain in full force and effect.

NOTE: All forms associated with these items must be completed by Bidders and submitted with bids.

COMMISSION ON HUMAN RIGHTS AND OPPORTUNITIES
CONTRACT COMPLIANCE REGULATIONS
NOTIFICATION TO BIDDERS

(Revised 09/17/07)

The contract to be awarded is subject to contract compliance requirements mandated by Sections 4a-60 and 4a-60a of the Connecticut General Statutes; and, when the awarding agency is the State, Sections 46a-71(d) and 46a-81i(d) of the Connecticut General Statutes. There are Contract Compliance Regulations codified at Section 46a-68j-21 through 43 of the Regulations of Connecticut State Agencies, which establish a procedure for awarding all contracts covered by Sections 4a-60 and 46a-71(d) of the Connecticut General Statutes.

According to Section 46a-68j-30(9) of the Contract Compliance Regulations, every agency awarding a contract subject to the contract compliance requirements has an obligation to “aggressively solicit the participation of legitimate minority business enterprises as bidders, contractors, subcontractors and suppliers of materials.” “Minority business enterprise” is defined in Section 4a-60 of the Connecticut General Statutes as a business wherein fifty-one percent or more of the capital stock, or assets belong to a person or persons: “(1) Who are active in daily affairs of the enterprise; (2) who have the power to direct the management and policies of the enterprise; and (3) who are members of a minority, as such term is defined in subsection (a) of Section 32-9n.” “Minority” groups are defined in Section 32-9n of the Connecticut General Statutes as “(1) Black Americans . . . (2) Hispanic Americans . . . (3) persons who have origins in the Iberian Peninsula . . . (4) Women . . . (5) Asian Pacific Americans and Pacific Islanders; (6) American Indians . . .” An individual with a disability is also a minority business enterprise as provided by Section 4a-60g of the Connecticut General Statutes. The above definitions apply to the contract compliance requirements by virtue of Section 46a-68j-21(11) of the Contract Compliance Regulations.

The awarding agency will consider the following factors when reviewing the bidder’s qualifications under the contract compliance requirements:

- (a) the bidder’s success in implementing an affirmative action plan;
- (b) the bidder’s success in developing an apprenticeship program complying with Sections 46a-68-1 to 46a-68-17 of the Administrative Regulations of Connecticut State Agencies, inclusive;
- (c) the bidder’s promise to develop and implement a successful affirmative action plan;
- (d) the bidder’s submission of employment statistics contained in the “Employment Information Form”, indicating that the composition of its workforce is at or near parity when compared to the racial and sexual composition of the workforce in the relevant labor market area; and
- (e) the bidder’s promise to set aside a portion of the contract for legitimate minority business enterprises. See Section 46a-68j-30(10)(E) of the Contract Compliance Regulations.

INSTRUCTIONS AND OTHER INFORMATION

The following BIDDER CONTRACT COMPLIANCE MONITORING REPORT must be completed in full, signed, and submitted with the bid for this contract. The contract awarding agency and the Commission on Human Rights and Opportunities will use the information contained thereon to determine the bidders compliance to Sections 4a-60 and 4a-60a CONN. GEN. STAT., and Sections 46a-68j-23 of the Regulations of Connecticut State Agencies regarding equal employment opportunity, and the bidder’s □□good faith efforts to include minority business enterprises as subcontractors and suppliers for the work of the contract.

1) **Definition of Small Contractor**

Section 4a-60g CONN. GEN. STAT. defines a small contractor as a company that has been doing business under the same management and control and has maintained its principal place of business in Connecticut for a one year period immediately prior to its application for certification under this section, had gross revenues not exceeding ten million dollars in the most recently completed fiscal year, and at least fifty-one percent of the ownership of which is held by a person or persons who are active in the daily affairs of the company, and have the power to direct the management and policies of the company, except that a nonprofit corporation shall be construed to be a small contractor if such nonprofit corporation meets the requirements of subparagraphs (A) and (B) of subdivision 4a-60g CONN. GEN. STAT.

MANAGEMENT: Managers plan, organize, direct, and control the major functions of an organization through subordinates who are at the managerial or supervisory level. They make policy decisions and set objectives for the company or departments. They are not usually directly involved in production or providing services. Examples include top executives, public relations managers, managers of operations specialties (such as financial, human resources, or purchasing managers), and construction and engineering managers.

BUSINESS AND FINANCIAL OPERATIONS: These occupations include managers and professionals who work with the financial aspects of the business. These occupations include accountants and auditors, purchasing agents, management analysts, labor relations specialists, and budget, credit, and financial analysts.

MARKETING AND SALES: Occupations related to the act or process of buying and selling products and/or services such as sales engineer, retail sales workers and sales representatives including wholesale.

LEGAL OCCUPATIONS: In-House Counsel who is charged with providing legal advice and services in regards to legal issues that may arise during the course of standard business practices. This category also includes assistive legal occupations such as paralegals, legal assistants.

COMPUTER SPECIALISTS: Professionals responsible for the computer operations within a company are grouped in this category. Examples of job titles in this category include computer programmers, software engineers, database administrators, computer scientists, systems analysts, and computer support specialists

ARCHITECTURE AND ENGINEERING: Occupations related to architecture, surveying, engineering, and drafting are included in this category. Some of the job titles in this category include electrical and electronic engineers, surveyors, architects, drafters, mechanical engineers, materials engineers, mapping technicians, and civil engineers.

OFFICE AND ADMINISTRATIVE SUPPORT: All clerical-type work is included in this category. These jobs involve the preparing, transcribing, and preserving of written communications and records; collecting accounts; gathering and distributing information; operating office machines and electronic data processing equipment; and distributing mail. Job titles listed in this category include telephone operators, bill and account collectors, customer service representatives, dispatchers, secretaries and administrative assistants, computer operators and clerks (such as payroll, shipping, stock, mail and file).

BUILDING AND GROUNDS CLEANING AND MAINTENANCE: This category includes occupations involving landscaping, housekeeping, and janitorial services. Job titles found in this category include supervisors of landscaping or housekeeping, janitors, maids, grounds maintenance workers, and pest control workers.

CONSTRUCTION AND EXTRACTION: This category includes construction trades and related occupations. Job titles found in this category include boilermakers, masons (all types), carpenters, construction laborers, electricians, plumbers (and related trades), roofers, sheet metal workers, elevator installers, hazardous materials removal workers, paperhangers, and painters. Paving, surfacing, and tamping equipment operators; drywall and ceiling tile installers; and carpet, floor and tile installers and finishers are also included in this category. First line supervisors, foremen, and helpers in these trades are also grouped in this category..

INSTALLATION, MAINTENANCE AND REPAIR: Occupations involving the installation, maintenance, and repair of equipment are included in this group. Examples of job titles found here are heating, ac, and refrigeration mechanics and installers; telecommunication line installers and repairers; heavy vehicle and mobile equipment service technicians and mechanics; small engine mechanics; security and fire alarm systems installers; electric/electronic repair, industrial, utility and transportation equipment; millwrights; riggers; and manufactured building and mobile home installers. First line supervisors, foremen, and helpers for these jobs are also included in the category.

MATERIAL MOVING WORKERS: The job titles included in this group are Crane and tower operators; dredge, excavating, and lading machine operators; hoist and winch operators; industrial truck and tractor operators; cleaners of vehicles and equipment; laborers and freight, stock, and material movers, hand; machine feeders and offbearers; packers and packagers, hand; pumping station operators; refuse and recyclable material collectors; and miscellaneous material moving workers.

PRODUCTION WORKERS: The job titles included in this category are chemical production machine setters, operators and tenders; crushing/grinding workers; cutting workers; inspectors, testers sorters, samplers, weighers; precious stone/metal workers; painting workers; cementing/gluing machine operators and tenders; etchers/engravers; molders, shapers and casters except for metal and plastic; and production workers.

<p><u>White</u> (not of Hispanic Origin)- All persons having origins in any of the original peoples of Europe, North Africa, or the Middle East.</p> <p><u>Black</u>(not of Hispanic Origin)- All persons having origins in any of the Black racial groups of Africa.</p> <p><u>Hispanic</u>- All persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.</p>	<p><u>Asian or Pacific Islander</u>- All persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes China, India, Japan, Korea, the Philippine Islands, and Samoa.</p> <p><u>American Indian or Alaskan Native</u>- All persons having origins in any of the original peoples of North America, and who maintain cultural identification through tribal affiliation or community recognition.</p>

STATE OF CONNECTICUT

AFFIRMATION OF RECEIPT OF STATE ETHICS LAWS SUMMARY

Written or electronic affirmation to accompany a large State construction or procurement contract, having a cost of more than \$500,000, pursuant to Connecticut General Statutes §§ 1-101mm and 1-101qq

INSTRUCTIONS:

Complete all sections of the form. Submit completed form to the awarding State agency or contractor, as directed below.

CHECK ONE:

- I am a person seeking a large State construction or procurement contract. I am submitting this affirmation to the awarding State agency with my bid or proposal. [Check this box if the contract will be awarded through a competitive process.]
- I am a contractor who has been awarded a large State construction or procurement contract. I am submitting this affirmation to the awarding State agency at the time of contract execution. [Check this box if the contract was a sole source award.]
- I am a subcontractor or consultant of a contractor who has been awarded a large State construction or procurement contract. I am submitting this affirmation to the contractor.
- I am a contractor who has already filed an affirmation, but I am updating such affirmation either (i) no later than thirty (30) days after the effective date of any such change or (ii) upon the submittal of any new bid or proposal, whichever is earlier.

IMPORTANT NOTE:

Within fifteen (15) days after the request of such agency, institution or quasi-public agency for such affirmation contractors shall submit the affirmations of their subcontractors and consultants to the awarding State agency. Failure to submit such affirmations in a timely manner shall be cause for termination of the large State construction or procurement contract.

AFFIRMATION:

I, the undersigned person, contractor, subcontractor, consultant, or the duly authorized representative thereof, affirm (1) receipt of the summary of State ethics laws* developed by the Office of State Ethics pursuant to Connecticut General Statutes § 1-81b and (2) that key employees of such person, contractor, subcontractor, or consultant have read and understand the summary and agree to comply with its provisions.

* The summary of State ethics laws is available on the State of Connecticut's Office of State Ethics website.

**Guide to the Code of Ethics
For Current or Potential
State Contractors**

2015

Guide for Current or Potential State Contractors

INTRODUCTION

The Connecticut Office of State Ethics (OSE) is an independent regulatory agency for the state of Connecticut, charged with administering and enforcing the Connecticut Codes of Ethics, located in the Connecticut General Statutes, Chapter 10.

The Ethics Codes under the OSE's jurisdiction are comprised of:

- The Code of Ethics for Public Officials (Part I);
- The Code of Ethics for Lobbyists (Part II); and
- Limited jurisdiction over Ethical Considerations Concerning Bidding and State Contracts (Part IV).

This guide provides general information only. The descriptions of the law and the OSE in this guide are not intended to be exhaustive. Please review the Advisory Opinions and Declaratory Rulings on our website or contact the Legal Division of the OSE with any questions regarding interpretation of the law.

For more information on the subjects discussed in this guide, call, write or visit:

Connecticut Office of State Ethics
18-20 Trinity Street
Suite 205
Hartford, CT 06106

Guide for Current or Potential State Contractors

THE OFFICE OF STATE ETHICS (OSE)

The Connecticut Office of State Ethics (OSE) was officially created on July 1, 2005, by Public Act 05-183. The governing body of the OSE is the Citizen's Ethics Advisory Board (CEAB), nine members appointed by the Governor and legislative leadership. The CEAB holds monthly meetings that are open to the public and that are often covered by CT-N. A schedule of CEAB meeting dates, times and locations is available on the OSE's Web site, www.ct.gov/ethics.

The OSE is an independent watchdog agency for the state of Connecticut that administers Connecticut General Statutes, Chapter 10, Parts I and II, with limited jurisdiction over Part IV.

Simply put, the OSE educates all those covered by the law (the "regulated community"); provides information to the public; interprets and applies the codes of ethics; and investigates potential violations, and otherwise enforces the codes.

The OSE is made up of the following components:

- Citizen's Ethics Advisory Board
- Executive Director
- Legal Division
- Enforcement Division

THE BIG PICTURE

All state officials and employees (except judges) are covered by Part I of the Code of Ethics for Public Officials (henceforth, Part I, or the Code). It is important to remember that certain provisions of the Code also apply to public officials and state employees after they leave state service.

As you read through this guide, be aware that these laws were enacted to prevent individuals from using their public position or authority for personal, financial benefit.

Each state agency also has its own ethics policy, which in many cases may be more restrictive than what follows. Be sure to obtain a copy of the agency's policy before you attempt to provide any benefit to an agency official or employee.

Guide for Current or Potential State Contractors

GIVING BENEFITS TO STATE PERSONNEL

Gifts

As a current or potential state contractor, you are presumably doing business with or seeking to do business with a state agency, and are therefore considered to be a **restricted donor**. In general, public officials, state employees and candidates for public office may not accept gifts from restricted donors.

Restricted Donors

Restricted donors include:

- Registered lobbyists (a list is available on the OSE's Web site) or a lobbyist's representative;
- Individuals or groups doing business with a state department or agency;
- Individuals or groups seeking to do business with a state department or agency;
- Individuals or groups engaged in activities regulated by a state department or agency; or
- Contractors pre-qualified by the Connecticut Department of Administrative Services (Conn. Gen. Stat. § 4a-100).

A **gift** is defined as anything of value that is directly and personally received by a public official or state employee (or sometimes family members of those two categories) *unless* consideration of equal or greater value is provided. Conn. Gen. Stat. § 1-79 (e).

Gift Exceptions

There are, however, certain exceptions to this definition of gift. Not all exceptions are covered below; see Conn. Gen. Stat. § 1-79 (e) (1) – (17) for the complete list.

- *Token Items* – Restricted donors such as current or potential state contractors may provide any item of value that is not more than \$10 (such as a pen, mug, or inexpensive baseball cap) to a public official or state employee, provided that the annual aggregate of such items from a single source is \$50 or less. Conn. Gen. Stat. § 1-79 (e) (16).
- *Food and Beverage* – Restricted donors may also provide less than \$50 worth of food and beverage in a calendar year to a public official or state employee, provided that the restricted donor or his/her representative is in attendance when the food and/or beverage is being consumed. Conn. Gen. Stat. § 1-79 (e) (9).
- *Training* – Vendors may provide public officials and state employees with training for a product purchased by a state or quasi-public agency provided such training is offered to all customers of that vendor. Conn. Gen. Stat. § 1-79 (e) (17).

Guide for Current or Potential State Contractors

- *Gifts to the State* – Restricted donors may provide what are typically referred to as “gifts to the state.” These gifts are goods and services provided to a state agency or quasi-public agency for use on state or quasi-public agency property or that support an event, and which facilitate state or quasi-public action or functions. Conn. Gen. Stat. § 1-79 (e) (5).
- *Other Exceptions* – There are a total of 17 separate gift exceptions in the Code. Also exempt from the definition of gift are items such as informational materials germane to state action, ceremonial plaques or awards costing less than \$100, or promotional items, rebates or discounts also available to the general public. See Conn. Gen. Stat. § 1-79 (e) (1) – (17).

Note: The popularly-cited exception for major life events does not apply to those who are regulated by, doing business with or seeking to do business with a state agency. The only restricted donor that can make use of this very narrow exception is a registered lobbyist.

Gift Provisions

Example: You are in the process of submitting a contracting bid to a state agency. You provide the agency head with a gift certificate for \$45 to a popular West Hartford eatery for her to use on her own. You have not previously given anything of value to this individual.

Even though you are under the permissible \$49.99 food and beverage limit, this gift is not allowed because you or your representative will not be in attendance while the food and beverage is being consumed.

Reporting Requirements

Should you or your representative give something of \$10 or more in value to a public official or state employee, you must, within **10 days**, give the gift recipient and the head of that individual’s department or agency a written report stating:

- Name of the donor;
- Description of item(s) given;
- Value of such item(s); and
- Total cumulative value of all items to date given to that recipient during the calendar year.

This helps both you and the state employee keep track of the gift exceptions noted above, so that permissible limits are not exceeded. Conn. Gen. Stat. § 1-84 (o). A courtesy form is available for this notification on the OSE’s Web site, in the “Forms” section.

Guide for Current or Potential State Contractors

Necessary Expenses

You may provide necessary expenses to a public official or state employee *only* if the official or employee, in his/her official capacity, is actively participating in an event by giving a speech or presentation, running a workshop, or having some other active involvement.

Necessary expenses are limited to:

- Travel (coach or economy class);
- Lodging (standard cost of room for the nights before, of, and immediately following the event);
- Meals; and
- Related conference expenses.

Conn. Gen. Stat. § 1-79 (9).

Entertainment costs (tickets to sporting events, golf outings, night clubs, etc.) are *not* necessary expenses. Necessary expense payments also *do not* include payment of expenses for family members or other guests.

Fees/Honorariums

Public officials and state employees may *not* accept fees or honorariums for an article, appearance, speech or participation at an event in their official capacity.

Fees or honorariums for such activities, if offered based solely on expertise and without any regard to official capacity, may be acceptable. Contact the OSE before offering such payment to an official or employee. Conn. Gen. Stat. § 1-84 (k).

Necessary Expenses, Fees and Honorariums

Example: You invite a state employee to travel to New York City to give a speech to your managers on issues surrounding contracting with a state agency. You provide Amtrak fare for the employee as well as his spouse, who will spend the day in the city. The evening of the speech, you will treat the employee and his spouse with complimentary tickets to a Broadway show in lieu of a speaking fee.

You may provide coach class travel expenses only to the state employee who is actively participating in an event. In this case, you may only provide Amtrak fare for the employee giving the speech, not his spouse. Entertainment costs, such as tickets to a show, are not considered necessary expenses and may not be provided. Additionally, state employees may not accept fees or honorariums for a speech given in their official capacity.

Guide for Current or Potential State Contractors

HIRING STATE PERSONNEL

Post-state Employment (Revolving Door)

If you are considering hiring a *former* state employee, you should be aware of the Code's post-state employment, or revolving door, provisions.

Lifetime Bans

- Former state employees may **never** disclose any confidential information they learned during the course of their state service for anyone's financial gain. Conn. Gen. Stat. § 1-84a.
- A former state official or employee may **never** represent anyone other than the state regarding a particular matter in which he or she was personally or substantially involved while in state service and in which the state has a substantial interest. This prevents side-switching. Conn. Gen. Stat. § 1-84b (a).

One-year Bans

- If you hire or otherwise engage the services of a former state official or employee, he or she may not represent you before his or her former agency for a period of **one year** after leaving state service. Conn. Gen. Stat. § 1-84b (b). (See Advisory Opinion 2003-3, which provides a limited exception to this provision if the employee is providing purely technical expertise to help implement a previously-awarded contract. This exception applies to extremely limited circumstances; contact the OSE for guidance.)
- You are prohibited from hiring a former state official or employee for a period of **one year** after he or she leaves state service if that individual was substantially involved in, or supervised, the negotiation or award of a contract (that you or your business was a party to) valued at \$50,000 or more, and the contract was signed within his or her last year of state service. Conn. Gen. Stat. § 1-84b (f).
- Employees who held certain specifically-designated positions (with significant decision-making or supervisory responsibility) at certain state regulatory agencies are prohibited from seeking or accepting employment with any business subject to regulation by the individual's agency within **one year** of leaving the agency. Likewise, such businesses may not hire those employees. Note that there is an exception for *ex-officio* board or commission members. Conn. Gen. Stat. § 1-84b (c).

Post-state Employment

Example: You run a hospital regulated by the Office of Health Care Access (OHCA). You would like to offer a job to the former Commissioner of OHCA, who has been out of state service for 5 months.

Because the hospital is regulated by a state agency whose Commissioner is specifically designated in 1-84b (c), the former head of such agency would not be permitted to accept employment with you for one full year after leaving state service. See Advisory Opinion 2003-19.

Guide for Current or Potential State Contractors

Outside Employment for Current Public Officials and State Employees

If you are considering hiring a *current* state employee, especially from a state agency with which you do business or by which you are regulated, you should be aware of the following rules regarding the employment of current state employees.

- A current state employee may not accept outside employment that impairs his or her independence of judgment regarding his or her state duties, or that encourages him or her to disclose confidential information learned in his or her state job. Conn. Gen. Stat. § 1-84 (b).
- A current state employee may not use his or her state position for his or her own financial gain or the gain of his or her family (spouse, child, child's spouse, parent, brother or sister) or an associated business, however inadvertent that use may be. Conn. Gen. Stat. § 1-84 (c).

Other Considerations

Business entities engaged in Indian gaming activities in the state should be aware of specific provisions that apply to present or former Gaming Policy Board or Division of Special Revenue public officials or employees. See Conn. Gen. Stat. §§ 1-84b (d) and (e).

Outside Employment

Example: Your small business occasionally receives grants or contracts from Agency X. You know that a particular contract manager with Agency X has the skills you need to help you grow your business. This employee has expressed interest in earning a little extra money for himself, while helping you with your business in the evenings and on weekends.

It would constitute an impermissible impairment of judgment for the employee of Agency X, who has contract management responsibilities, to accept outside employment with your business – a business that receives grants or contracts from Agency X.

Guide for Current or Potential State Contractors

OTHER PROVISIONS

Prohibited Activities for Consultants or Independent Contractors

If you are hired by the state as a consultant or independent contractor, you are prohibited from the following:

- Using your authority under the contract or any confidential information acquired during the course of the contract for your financial gain or the financial gain of your immediate family;
- Accepting another state contract that would impair your independence of judgment or your performance in your existing state contract; and
- Accepting anything of value based on the understanding that your actions on behalf of the state would be influenced.

Conn. Gen. Stat. § 1-86e (1) – (3); see also Conn. Gen. Stat. § 1-101nn.

Gift and/or Campaign Contribution Certifications

Contractors seeking large state contracts must provide certifications regarding gifts and/or campaign contributions made to certain state employees or public officials in the two-year period prior to the submission of a bid or proposal. Copies of these certifications and other updated information regarding state contractors can be found on the Web sites of the Department of Administrative Services (www.das.state.ct.us) and the Office of Policy and Management (www.opm.state.ct.us).

Investment Services and the Office of the Treasurer

If you or your business provides investment services, as defined in the Code, and you make a political contribution to the State Treasurer's campaign, you may be prohibited from contracting with the Office of the Treasurer. See Conn. Gen. Stat. § 1-84 (n).

Registering as a Lobbyist

If you or your business spends or receives over \$2,000 in a calendar year for activities that constitute lobbying under Part II of the Code of Ethics (whether to affect legislation or the actions of an administrative state agency), you/your business may have to register as a lobbyist with the Office of State Ethics. Lobbyist registration information is available at www.ct.gov/ethics.

Contribution Ban for Communicator Lobbyists (Conn. Gen. Stat. § 9-610 (g) and (h).)

Registered communicator lobbyists, their affiliated political action committees (PACs), as well as members of their immediate families are banned from soliciting or donating political campaign contributions. Please contact the State Elections Enforcement Commission at 860-256-2940 for more information.

Guide for Current or Potential State Contractors

Sessional Contribution Ban for Client Lobbyists (Conn. Gen. Stat. § 9-610 (e).)

Registered lobbyists and their affiliated political action committees (PACs) are banned from soliciting or donating political campaign contributions. Specifically, there is a temporary ban while the General Assembly is in session that applies to all registered client lobbyists and their affiliated PACs. Please contact the State Elections Enforcement Commission at 860-256-2940 for more information.

Public Act 05-287

Public Act 05-287 prohibits anyone who is a party (or seeking to become a party) to a large state construction, procurement, or consultant services contract over \$500,000 from:

- Soliciting information from a public official or state employee that is not available to other bidders for that contract, with the intent to obtain a competitive advantage;
- Intentionally or recklessly charging a state agency for work not performed or goods or services not provided;
- Falsifying invoices or bills; or
- Intentionally violating or circumventing state competitive bidding and ethics laws.

This Act also requires any prospective state contractor to affirm in writing that he or she has received a summary of the state's ethics laws and that his or her key employees have read and understood the summary and agree to comply with the applicable provisions. Conn. Gen. Stat. § 1-101qq.

An affirmation form is available through the Connecticut Office of Policy and Management.

Executive Orders

Executive Order 3

Under this Order, the Department of Administrative Services established and maintains on its Web site the State Contracting Portal for purposes of posting all contracting opportunities with state agencies and providing information on contracting processes and procedures.

Executive Order 7C

This Order covers the State Contracting Standards Board, established to conduct a comprehensive review of existing procurement and contracting laws and prepare a uniform code to govern all aspects of procurement and contracting.

The full text of these Executive Orders can be found on the Governor's Web site, www.ct.gov/governorrell/site/default.asp.

Article X of Executive Order Number Three

(a) The Labor Commissioner may hold or cause to be held hearings, prior to imposing, ordering, or recommending the imposition of penalties and sanctions under this Order. No order for disbarment of any contractor from further state contracts shall be made without affording the contractor an opportunity for a hearing. In accordance with such regulations as the Labor Commissioner may adopt, the Commissioner or the appropriate contracting agency may

- (1) Publish or cause to be published the names of contractors or labor organizations or employment agencies as hereinabove described which it has concluded have complied or failed to comply with the provisions of this Order or the regulations of the Labor Commissioner in implementing this Order.
- (2) Recommend to the Commission on Human Rights and Opportunities that in cases in which there is substantial or material violation or threat thereof of the contractual provision or related state statutes concerned herein, appropriate proceedings be brought to enforce them, including proceedings by the commission on its own motion under Chapter 563 of the General Statutes and the enjoining, within the limitations of applicable law, of organizations, individuals or groups who prevent directly or indirectly or seek to prevent directly or indirectly compliance with the provisions of this Order.
- (3) Recommend that criminal proceedings be brought under Chapter 939 of the General Statutes.
- (4) Cancel, terminate, suspend or cause to be canceled, terminated, or suspended in accordance with law any contract or any portion or portions thereof for failure of the contractor or subcontractor to comply with the discrimination provisions of the contract. Contracts may be canceled, terminated, suspended absolutely or their continuance conditioned upon a program for future compliance approved by the contracting agency.
- (5) Provide that any contracting agency shall refrain from entering into any further contracts or extensions or modifications of existing contracts with any contractor until he has satisfied the Labor Commissioner that he has established and will carry out personnel and employment policies compliant with this Order.
- (6) Under regulations prescribed by the Labor Commissioner each contracting agency shall make reasonable efforts within a reasonable period of time to secure compliance with the contractor provisions of this Order by methods of conference, conciliation, mediation or persuasion, before other proceedings shall be instituted under this Order or before a state contract shall be canceled or terminated in whole or in part for failure of the contractor or subcontractor to comply with the contract provisions of state statute of this Order.

GUIDELINES AND RULES OF STATE LABOR COMMISSIONER
IMPLEMENTING GOVERNOR'S EXECUTIVE ORDER NO. THREE

SEC. 1. PERSONS AND FIRMS SUBJECT TO EXECUTIVE ORDER NO. THREE AND GUIDELINES AND RULES

- a. Every contractor, or subcontractor as defined in Sec. 2 hereof, supplier of goods or services, vendor, bidder and prospective contractor or subcontractor, having ten or more employees as defined in Sec. 3 of these guidelines, having or entering into or bidding to enter into any type of contractual relationship with the State of Connecticut or any of its agencies, boards, commissions, departments or offices, and if the consideration, cost, subject matter or value of the goods or services exceeds \$5,000.00, shall be subject to the Governor's Executive Order No. Three and these Guidelines and Rules.
- b. A copy of the Governor's Executive Order No. Three and of these Guidelines and Rules shall be available to each said contractor, subcontractor, supplier, vendor, bidder and prospective contractor and subcontractor, and the said Executive Order No. Three and These Guidelines and Rules shall be incorporated by reference and made a part of the contract, purchase order, agreement or document concerned. A copy of the Executive Order and of these Guidelines and Rules shall be furnished to a contracting party or bidder on request.
- c. All persons, partnerships, associations, firms, corporations and other entities having less than ten employees as defined in Sec. 3 at the time of the bid and execution of the contract and continuing through the performance of the contract are exempt from the provisions of the said Executive Order and these Guidelines and Rules. All contracts, subcontracts, purchase orders and agreements wherein the consideration is \$5,000.00 or less shall be exempt from Executive Order No. Three and from these Guidelines and Rules.

SEC. 2. SUBCONTRACTORS.

As used herein, subcontractors are persons, partnerships, associations, firms or corporations or other entities having contractual relationship with a contractor who in turn has a contract with the State of Connecticut or any of its agencies, boards, commissions or departments. Subcontractors below this tier are exempt from the Executive Order and from these Guidelines and Rules.

SEC. 3. EMPLOYEES

As used herein, employees are persons working full or part-time irrespective of personnel classifications where wages, salaries, or earnings are subject to the Federal Insurance Contribution Act and/or to Federal Withholding Tax as a matter of law (whether in fact or not any actual withholding occurs in a given case), in an employee-employer relationship at the time of bid, contract execution, or offer or acceptance, and/or during any time thereafter during the existence of the performance period of the contract to the conclusion thereof.

SEC. 4. REPORTS.

- a. Prior to the execution of the contract or prior to acceptance of a bid, as the case may be, the contractor, subcontractor, bidder or vendor shall file a report with the State Labor Commissioner, which report shall be complete and contain all of the information therein prescribed. The report shall be on Form E.O. 3-1, a facsimile of which is attached hereto and made a part hereof, or in lieu thereof the contractor, subcontractor, bidder or vendor shall submit a detailed report containing all of the information required in Form E.O. 3-1.
- b. The Labor Commissioner may require the filing of additional reports prior to final payment or prior to any renewal or extension of the contract and during the duration of the contract at such times as the Commissioner may, in his discretion, from time to time deem necessary. The Labor Commissioner may require the filing of additional information or reports, and the contractor, subcontractor, bidder or vendor shall furnish said information or requests within the times prescribed by the Labor Commissioner.
- c. The Labor Commissioner may, at his discretion, also require timely statistical reports on the number of minority employees employed as to be employed in the performance of the contract, and the Labor Commissioner may define such minority groups or persons.
- d. Reports filed pursuant to these Guidelines and Rules in implementation of Executive Order No. Three and are public records subject to public inspection, but may be inspected only by federal and state officials having jurisdiction and authority to investigate matters of this type. All federal and state agencies empowered by law to investigate matters relating to Executive Order No. Three shall have access to these reports for inspection or copying during regular business hours.
- e. Any person who willfully, wantonly or through negligence destroys or permits to be destroyed, alters or allows to be altered after filing, any reports submitted in compliance herewith shall be subject to penalties as prescribed by law.

SEC. 5. MANDATORY CLAUSES IN DOCUMENTS.

- a. All contracts shall contain the following provisions verbatim:

This contract is subject to the provisions of Executive Order No. Three of Governor Thomas J. Meskill promulgated June 16, 1971 and, as such, this contract may be cancelled, terminated or suspended by the State Labor Commissioner for violation of or noncompliance with said Executive Order No. Three, or any state or federal law concerning nondiscrimination, notwithstanding that the Labor Commissioner is not a party in this contract. The parties to this contract, as part of the consideration hereof, agree that Executive Order No. Three is incorporated herein by reference and made a part hereof. The parties agree to abide by said Executive Order and agree that the State Labor Commissioner shall have continuing

jurisdiction in respect to contract performance in regard to nondiscrimination, until the contract is completed or terminated prior to completion.

The (contractor), (subcontractor), (bidder), (vendor) agrees, as part consideration hereof, that this (order) (contract) is subject to the Guidelines and Rules issued by the State Labor Commissioner to implement Executive Order No. Three, and that he will not discriminate in his employment practices or policies, will file reports as required, and will fully cooperate with the State of Connecticut and the State Labor Commissioner.

These provisions are in addition to and not in lieu of other clauses required by law.

- a. The above paragraphs contain requirements additional to those set forth in the July 16, 1971 directive to state agencies.
- b. Every purchase order or like form submitted by a vendor or bidder, as applicable, shall contain the following clause verbatim:

Vendor agrees, as part of the consideration hereof, that this order is subject to the provisions of Executive Order No. Three and the Guidelines and Rules issued by the Labor Commissioner implementing said order as to nondiscrimination, and vendor agrees to comply therewith.

- c. Where preprinted contract forms have been prescribed by federal authority and the rules of the federal agency prohibit the alteration thereof, the compliance officer of the state agency concerned shall submit to the Labor Commissioner a suggested short form or addendum acceptable to the federal agency, and in such cases, after approval by the Labor Commissioner, said clause may be substituted.

SEC. 6. COOPERATION OF STATE AGENCIES, BOARDS AND COMMISSIONS.

Every agency, board, commission and department of the State of Connecticut shall cooperate with the Labor Commissioner in the implementation of Executive Order No. Three and shall furnish such information and assistance as the Labor Commissioner may from time to time request.

SEC. 7. INVESTIGATIONS, COMPLAINTS.

The Labor Commissioner may initiate an investigation upon receipt of a compliant alleging discrimination. The Labor Commissioner may request that an investigation be conducted by the State agency which is the party to the contract in question. Investigations shall be conducted in accordance with acceptable legal standards, unregarding the rights of all parties involved, and obtaining all of the relevant facts necessary for a complete determination of the issues. If the Labor Commissioner is not satisfied with the investigation or any part thereof he may order it to continue or to proceed further.

SEC. 8. HEARINGS.

The Labor Commissioner or officers designated by the heads of the State agencies, boards and commissions may conduct hearings on complaints heard. Hearings shall be held only after a report of the complaint has been filed with the Labor Commissioner and after a hearing on the complaint has been authorized or directed by the Labor Commissioner. Hearings shall be conducted in accordance with the accepted principles of administrative law. All parties shall be afforded the opportunity to a full, fair, impartial and complete hearing, the opportunity to examine and cross examine witnesses and to be present at all sessions of the hearing. If any party is vulnerable to a charge of a violation of the law, he shall be afforded the opportunity to procure counsel who may be present at the hearing.

SEC. 9. EQUAL EMPLOYMENT OPPORTUNITIES.

All State contracting agencies, employees, and labor unions shall use their best efforts to provide equal employment opportunities to all apprentices and to provide training, employment and upgrading opportunities for disadvantaged workers in accordance with section 31-31(d) of the General Statutes.

SEC. 10. DUTIES OF CONTRACTING AGENCIES.

All State contracting agencies shall be responsible for compliance with said Executive Order and with all state and federal laws relating to equal employment opportunities. All contracting agencies conducting investigations for the Labor Commissioner pursuant to Executive Order No. Three and these Guidelines and Rules shall report to the Labor Commissioner the action taken or recommended with regard to each complaint filed. Each officer of the executive department, every commissioner, and each executive head of each State agency, board and commission in the executive branch of the State government is expected to assume the responsibility of seeing to complete compliance with the Governor's Executive Order No. Three and shall forthwith take steps to assure and guarantee that there shall be no discrimination within their departments, agencies, boards or commissions in the performance of any state contract or subcontract on the basis of race, creed, color, sex, age, national origin or national ancestry, or in any way in violation of any state or federal law relating thereto.

BY VIRTUE OF THE AUTHORITY VESTED IN ME PURSUANT TO EXECUTIVE ORDER NO. THREE EFFECTIVE JULY 16, 1971, AND THE GENERAL STATUTES OF CONNECTICUT.

Dated at Wethersfield, Connecticut this 19th day of Nov., 1971

JACK A. FUSARI
LABOR COMMISSIONER

STATE OF CONNECTICUT

Written or electronic PDF copy of the written certification to accompany a large state contract pursuant to P.A. No. 13-162 (Prohibiting State Contracts With Entities Making Certain Investments In Iran)

Respondent Name: _____

INSTRUCTIONS:

- CHECK ONE: [] Initial Certification. [] Amendment or renewal.

A. Who must complete and submit this form. Effective October 1, 2013, this form must be submitted for any large state contract, as defined in section 4-250 of the Connecticut General Statutes. This form must always be submitted with the bid or proposal, or if there was no bid process, with the resulting contract, regardless of where the principal place of business is located.

Pursuant to P.A. No. 13-162, upon submission of a bid or prior to executing a large state contract, the certification portion of this form must be completed by any corporation, general partnership, limited partnership, limited liability partnership, joint venture, nonprofit organization or other business organization whose principal place of business is located outside of the United States. United States subsidiaries of foreign corporations are exempt. For purposes of this form, a "foreign corporation" is one that is organized and incorporated outside the United States of America.

Check applicable box:

- [] Respondent's principal place of business is within the United States or Respondent is a United States subsidiary of a foreign corporation. Respondents who check this box are not required to complete the certification portion of this form, but must submit this form with its Invitation to Bid ("ITB"), Request for Proposal ("RFP") or contract package if there was no bid process. [] Respondent's principal place of business is outside the United States and it is not a United States subsidiary of a foreign corporation. CERTIFICATION required. Please complete the certification portion of this form and submit it with the ITB or RFP response or contract package if there was no bid process.

B. Additional definitions.

- 1) "Large state contract" has the same meaning as defined in section 4-250 of the Connecticut General Statutes; 2) "Respondent" means the person whose name is set forth at the beginning of this form; and 3) "State agency" and "quasi-public agency" have the same meanings as provided in section 1-79 of the Connecticut General Statutes.

C. Certification requirements.

No state agency or quasi-public agency shall enter into any large state contract, or amend or renew any such contract with any Respondent whose principal place of business is located outside the United States and is not a United States subsidiary of a foreign corporation unless the Respondent has submitted this certification.

Complete all sections of this certification and sign and date it, under oath, in the presence of a Commissioner of the Superior Court, a Notary Public or a person authorized to take an oath in another state.

CERTIFICATION:

I, the undersigned, am the official authorized to execute contracts on behalf of the Respondent. I certify that:

- [] Respondent has made no direct investments of twenty million dollars or more in the energy sector of Iran on or after October 1, 2013, as described in Section 202 of the Comprehensive Iran Sanctions, Accountability and Divestment Act of 2010. [] Respondent has either made direct investments of twenty million dollars or more in the energy sector of Iran on or after October 1, 2013, as described in Section 202 of the Comprehensive Iran Sanctions, Accountability and Divestment Act of 2010, or Respondent made such an investment prior to October 1, 2013 and has now increased or renewed such an investment on or after said date, or both.

Sworn as true to the best of my knowledge and belief, subject to the penalties of false statement.

Outline of Work (Purpose, Scope, Activities, Outcomes):

Rate the Contractor's performance using the following scale:

5 = Excellent 4 = Superior 3 = Satisfactory 2 = Fair 1 = Unsatisfactory 0 = Not Applicable

- _____ QUALITY OF WORK. Contractor performed tasks, duties, functions, or assignments according to contract specifications.
- _____ RELIABILITY. Contractor adhered to the work schedule, achieved milestones (if any), and met deadlines.
- _____ KEY PERSONNEL. Contractor assigned adequate and properly qualified, equipped, and trained staff to perform the work.
- _____ SUPERVISION. Contractor adequately supervised key personnel and other staff assigned to do the work.
- _____ FINANCIALS. Contractor adhered to cost and other financial provisos, including prompt payment of subcontractors or suppliers.
- _____ COMPLIANCE. Contractor abided by governmental policies, procedures, laws, and regulations, including AA and EEO.
- _____ INDEPENDENCE. Contractor was able to complete work independently, with little agency oversight or direction.
- _____ COOPERATION. Contractor was able to work with others, including agency staff, other contractors, and the general public.

- _____ TOTAL RATING _____ AVERAGE RATING (Total ÷ 8)

Explain any areas where the Contractor's performance was less than Satisfactory:

- Certificate of Insurance Form CI-1 - CI-2
- Performance Bond Form PB-1 - PB-2
- Labor and Material Bond Form LMB-1 - LMB-2
- Corporate Resolution Guidelines CRG-1 - CRG-8

NOTE: All forms associated with these items must be completed and submitted by the selected prospective Contractor and returned with a signed PSA Contract form (prepared by the DEEP/IWRD for Contractor's signature) or brought with the Contractor to a Contract signing appointment with DEEP/IWRD Engineering Services staff

INSTRUCTIONS TO LOWEST QUALIFIED BIDDER

STATE OF CONNECTICUT DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

The prospective Contractor receiving notification as the lowest qualified Bidder of selection for the Contract signing must supply the following within 10 calendar days after said notification:

1. Certification that the Contractor will perform at least 60% of the Work with its own forces including the portions and values of the Work to be completed (Paragraph 8 of the Notice to Bidders - Part I.A, Section NB, of these Contract Documents).
2. A list of Subcontractors to be used by the Contractor, including the portions and values of the Work to be completed by each (Paragraph 9 of Part I.A, Section NB).
3. The following Contract Compliance items (in addition to the Contract Compliance forms required of Bidders to be completed and submitted with bids under Section I.B):
 - DOL Wage Rates, Contractor Wage and Weekly Payroll Certification Forms
 - OPM Ethics Form 1, Gift and Campaign Contribution Certification; and,
 - OAG Nondiscrimination Certification Form Rev. 09-20-2007.
4. After acceptance of an apparent lowest responsible Bidder's bid, and prior to Execution of the Contract by the State, the CT Commission on Human Rights and Opportunities (CHRO) will be notified by the DEEP of the pending Contract Execution. The prospective Contractor must file with and receive approval of an affirmative action (AA) plan by the CHRO. If during the process of executing and awarding a contract, the tentative contractor has filed but not yet received full AA plan approval, the DEEP, after notifying and receiving permission from the CHRO, may proceed with execution and award subject to withholding and retaining 2% from any payment(s) due the contractor in accordance with the terms of the contract. Such amount(s) retained for the purpose of assuring compliance with AA plan requirements would be withheld by the DEEP until the DEEP has been notified by the CHRO that the contractor has obtained full AA plan approval. Otherwise, the tentative contractor must receive full AA plan approval from the CHRO prior to commencing construction. Any 2% amount(s) retained in order to assure AA plan compliance would be in addition to any amount(s) retained by the DEEP for other purposes under the terms of the contract (Ref. Contract Documents, Section III.A, Supplemental Conditions, par. 19.D, pg. SC-5 of 9).
5. Certification of Insurance (Section CI and Paragraph 4F of Section PF).
6. Performance Bond (Section PB and Paragraph 5A of Section NB).
7. Labor and Material Bond (Section LMB and Paragraph 5B of Section NB).
8. Corporate resolution designating the individual authorized to sign agreements for the Contractor (Part II.A, Guidelines).

9. Signed and sealed PSA contract (forms to be signed are prepared by DEEP/IWRD ó Part II.C.)

NOTE: Under Paragraph #A of the Proposal Form (Section PF), the Contractor agrees to hold his bid for one hundred twenty (120) days after the bid opening date.

Within one (1) week after the Notice To Proceed, and prior to commencement of any work on site, the Contractor shall submit a Construction Schedule, Schedule of Values for lump sum items, Sedimentation and Erosion Control measures, Water Control Plan, and Environmental Protection Plan (paragraphs 10A through 10D and 12 of Section SC).

PERFORMANCE BOND

STATE OF CONNECTICUT
DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

KNOW ALL BY THESE PRESENTS, THAT _____

of the Town of _____ County of _____ and State of _____

as Principal (hereinafter called the Principal), and _____
a surety company authorized to transact business in Connecticut, as Surety (hereinafter called the
Surety), are held and firmly bound unto the State of Connecticut (hereinafter called the Obligee) in

the full penal sum of _____ Dollars (\$ _____),
lawful money of the United States, to be paid to said State of Connecticut, to which payment well and
truly to be made and done, the said Principal binds himself, his heirs, executors and administrators (or
itself, its successors and assigns), and the said Surety binds itself, its successors and assigns jointly and
severally firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT, whereas said Principal has entered

into a certain written Contract with said Obligee, dated the _____ day of _____ 201__,
which written Contract provides for the following:

which Contract, together with all Plans and Contract Documents now made or which may hereafter be
made in extension, modification or alteration thereof, are hereby referred to, incorporated in and made
a part of this bond as though herein fully set forth.

NOW, THEREFORE, if the said Principal shall well and truly keep, perform and execute all the terms,
conditions and stipulations of said Contract according to its provisions on his or its part to be kept and
performed and shall indemnify and reimburse the Obligee for any loss that it may suffer through the
failure of the Principal to faithfully observe and perform each and every obligation and duty imposed
upon the Principal by the said Contract, at the time and in the manner therein specified, then this
obligation shall be null and void, otherwise it shall remain and be in full force and effect.

Provided, however, that any alterations which may be made in the terms of said Contract or in the work
done or to be done under it, or the giving by the Obligee of any extension of time for the performance
of said Contract or any other forbearance on the part of either the Obligee or the Principal, one to the
other, shall not in any way release the Principal and/or the Surety, or either of them, their
representatives, heirs, executors, administrators, successors or assigns from liability

hereunder, notice to the Surety or Sureties of any such alteration, extension or forbearance being hereby specifically and absolutely waived.

IN TESTIMONY WHEREOF, the said _____

has hereunto set his/its hand and seal and the said _____

has caused this instrument to be signed by its _____
and its corporate seal to be hereunto affixed.

LABOR AND MATERIAL BOND

STATE OF CONNECTICUT
DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

KNOW ALL BY THESE PRESENTS, THAT _____

of the Town of _____ County of _____ and State of _____

as Principal (hereinafter called the Principal), and _____
a surety company authorized to transact business in Connecticut, as Surety (hereinafter called the
Surety), are held and firmly bound unto the State of Connecticut (hereinafter called the Obligee) in

the full penal sum of _____ Dollars (\$ _____),
lawful money of the United States, to be paid to said State of Connecticut, to which payment well and
truly to be made and done, the said Principal binds himself, his heirs, executors and administrators (or
itself, its successors and assigns), and the said Surety binds itself, its successors and assigns jointly and
severally firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT, whereas said Principal has entered

into a certain written Contract with said Obligee, dated the _____ day of _____ 201____,
which written Contract provides for the following:

which Contract, together with all Plans and Contract Documents now made or which may hereafter be
made in extension, modification or alteration thereof, are hereby referred to, incorporated in and made
a part of this bond as though herein fully set forth.

NOW, THEREFORE, if the said Principal shall promptly pay for all materials furnished and labor
supplied or performed in the prosecution of the work included in and under the aforesaid Contract
whether or not the material or labor enters into and becomes a component part of the real asset, then
this obligation shall be null and void, otherwise it shall remain and be in full force and effect.

Any party, whether a Subcontractor or otherwise, who furnishes materials or supplies or performs labor
or services in the prosecution of the work under said Contract, and who is not paid therefor, may bring
a suit on this bond in the name of the person suing, prosecute the same to a final judgment and have
execution thereon for such sum or sums as may be justly due.

This bond is furnished pursuant to Section 49-41 of the General Statutes of Connecticut, Revision of
1958.

GUIDELINES FOR VALID CORPORATE RESOLUTIONS:

(see attached samples)

The corporate resolution should contain the following:

1. Name of body adopting the resolution;
 2. Date of meeting adopting resolution;
 3. Name and title of person authorized to execute the contract. If the resolution does not specify a name, but only states the title of the individual so authorized, a corporate officer must provide a certificate of incumbency certifying that the individual signing the contract held the office at the time the contract was signed. Both the resolution and certification of incumbency must give the date of the certification and the title of the certifier.
- The certification must bear an original signature by an officer of the corporation, preferably the secretary, which is some one other than the person authorized to sign the contract.
 - The actual statement of the resolution (the language following the word "RESOLVED" in the examples), should contain the exact wording from the resolution that the Board adopted.
 - The contract must be signed *exactly* as the name is called out in the resolution ó the name and title must match precisely.
 - The date on which the resolution was adopted can precede the date on which the contract was signed (but may not precede the signature date by more than one year without being re-certified as to its continuation and effectiveness). However, the date of the incumbency certification cannot precede the date the contract was signed.

For example, for a contract signed July 1, 2003, the Certified Resolution can state that the resolution was adopted by the Board of Directors on March 1, 2002, but since there is more than a year between the date of the resolution and the date of the contract signature, the Secretary must re-certify that the resolution was so adopted, and remains in effect, on or after July 1, 2003, thus showing that on the date the contract was signed, the signatory in fact had the authority to do so.

If the Certified Resolution did not identify the name of the individual holding the title of the office authorized to sign, an Incumbency Certification would need to be certified and dated on or after July 1, 2003, to indicate that on that date the contract was signed, the signer held the specified office.

- If the corporation does not possess a corporate seal, the "L.S." (legal signature) notation may be written next to the Secretary's signature. In addition, the "L.S." notation should be written next to the signature of the corporate officer on the contract itself. If the corporation does have a seal, the seal should be affixed both to the signature page of the contract, to the certified resolution and to the incumbency certification (if used).
- In lieu of a certified resolution, a certified copy of the applicable sections of the corporate bylaws which authorize execution of the contract by the signing person may be submitted along with a certification that the person signing the contract held the office in question at the time the contract was signed. Or, a certified copy of minutes of the meeting of the board of directors at which the contract signatory was authorized to sign the contract under review (or the particular type of contract of which the one under review is an example) may be provided.

- If the Contract is with an individual, no funding resolution is required, however, the individual must sign personally. The signature may be followed by "d/b/a [Name of Business], sole proprietor, or independent contractor." No other title (such as "president") may be used.

GUIDELINES FOR VALID LLC RESOLUTIONS

(see attached samples)

- The certified resolution must state: (i) that the LLC is run by members or managers; (ii) that the signatory is either a member or manager of the LLC; and, (iii) that as such, he or she is not prohibited or limited by the LLC's articles of organization from binding the LLC.
- The contract must be signed by the signatory in the capacity noted in the resolution (i.e., as member or manager, as applicable).
- If possible, the resolution should be signed by a member or manager who is not the contract signatory.
- If the LLC does not possess a corporate seal, the "L.S." notation may be used instead, but the certification must specifically state that the LLC has no seal.
- If the LLC is owned and operated by a single individual, an affidavit from the LLC's attorney or the individual must be provided (see attached affidavit format).

GUIDELINES FOR VALID PARTNERSHIP RESOLUTIONS

(see attached sample)

- Generally, any general partner of a general or limited partnership has the authority to sign a contract on behalf of the partnership.
- However, if possible, a contractor which is a partnership should provide a certification from a general partner, other than the general partner signing the contract (or from all the general partners), stating that the general partner signing the contract has such authority.
- If a limited partner signs the contract, a copy of the limited partnership agreement should be provided so that it can be reviewed for confirmation that the named limited partner has signatory authority.
- The partner signing the contract must provide his or her title (i.e., general partner, limited partner) next to his or her signature on the contract.

Re: PROCUREMENT

Opinion Letter

Dear SALUTATION:

I have acted as corporate counsel to VENDOR and have the authority to deliver this opinion letter. In my capacity as such counsel I have reviewed or am familiar with VENDOR'S authorizing resolutions, by-laws, incorporation documents and draft _____ Agreement (the "Agreement") with the State of Connecticut. Based upon the foregoing, I am of the opinion that:

1. VENDOR is authorized to transact business in the State of Connecticut.
2. VENDOR has the corporate power and authority to execute and deliver ("contracts" or "the Agreement").
3. The Board of Directors has authorized VENDOR to enter into ("contracts" or "the Agreement").
4. OFFICER NAME, as OFFICER TITLE of VENDOR, has the requisite power and authority to execute ("contracts" or "the Agreement") on behalf of and to bind VENDOR accordingly.

Sincerely,

CERTIFIED STATEMENT OF COMPLIANCE

For the week ending date of _____,

I, _____ of _____, (hereafter known as

Employer) in my capacity as _____ (title) do hereby certify and state:

Section A:

1. All persons employed on said project have been paid the full weekly wages earned by them during the week in accordance with Connecticut General Statutes, section 31-53, as amended. Further, I hereby certify and state the following:

- a) The records submitted are true and accurate;
- b) The rate of wages paid to each mechanic, laborer or workman and the amount of payment or contributions paid or payable on behalf of each such employee to any employee welfare fund, as defined in Connecticut General Statutes, section 31-53 (h), are not less than the prevailing rate of wages and the amount of payment or contributions paid or payable on behalf of each such employee to any employee welfare fund, as determined by the Labor Commissioner pursuant to subsection Connecticut General Statutes, section 31-53 (d), and said wages and benefits are not less than those which may also be required by contract;
- c) The Employer has complied with all of the provisions in Connecticut General Statutes, section 31-53 (and Section 31-54 if applicable for state highway construction);
- d) Each such employee of the Employer is covered by a worker's compensation insurance policy for the duration of his employment which proof of coverage has been provided to the contracting agency;
- e) The Employer does not receive kickbacks, which means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided directly or indirectly, to any prime contractor, prime contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a prime contractor in connection with a subcontractor relating to a prime contractor; and
- f) The Employer is aware that filing a certified payroll which he knows to be false is a class D felony for which the employer may be fined up to five thousand dollars, imprisoned for up to five years or both.

2. OSHA~The employer shall affix a copy of the construction safety course, program or training completion document to the certified payroll required to be submitted to the contracting agency for this project on which such employee's name first appears.

 (Signature) (Title) Submitted on (Date)

Section B: Applies to CONNDOT Projects ONLY

That pursuant to CONNDOT contract requirements for reporting purposes only, all employees listed under Section B who performed work on this project are not covered under the prevailing wage requirements defined in Connecticut General Statutes Section 31-53.

 (Signature) (Title) Submitted on (Date)

Note: CTDOL will assume all hours worked were performed under Section A unless clearly delineated as Section B WWS-CP1 as such. Should an employee perform work under both Section A and Section B, the hours worked and wages paid must be segregated for reporting purposes.

CERTIFIED STATEMENT OF COMPLIANCE

For the week ending date of 9/26/09,

I, Robert Craft of XYZ Corporation, (hereafter known as

Employer) in my capacity as Owner (title) do hereby certify and state:

Section A:

1. All persons employed on said project have been paid the full weekly wages earned by them during the week in accordance with Connecticut General Statutes, section 31-53, as amended. Further, I hereby certify and state the following:

- a) The records submitted are true and accurate;
- b) The rate of wages paid to each mechanic, laborer or workman and the amount of payment or contributions paid or payable on behalf of each such employee to any employee welfare fund, as defined in Connecticut General Statutes, section 31-53 (h), are not less than the prevailing rate of wages and the amount of payment or contributions paid or payable on behalf of each such employee to any employee welfare fund, as determined by the Labor Commissioner pursuant to subsection Connecticut General Statutes, section 31-53 (d), and said wages and benefits are not less than those which may also be required by contract;
- c) The Employer has complied with all of the provisions in Connecticut General Statutes, section 31-53 (and Section 31-54 if applicable for state highway construction);
- d) Each such employee of the Employer is covered by a worker's compensation insurance policy for the duration of his employment which proof of coverage has been provided to the contracting agency;
- e) The Employer does not receive kickbacks, which means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided directly or indirectly, to any prime contractor, prime contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a prime contractor in connection with a subcontractor relating to a prime contractor; and
- f) The Employer is aware that filing a certified payroll which he knows to be false is a class D felony for which the employer may be fined up to five thousand dollars, imprisoned for up to five years or both.

2. OSHA~The employer shall affix a copy of the construction safety course, program or training completion document to the certified payroll required to be submitted to the contracting agency for this project on which such employee's name first appears.

Robert Craft owner 10/2/09
 (Signature) (Title) Submitted on (Date)

Section B: Applies to CONNDOT Projects ONLY

That pursuant to CONNDOT contract requirements for reporting purposes only, all employees listed under Section B who performed work on this project are not covered under the prevailing wage requirements defined in Connecticut General Statutes Section 31-53.

Robert Craft owner 10/2/09
 (Signature) (Title) Submitted on (Date)

Note: CTDOL will assume all hours worked were performed under Section A unless clearly delineated as Section B WWS-CP1 as such. Should an employee perform work under both Section A and Section B, the hours worked and wages paid must be segregated for reporting purposes.

*****THIS IS A PUBLIC DOCUMENT***
DO NOT INCLUDE SOCIAL SECURITY NUMBERS**

WAGE RATES

STATE OF CONNECTICUT DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

By virtue of the authority vested in the Labor Commissioner under provisions of Section 31-53 of the General Statutes of Connecticut, as amended, the following pages are declared to be the prevailing rates and welfare payments and will apply only where the Contract is advertised for bid within 20 days of the date on which the rates are established. Any contractor or sub-contractor not obligated by agreement to pay to the welfare and pension fund shall pay this amount to every employee as part of their hourly wages.

The consultant / preparer should request and obtain latest wage rates and latest versions of the following or items or substitutes or revisions thereof from the CT DOL / Wage and Workplace Standards Division and insert here:

- *Contractors Wage Certification Form*
- *Weekly payroll certification forms, fringe benefits explanation, and sample completed forms*
- *Current prevailing hourly wage & benefit rates schedule*
- *Informational Bulletin – occupational classifications*
- *CT DOL Wage and Workplace Standards Division – Footnotes*
- *Notice to all mason contractors and interested parties ...*
- *Informational Bulletin – 10-hour OSHA Construction Safety & Health Course*
- *CGS Sec. 31-53b*
- *Special Notice – RE CGS 31-55a*

Information Bulletin

Occupational Classifications

The Connecticut Department of Labor has the responsibility to properly determine "job classification" on prevailing wage projects covered under C.G.S. Section 31-53.

Note: This information is intended to provide a sample of some occupational classifications for guidance purposes only. It is not an all-inclusive list of each occupation's duties. This list is being provided only to highlight some areas where a contractor may be unclear regarding the proper classification.

Below are additional clarifications of specific job duties performed for certain classifications:

- **ASBESTOS WORKERS**

Applies all insulating materials, protective coverings, coatings and finishes to all types of mechanical systems.

- **ASBESTOS INSULATOR**

Handle, install apply, fabricate, distribute, prepare, alter, repair, dismantle, heat and frost insulation, including penetration and fire stopping work on all penetration fire stop systems.

- **BOILERMAKERS**

Erects hydro plants, incomplete vessels, steel stacks, storage tanks for water, fuel, etc. Builds incomplete boilers, repairs heat exchanges and steam generators.

- **BRICKLAYERS, CEMENT MASONS, CEMENT FINISHERS, MARBLE MASONS, PLASTERERS, STONE MASONS, PLASTERERS. STONE MASONS, TERRAZZO WORKERS, TILE SETTERS**

Lays building materials such as brick, structural tile and concrete cinder, glass, gypsum, terra cotta block. Cuts, tools and sets marble, sets stone, finishes concrete, applies decorative steel, aluminum and plastic tile, applies cements, sand, pigment and marble chips to floors, stairways, etc.

- **CARPENTERS, MILLWRIGHTS. PILEDIVERMEN. LATHERS. RESILIENT FLOOR LAYERS, DOCK BUILDERS, DIKERS, DIVER TENDERS**

Constructs, erects, installs and repairs structures and fixtures of wood, plywood and wallboard. Installs, assembles, dismantles, moves industrial machinery. Drives piling into ground to provide foundations for structures such as buildings and bridges, retaining walls for earth embankments, such as cofferdams. Fastens wooden, metal or rockboard lath to walls, ceilings and partitions of buildings, acoustical tile layer, concrete form builder. Applies firestopping materials on fire resistive joint systems only. Installation of curtain/window walls only where attached to wood or metal studs. Installation of insulated material of all types whether blown, nailed or attached in other ways to walls, ceilings and floors of buildings. Assembly and installation of modular furniture/furniture systems. Free-standing furniture is not covered. This includes free standing: student chairs, study top desks, book box desks, computer furniture, dictionary stand, atlas stand, wood shelving, two-position information access station, file cabinets, storage cabinets, tables, etc.

- **CLEANING LABORER**

The clean up of any construction debris and the general cleaning, including sweeping, wash down, mopping, wiping of the construction facility, washing, polishing, dusting, etc., prior to the issuance of a certificate of occupancy falls under the *Labor classification*.

- **DELIVERY PERSONNEL**

If delivery of supplies/building materials is to one common point and stockpiled there, prevailing wages are not required. If the delivery personnel are involved in the distribution of the material to multiple locations within the construction site then they would have to be paid prevailing wages for the type of work performed: laborer, equipment operator, electrician, ironworker, plumber, etc.

An example of this would be where delivery of drywall is made to a building and the delivery personnel distribute the drywall from one "stockpile" location to further sub-locations on each floor. Distribution of material around a construction site is the job of a laborer/tradesman and not a delivery personnel.

- **ELECTRICIANS**

Install, erect, maintenance, alteration or repair of any wire, cable, conduit, etc., which generates, transforms, transmits or uses electrical energy for light, heat, power or other purposes, including the Installation or maintenance of telecommunication, LAN wiring or computer equipment, and low voltage wiring.

***License required per Connecticut General Statutes: E-1,2 L-5,6 C-5,6 T-1,2 L-1,2 V-1,2,7,8,9.**

- **ELEVATOR CONSTRUCTORS**

Install, erect, maintenance and repair of all types of elevators, escalators, dumb waiters and moving walks. ***License required by Connecticut General Statutes: R-1,2,5,6.**

- **FORK LIFT OPERATOR**

Laborers Group 4) Mason Tenders - operates forklift solely to assist a mason to a maximum height of nine (9) feet only.

Power Equipment Operator Group 9 - operates forklift to assist any trade, and to assist a mason to a height over nine (9) feet.

- **GLAZIERS**

Glazing wood and metal sash, doors, partitions, and 2 story aluminum storefronts. Installs glass windows, skylights, store fronts and display cases or surfaces such as building fronts, interior walls, ceilings and table tops and metal store fronts. Installation of aluminum window walls and curtain walls is the "joint" work of glaziers and ironworkers which requires either a blended rate or equal composite workforce.

- **IRONWORKERS**

Erection, installation and placement of structural steel, precast concrete, miscellaneous iron, ornamental iron, metal curtain wall, rigging and reinforcing steel. Handling, sorting, and installation of reinforcing steel (rebar). Metal bridge rail (traffic), metal bridge handrail, and decorative security fence installation. Installation of aluminum window walls and curtain walls is the "joint" work of glaziers and ironworkers which requires either a blended rate or equal composite workforce. Insulated metal and insulated composite panels are still installed by the Ironworker.

- **INSULATOR**

Installing fire stopping systems/materials for "Penetration Firestop Systems": transit to cables, electrical conduits, insulated pipes, sprinkler pipe penetrations, ductwork behind radiation, electrical cable trays, fire rated pipe penetrations, natural polypropylene, HVAC ducts, plumbing bare metal, telephone and communication wires, and boiler room ceilings. Past practice using the applicable licensed trades, Plumber, Sheet Metal, Sprinkler Fitter, and Electrician, is not inconsistent with the Insulator classification and would be permitted.

- **LABORERS**

Acetylene burners, asphalt rakers, chain saw operators, concrete and power buggy operator, concrete saw operator, fence and guard rail erector (except metal bridge rail (traffic), metal bridge handrail, and decorative security fence installation.), hand operated concrete vibrator operator, mason tenders, pipelayers (installation of storm drainage or sewage lines on the street only), pneumatic drill operator, pneumatic gas and electric drill operator, powermen and wagon drill operator, air track operator, block paver, curb setters, blasters, concrete spreaders.

- **PAINTERS**

Maintenance, preparation, cleaning, blasting (water and sand, etc.), painting or application of any protective coatings of every description on all bridges and appurtenances of highways, roadways, and railroads. Painting, decorating, hardwood finishing, paper hanging, sign writing, scenic art work and drywall hhg for any and all types of building and residential work.

- **LEAD PAINT REMOVAL**

Painter's Rate

1. Removal of lead paint from bridges.
2. Removal of lead paint as preparation of any surface to be repainted.
3. Where removal is on a Demolition project prior to reconstruction.

Laborer's Rate

1. Removal of lead paint from any surface NOT to be repainted.
2. Where removal is on a *TOTAL* Demolition project only.

- **PLUMBERS AND PIPEFITTERS**

Installation, repair, replacement, alteration or maintenance of all plumbing, heating, cooling and piping. ****License required per Connecticut General Statutes: P-1,2,6,7,8,9 J-1,2,3,4 SP-1,2 S-1,2,3,4,5,6,7,8 B-1,2,3,4 D-1,2,3,4.***

- **POWER EQUIPMENT OPERATORS**

Operates several types of power construction equipment such as compressors, pumps, hoists, derricks, cranes, shovels, tractors, scrapers or motor graders, etc. Repairs and maintains equipment. ***License required, crane operators only, per Connecticut General Statutes.**

- **ROOFERS**

Covers roofs with composition shingles or sheets, wood shingles, slate or asphalt and gravel to waterproof roofs, including preparation of surface. (tear-off and/or removal of any type of roofing and/or clean-up of any and all areas where a roof is to be relaid)

- **SHEETMETAL WORKERS**

Fabricate, assembles, installs and repairs sheetmetal products and equipment in such areas as ventilation, air-conditioning, warm air heating, restaurant equipment, architectural sheet metal work, sheetmetal roofing, and aluminum gutters.

Fabrication, handling, assembling, erecting, altering, repairing, etc. of coated metal material panels and composite metal material panels when used on building exteriors and interiors as soffits, fascia, louvers, partitions, wall panel siding, canopies, cornice, column covers, awnings, beam covers, cladding, sun shades, lighting troughs, spires, ornamental roofing, metal ceilings, mansards, copings, ornamental and ventilation hoods, vertical and horizontal siding panels, trim, etc.

The sheet metal classification also applies to the vast variety of coated metal material panels and composite metal material panels that have evolved over the years as an alternative to conventional ferrous and non-ferrous metals like steel, iron, tin, copper, brass, bronze, aluminum, etc. Insulated metal and insulated composite panels are still installed by the Iron Worker. Fabrication, handling, assembling, erecting, altering, repairing, etc. of architectural metal roof, standing seam roof, composite metal roof, metal and composite bathroom/toilet partitions, aluminum gutters, metal and composite lockers and shelving, kitchen equipment, and walk-in coolers.

- **SPRINKLER FITTERS**

Installation, alteration, maintenance and repair of fire protection sprinkler systems.

***License required per Connecticut General Statutes: F-1,2,3,4.**

- **TILE MARBLE AND TERRAZZO FINISHERS**

Assists and tends the tile setter, marble mason and terrazzo worker in the performance of their duties.

- **TRUCK DRIVERS**

Definitions:

1) “Site of the work” (29 Code of Federal Regulations (CFR) 5.2(l)(b) is the physical place or places where the building or work called for in the contract will remain and any other site where a significant portion of the building or work is constructed, provided that such site is established specifically for the performance of the contract or project;

(a) Except as provided in paragraph (l) (3) of this section, job headquarters, tool yards, batch plants, borrow pits, etc. are part of the “site of the work”; provided they are dedicated exclusively, or nearly so, to the performance of the contract or project, and provided they are adjacent to “the site of work” as defined in paragraph (e)(1) of this section;

(b) Not included in the “site of the work” are permanent home offices, branch plant establishments, fabrication plants, tool yards etc, of a contractor or subcontractor whose location and continuance in operation are determined wholly without regard to a particular State or political subdivision contract or uncertain and indefinite periods of time involved of a few seconds or minutes duration and where the failure to count such time is due to consideration justified by industrial realities (29 CFR 785.47)

2) “Engaged to wait” is waiting time that belongs to and is controlled by the employer which is an integral part of the job and is therefore compensable as hours worked. (29 CFR 785.15)

3) “Waiting to be engaged” is waiting time that an employee can use effectively for their own purpose and is not compensable as hours worked. (29 CFR 785.16)

4) “De Minimus” is a rule that recognizes that unsubstantial or insignificant periods of time which cannot as a practical administrative matter be precisely recorded for payroll purposes, may be disregarded. This rule applies only where there are uncertain and indefinite periods of time involved of a short duration and where the failure to count such time is due to consideration justified by worksite realities. For example, with respect to truck drivers on prevailing wage sites, this is typically less than 15 minutes at a time.

Coverage of Truck Drivers on State or Political subdivision Prevailing Wage Projects

Truck drivers are covered for payroll purposes under the following conditions:

- Truck Drivers for time spent working on the site of the work.
- Truck Drivers for time spent loading and/or unloading materials and supplies on the site of the work, if such time is not de minimus

- Truck drivers transporting materials or supplies between a facility that is deemed part of the site of the work and the actual construction site.
- Truck drivers transporting portions of the building or work between a site established specifically for the performance of the contract or project where a significant portion of such building or work is constructed and the physical places where the building or work outlined in the contract will remain.

For example: Truck drivers delivering asphalt are covered under prevailing wage while “engaged to wait” on the site and when directly involved in the paving operation, provided the total time is not “de minimus”

Truck Drivers are not covered in the following instances:

- Material delivery truck drivers while off “the site of the work”
- Truck Drivers traveling between a prevailing wage job and a commercial supply facility while they are off the “site of the work”
- Truck drivers whose time spent on the “site of the work” is de minimus, such as under 15 minutes at a time, merely to drop off materials or supplies, including asphalt.

These guidelines are similar to U.S. Labor Department policies. The application of these guidelines may be subject to review based on factual considerations on a case by case basis.

For example:

- Material men and deliverymen are not covered under prevailing wage as long as they are not directly involved in the construction process. If, they unload the material, they would then be covered by prevailing wage for the classification they are performing work in: laborer, equipment operator, etc.
- Hauling material off site is not covered provided they are not dumping it at a location outlined above.
- Driving a truck on site and moving equipment or materials on site would be considered covered work, as this is part of the construction process.

Any questions regarding the proper classification should be directed to:

FOOTNOTES

Please Note: If the “Benefits” listed on the schedule for the following occupations includes a letter(s) (+ a or + a+b for instance), refer to the information below.

Benefits to be paid at the appropriate prevailing wage rate for the listed occupation.

If the “Benefits” section for the occupation lists only a dollar amount, disregard the information below.

Bricklayers, Cement Masons, Cement Finishers, Concrete Finishers, Stone Masons
(Building Construction) and
(Residential- Hartford, Middlesex, New Haven, New London and Tolland Counties)

- a. Paid Holiday: Employees shall receive 4 hours for Christmas Eve holiday provided the employee works the regularly scheduled day before and after the holiday. Employers may schedule work on Christmas Eve and employees shall receive pay for actual hours worked in addition to holiday pay.

Elevator Constructors: Mechanics

- a. Paid Holidays: New Year’s Day, Memorial Day, Independence Day, Labor Day, Veterans’ Day, Thanksgiving Day, Christmas Day, plus the Friday after Thanksgiving.
- b. Vacation: Employer contributes 8% of basic hourly rate for 5 years or more of service or 6% of basic hourly rate for 6 months to 5 years of service as vacation pay credit.

Glaziers

- a. Paid Holidays: Labor Day and Christmas Day.

Power Equipment Operators
(Heavy and Highway Construction & Building Construction)

- a. Paid Holidays: New Year’s Day, Good Friday, Memorial day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, provided the employee works 3 days during the week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday. Holidays falling on Saturday may be observed on Saturday, or if the employer so elects, on the preceding Friday.

Connecticut Department of Labor
Wage and Workplace Standards Division
FOOTNOTES

Ironworkers

- a. Paid Holiday: Labor Day provided employee has been on the payroll for the 5 consecutive work days prior to Labor Day.

Laborers (Tunnel Construction)

- a. Paid Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. No employee shall be eligible for holiday pay when he fails, without cause, to work the regular work day preceding the holiday or the regular work day following the holiday.

Roofers

- a. Paid Holidays: July 4th, Labor Day, and Christmas Day provided the employee is employed 15 days prior to the holiday.

Sprinkler Fitters

- a. Paid Holidays: Memorial Day, July 4th, Labor Day, Thanksgiving Day and Christmas Day, provided the employee has been in the employment of a contractor 20 working days prior to any such paid holiday.

Truck Drivers

(Heavy and Highway Construction & Building Construction)

- a. Paid Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas day, and Good Friday, provided the employee has at least 31 calendar days of service and works the last scheduled day before and the first scheduled day after the holiday, unless excused.

November 29, 2006

Notice
To All Mason Contractors and Interested Parties
Regarding Construction Pursuant to Section 31-53 of the
Connecticut General Statutes (Prevailing Wage)

The Connecticut Labor Department Wage and Workplace Standards Division is empowered to enforce the prevailing wage rates on projects covered by the above referenced statute.

Over the past few years the Division has withheld enforcement of the rate in effect for workers who operate a forklift on a prevailing wage rate project due to a potential jurisdictional dispute.

The rate listed in the schedules and in our Occupational Bulletin (see enclosed) has been as follows:

Forklift Operator:

- **Laborers (Group 4) Mason Tenders** - operates forklift solely to assist a mason to a maximum height of nine feet only.
- **Power Equipment Operator (Group 9)** - operates forklift to assist any trade and to assist a mason to a height over nine feet.

The U.S. Labor Department conducted a survey of rates in Connecticut but it has not been published and the rate in effect remains as outlined in the above Occupational Bulletin.

Since this is a classification matter and not one of jurisdiction, effective January 1, 2007 the Connecticut Labor Department will enforce the rate on each schedule in accordance with our statutory authority.

Your cooperation in filing appropriate and accurate certified payrolls is appreciated.

Informational Bulletin

THE 10-HOUR OSHA CONSTRUCTION SAFETY AND HEALTH COURSE, PROGRAM OR TRAINING

(Applicable to public works contracts as described by Conn. Gen. Stat. § 31-53(g)
entered into *on or after July 1, 2009*)

- (1) This requirement was created by Public Act No. 08-83, which is codified in Section 31-53b of the Connecticut General Statutes;
- (2) The course, program or training is required for public works contracts as described by Conn. Gen. Stat. § 31-53(g) entered into on or after July 1, 2009;
- (3) It is required of private workers (not state or municipal workers) and apprentices who perform the work of a mechanic, laborer or worker pursuant to the classifications of labor under Conn. Gen. Stat. § 31-53 on a public works project as described by Conn. Gen. Stat. § 31-53(g);
- (4) The ten-hour construction safety and health course, program or training pertains to the ten-hour Outreach Course conducted in accordance with federal OSHA Training Institute standards, a new mining training program approved by the Federal Mine Safety and Health Administration in accordance with 30 C.F. R. 48, or, for telecommunications workers, a ten-hour training course conducted in accordance with federal OSHA standard, 29 CFR 1910.268;
- (5) The internet website for the federal OSHA Training Institute is http://www.osha.gov/fso/ote/training/edcenters/fact_sheet.html;
- (6) The statutory language leaves it to the contractor and its employees to determine who pays for the cost of the ten-hour Outreach Course;
- (7) Proof of course, program or training completion shall be demonstrated through the presentation of a “completion document” (card, document, certificate or other written record issued by federal OSHA or by the Federal Mine Safety and Health Administration) as defined by Conn. State Agencies Regs. § 31-53b-1(2).
- (8) Any completion document with an issuance date more than 5 years prior to the commencement date of the public works project shall not constitute proof of compliance with § 31-53b;
- (9) For each person who performs the duties of a mechanic, laborer or worker on a public works project, the contractor shall affix a copy of the completion document

- to the certified payroll required to be submitted to the contracting agency for such project on which such worker's name first appears;
- (10) Any mechanic, laborer or worker on a public works project found to be in non-compliance shall be subject to removal from the project if such employee does not provide satisfactory proof of course completion to the Labor Commissioner by the fifteenth day after the date the employee is determined to be in noncompliance;
 - (11) Any such employee who is determined to be in noncompliance may continue to work on a public works project for a maximum of fourteen consecutive calendar days while bringing his or her status into compliance;
 - (12) The statute provides the minimum standards required for the completion of a construction safety and health course, program or training by employees on public works contracts; any contractor can exceed these minimum requirements.;
 - (13) Regulations pertaining to § 31-53b are located at Conn. State Agencies Regs. §31-53b-1 *et seq.*, and are effective May 5, 2009. The regulations are posted on the CTDOL website;
 - (14) Any questions regarding this statute or the regulations may be directed to the Wage and Workplace Standards Division of the Connecticut Labor Department via the internet website of <http://www.ctdol.state.ct.us/wgwkstnd/wgmenu.htm>; or by telephone at (860)263-6790.

THE ABOVE INFORMATION IS PROVIDED EXCLUSIVELY AS AN EDUCATIONAL RESOURCE, AND IS NOT INTENDED AS A SUBSTITUTE FOR LEGAL INTERPRETATIONS WHICH MAY ULTIMATELY ARISE CONCERNING THE CONSTRUCTION OF THE STATUTE OR THE REGULATIONS.

Sec. 31-53b. Construction safety and health course. New miner training program. Proof of completion required for mechanics, laborers and workers on public works projects. Enforcement. Regulations. Exceptions. (a) Each contract for a public works project entered into on or after July 1, 2009, by the state or any of its agents, or by any political subdivision of the state or any of its agents, described in subsection (g) of section 31-53, shall contain a provision requiring that each contractor furnish proof with the weekly certified payroll form for the first week each employee begins work on such project that any person performing the work of a mechanic, laborer or worker pursuant to the classifications of labor under section 31-53 on such public works project, pursuant to such contract, has completed a course of at least ten hours in duration in construction safety and health approved by the federal Occupational Safety and Health Administration or, has completed a new miner training program approved by the Federal Mine Safety and Health Administration in accordance with 30 CFR 48 or, in the case of telecommunications employees, has completed at least ten hours of training in accordance with 29 CFR 1910.268.

(b) Any person required to complete a course or program under subsection (a) of this section who has not completed the course or program shall be subject to removal from the worksite if the person does not provide documentation of having completed such course or program by the fifteenth day after the date the person is found to be in noncompliance. The Labor Commissioner or said commissioner's designee shall enforce this section.

(c) Not later than January 1, 2009, the Labor Commissioner shall adopt regulations, in accordance with the provisions of chapter 54, to implement the provisions of subsections (a) and (b) of this section. Such regulations shall require that the ten-hour construction safety and health courses required under subsection (a) of this section be conducted in accordance with federal Occupational Safety and Health Administration Training Institute standards, or in accordance with Federal Mine Safety and Health Administration Standards or in accordance with 29 CFR 1910.268, as appropriate. The Labor Commissioner shall accept as sufficient proof of compliance with the provisions of subsection (a) or (b) of this section a student course completion card issued by the federal Occupational Safety and Health Administration Training Institute, or such other proof of compliance said commissioner deems appropriate, dated no earlier than five years before the commencement date of such public works project.

(d) This section shall not apply to employees of public service companies, as defined in section 16-1, or drivers of commercial motor vehicles driving the vehicle on the public works project and delivering or picking up cargo from public works projects provided they perform no labor relating to the project other than the loading and unloading of their cargo.

(P.A. 06-175, S. 1; P.A. 08-83, S. 1.)

History: P.A. 08-83 amended Subsec. (a) by making provisions applicable to public works project contracts entered into on or after July 1, 2009, replacing provision re total cost of work with reference to Sec. 31-53(g), requiring proof in certified payroll form that new mechanic, laborer or worker has completed a 10-hour or more construction safety course and adding provision re new miner training program, amended Subsec. (b) by substituting "person" for "employee" and adding "or program", amended Subsec. (c) by adding "or in accordance with Federal Mine Safety and Health Administration Standards" and setting new deadline of January 1, 2009, deleted former Subsec. (d) re "public building", added new Subsec. (d) re exemptions for public service company employees and delivery drivers who perform no labor other than delivery and made conforming and technical changes, effective January 1, 2009.

STATUTE 31-55a

- SPECIAL NOTICE -

To: All State and Political Subdivisions, Their Agents, and Contractors

Connecticut General Statute 31-55a - Annual adjustments to wage rates by contractors doing state work.

Each contractor that is awarded a contract on or after October 1, 2002, for (1) the construction of a state highway or bridge that falls under the provisions of section 31-54 of the general statutes, or (2) the construction, remodeling, refinishing, refurbishing, rehabilitation, alteration or repair of any public works project that falls under the provisions of section 31-53 of the general statutes shall contact the Labor Commissioner on or before July first of each year, for the duration of such contract, to ascertain the prevailing rate of wages on an hourly basis and the amount of payment or contributions paid or payable on behalf of each mechanic, laborer or worker employed upon the work contracted to be done, and shall make any necessary adjustments to such prevailing rate of wages and such payment or contributions paid or payable on behalf of each such employee, effective each July first.

- The prevailing wage rates applicable to any contract or subcontract awarded on or after October 1, 2002 are subject to annual adjustments each July 1st for the duration of any project which was originally advertised for bids on or after October 1, 2002.
- Each contractor affected by the above requirement shall pay the annual adjusted prevailing wage rate that is in effect each July 1st, as posted by the Department of Labor.
- It is the **contractor's** responsibility to obtain the annual adjusted prevailing wage rate increases directly from the Department of Labor's Web Site. The annual adjustments will be posted on the Department of Labor Web page: www.ctdol.state.ct.us. For those without internet access, please contact the division listed below.
- The Department of Labor will continue to issue the initial prevailing wage rate schedule to the Contracting Agency for the project. All subsequent annual adjustments will be posted on our Web Site for contractor access.

Any questions should be directed to the Contract Compliance Unit, Wage and Workplace Standards Division, Connecticut Department of Labor, 200 Folly Brook Blvd., Wethersfield, CT 06109 at (860)263-6790.

STATE OF CONNECTICUT GIFT AND CAMPAIGN CONTRIBUTION CERTIFICATION

Written or electronic certification to accompany a State contract with a value of \$50,000 or more in a calendar or fiscal year, pursuant to C.G.S. §§ 4-250 and 4-252(c); Governor M. Jodi Rell's Executive Orders No. 1, Para. 8, and No. 7C, Para. 10; and C.G.S. §9-612(g)(2)

INSTRUCTIONS:

Complete all sections of the form. Attach additional pages, if necessary, to provide full disclosure about any lawful campaign contributions made to campaigns of candidates for statewide public office or the General Assembly, as described herein. Sign and date the form, under oath, in the presence of a Commissioner of the Superior Court or Notary Public. Submit the completed form to the awarding State agency at the time of initial contract execution and if there is a change in the information contained in the most recently filed certification, such person shall submit an updated certification either (i) not later than thirty (30) days after the effective date of such change or (ii) upon the submittal of any new bid or proposal for a contract, whichever is earlier. Such person shall also submit an accurate, updated certification not later than fourteen days after the twelve-month anniversary of the most recently filed certification or updated certification.

CHECK ONE: Initial Certification 12 Month Anniversary Update (Multi-year contracts only.)
 Updated Certification because of change of information contained in the most recently filed certification or twelve-month anniversary update.

GIFT CERTIFICATION:

As used in this certification, the following terms have the meaning set forth below:

- 1) "Contract" means that contract between the State of Connecticut (and/or one or more of its agencies or instrumentalities) and the Contractor, attached hereto, or as otherwise described by the awarding State agency below;
- 2) If this is an Initial Certification, "Execution Date" means the date the Contract is fully executed by, and becomes effective between, the parties; if this is a twelve-month anniversary update, "Execution Date" means the date this certification is signed by the Contractor;
- 3) "Contractor" means the person, firm or corporation named as the contractor below;
- 4) "Applicable Public Official or State Employee" means any public official or state employee described in C.G.S. §4-252(c)(1)(i) or (ii);
- 5) "**Gift**" has the same meaning given that term in C.G.S. § 4-250(1);
- 6) "Principals or Key Personnel" means and refers to those principals and key personnel of the Contractor, and its or their agents, as described in C.G.S. §§ 4-250(5) and 4-252(c)(1)(B) and (C).

I, the undersigned, am a Principal or Key Personnel of the person, firm or corporation authorized to execute this certification on behalf of the Contractor. I hereby certify that, no gifts were made by (A) such person, firm, corporation, (B) any principals and key personnel of the person firm or corporation who participate substantially in preparing bids, proposals or negotiating state contracts or (C) any agent of such, firm, corporation, or principals or key personnel who participates substantially in preparing bids, proposals or negotiating state contracts, to (i) any public official or state employee of the state agency or quasi-public agency soliciting bids or proposals for state contracts who participates substantially in the preparation of bid solicitations or request for proposals for state contracts or the negotiation or award of state contracts or (ii) any public official or state employee of any other state agency, who has supervisory or appointing authority over such state agency or quasi-public agency.

I further certify that no Principals or Key Personnel know of any action by the Contractor to circumvent (or which would result in the circumvention of) the above certification regarding **Gifts** by providing for any other Principals, Key Personnel, officials, or employees of the Contractor, or its or their agents, to make a **Gift** to any Applicable Public Official or State Employee. I further certify that the Contractor made the bid or proposal for the Contract without fraud or collusion with any person.

CAMPAIGN CONTRIBUTION CERTIFICATION:

I further certify that, on or after December 31, 2006, neither the Contractor nor any of its principals, as defined in C.G.S. § 9-612(g)(1), has made any **campaign contributions** to, or solicited any contributions on behalf of, any exploratory committee, candidate committee, political committee, or party committee established by, or supporting or authorized to support, any candidate for statewide public office, in violation of C.G.S. § 9-612(g)(2)(A). I further certify that **all lawful campaign contributions** that have been made on or after December 31, 2006 by the Contractor or any of its principals, as defined in C.G.S. § 9-612(g)(1), to, or solicited on behalf of, any exploratory committee, candidate committee, political committee, or party committee established by, or supporting or authorized to support any candidates for statewide public office or the General Assembly, are listed below:

Lawful Campaign Contributions to Candidates for Statewide Public Office:

<u>Contribution Date</u>	<u>Name of Contributor</u>	<u>Recipient</u>	<u>Value</u>	<u>Description</u>

Lawful Campaign Contributions to Candidates for the General Assembly:

<u>Contribution Date</u>	<u>Name of Contributor</u>	<u>Recipient</u>	<u>Value</u>	<u>Description</u>

Sworn as true to the best of my knowledge and belief, subject to the penalties of false statement.

FORM OF PERSONAL SERVICES AGREEMENT CONTRACT

The attached Personal Services Agreement/Grant/Contract (PSA) form is the most current version prescribed by the CT Office of Policy and Management for use by Connecticut State agencies in the contracting with providers for the procurement of goods and services costing more than \$3,000.00. The attached form, with standard terms and conditions and placeholder pages describing sheets and appendices to be added, is a generic sample version for DEEP/IWRD construction contracts and is included with these Contract Documents for the prospective Contractor's information only. It will be used as a template by the DEEP/IWRD to prepare and draft the separate final PSA Contract document for signing by the selected Contractor and Execution by the State.

1. Executive Orders. The Contract is subject to the provisions of Executive Order No. Three of Governor Thomas J. Meskill, promulgated June 16, 1971, concerning labor employment practices, Executive Order No. Seventeen of Governor Thomas J. Meskill, promulgated February 15, 1973, concerning the listing of employment openings and Executive Order No. Sixteen of Governor John G. Rowland promulgated August 4, 1999, concerning violence in the workplace, all of which are incorporated into and are made a part of the Contract as if they had been fully set forth in it. At the Contractor's request, the Client Agency shall provide a copy of these orders to the Contractor. The Contract may also be subject to Executive Order No. 7C of Governor M. Jodi Rell, promulgated July 13, 2006, concerning contracting reforms and Executive Order No. 14 of Governor M. Jodi Rell, promulgated April 17, 2006, concerning procurement of cleaning products and services, in accordance with their respective terms and conditions.
2. Non-Discrimination.
 - (a) For the purposes of this Section, the following terms are defined as follows:
 - (1) "Commission" means the Commission on Human Rights and Opportunities;
 - (2) "Contract" and "contract" include any extension or modification of the Contract or contract;
 - (3) "Contractor" and "contractor" include any successors or assigns of the Contractor or contractor;
 - (4) "Gender identity or expression" means a person's gender-related identity, appearance or behavior, whether or not that gender-related identity, appearance or behavior is different from that traditionally associated with the person's physiology or assigned sex at birth, which gender-related identity can be shown by providing evidence including, but not limited to, medical history, care or treatment of the gender-related identity, consistent and uniform assertion of the gender-related identity or any other evidence that the gender-related identity is sincerely held, part of a person's core identity or not being asserted for an improper purpose;
 - (5) "good faith" means that degree of diligence which a reasonable person would exercise in the performance of legal duties and obligations;
 - (6) "good faith efforts" shall include, but not be limited to, those reasonable initial efforts necessary to comply with statutory or regulatory requirements and additional or substituted efforts when it is determined that such initial efforts will not be sufficient to comply with such requirements;
 - (7) "marital status" means being single, married as recognized by the state of Connecticut, widowed, separated or divorced;
 - (8) "mental disability" means one or more mental disorders, as defined in the most recent edition of the American Psychiatric Association's "Diagnostic and Statistical Manual of Mental Disorders", or a record of or regarding a person as having one or more such disorders;
 - (9) "minority business enterprise" means any small contractor or supplier of materials fifty-one percent or more of the capital stock, if any, or assets of which is owned by a person or persons: (1) who are active in the daily affairs of the enterprise, (2) who have the power to direct the management and policies of the enterprise, and (3) who are members of a minority, as such term is defined in subsection (a) of Connecticut General Statutes § 32-9n; and
 - (10) "public works contract" means any agreement between any individual, firm or corporation and the State or any political subdivision of the State other than a municipality for construction, rehabilitation, conversion, extension, demolition or repair of a public building, highway or other changes or improvements in real property, or which is financed in whole or in part by the State, including, but not limited to, matching expenditures, grants, loans, insurance or guarantees.

For purposes of this Section, the terms "Contract" and "contract" do not include a contract where each contractor is (1) a political subdivision of the state, including, but not limited to, a municipality, (2) a quasi-public agency, as defined in Conn. Gen. Stat. Section 1-120, (3) any other state, including but not limited to any federally recognized Indian tribal governments, as defined in Conn. Gen. Stat. Section 1-267, (4) the federal government, (5) a foreign government, or (6) an agency of a subdivision, agency, state or government described in the immediately preceding enumerated items (1), (2), (3), (4) or (5).

 - (b) (1) The Contractor agrees and warrants that in the performance of the Contract such Contractor will not discriminate or permit discrimination against any person or group of persons on the grounds of race, color, religious creed, age, marital status, national origin, ancestry, sex, gender identity or expression, mental retardation, mental disability or physical disability, including, but not limited to, blindness, unless it is shown by such Contractor that such disability prevents performance of the work involved, in any manner prohibited by the laws of the United States or of the State of Connecticut; and the Contractor further agrees to take affirmative action to insure that applicants with job-related qualifications are employed and that employees are treated when employed without regard to their race, color, religious creed, age, marital status, national origin, ancestry, sex, gender identity or expression, mental retardation, mental disability or physical disability, including, but not limited to, blindness, unless it is shown by the Contractor that such disability prevents performance of the work involved;
 - (2) the Contractor agrees, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, to state that it is an "affirmative action-equal opportunity employer" in accordance with regulations adopted by the Commission;
 - (3) the Contractor agrees to provide each labor union or representative of workers with which the Contractor has a collective bargaining Agreement or other contract or understanding and each vendor with which the Contractor has a contract or understanding, a notice to be provided by the Commission, advising the labor union or workers' representative of the Contractor's commitments under this section and to post copies of the notice in conspicuous places available to employees and applicants for employment;

- (4) the Contractor agrees to comply with each provision of this Section and Connecticut General Statutes §§ 46a-68e and 46a-68f and with each regulation or relevant order issued by said Commission pursuant to Connecticut General Statutes §§ 46a-56, 46a-68e and 46a-68f; and
- (5) the Contractor agrees to provide the Commission on Human Rights and Opportunities with such information requested by the Commission, and permit access to pertinent books, records and accounts, concerning the employment practices and procedures of the Contractor as relate to the provisions of this Section and Connecticut General Statutes § 46a-56. If the contract is a public works contract, the Contractor agrees and warrants that he will make good faith efforts to employ minority business enterprises as subcontractors and suppliers of materials on such public works projects.
- (c) Determination of the Contractor's good faith efforts shall include, but shall not be limited to, the following factors: The Contractor's employment and subcontracting policies, patterns and practices; affirmative advertising, recruitment and training; technical assistance activities and such other reasonable activities or efforts as the Commission may prescribe that are designed to ensure the participation of minority business enterprises in public works projects.
- (d) The Contractor shall develop and maintain adequate documentation, in a manner prescribed by the Commission, of its good faith efforts.
- (e) The Contractor shall include the provisions of subsection (b) of this Section in every subcontract or purchase order entered into in order to fulfill any obligation of a contract with the State and such provisions shall be binding on a subcontractor, vendor or manufacturer unless exempted by regulations or orders of the Commission. The Contractor shall take such action with respect to any such subcontract or purchase order as the Commission may direct as a means of enforcing such provisions including sanctions for noncompliance in accordance with Connecticut General Statutes §46a-56; provided if such Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Commission, the Contractor may request the State of Connecticut to enter into any such litigation or negotiation prior thereto to protect the interests of the State and the State may so enter.
- (f) The Contractor agrees to comply with the regulations referred to in this Section as they exist on the date of this Contract and as they may be adopted or amended from time to time during the term of this Contract and any amendments thereto.
- (g) (1) The Contractor agrees and warrants that in the performance of the Contract such Contractor will not discriminate or permit discrimination against any person or group of persons on the grounds of sexual orientation, in any manner prohibited by the laws of the United States or the State of Connecticut, and that employees are treated when employed without regard to their sexual orientation; (2) the Contractor agrees to provide each labor union or representative of workers with which such Contractor has a collective bargaining Agreement or other contract or understanding and each vendor with which such Contractor has a contract or understanding, a notice to be provided by the Commission on Human Rights and Opportunities advising the labor union or workers' representative of the Contractor's commitments under this section, and to post copies of the notice in conspicuous places available to employees and applicants for employment; (3) the Contractor agrees to comply with each provision of this section and with each regulation or relevant order issued by said Commission pursuant to Connecticut General Statutes § 46a-56; and (4) the Contractor agrees to provide the Commission on Human Rights and Opportunities with such information requested by the Commission, and permit access to pertinent books, records and accounts, concerning the employment practices and procedures of the Contractor which relate to the provisions of this Section and Connecticut General Statutes § 46a-56.
- (h) The Contractor shall include the provisions of the foregoing paragraph in every subcontract or purchase order entered into in order to fulfill any obligation of a contract with the State and such provisions shall be binding on a subcontractor, vendor or manufacturer unless exempted by regulations or orders of the Commission. The Contractor shall take such action with respect to any such subcontract or purchase order as the Commission may direct as a means of enforcing such provisions including sanctions for noncompliance in accordance with Connecticut General Statutes § 46a-56; provided, if such Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Commission, the Contractor may request the State of Connecticut to enter into any such litigation or negotiation prior thereto to protect the interests of the State and the State may so enter.

3. Indemnification.

- (a) The Contractor shall indemnify, defend and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising, directly or indirectly, in connection with the Contract, including the acts of commission or omission (collectively, the "Acts") of the Contractor or Contractor Parties; and (2) liabilities, damages, losses, costs and expenses, including but not limited to, attorneys' and other professionals' fees, arising, directly or indirectly, in connection with Claims, Acts or the Contract. The Contractor shall use counsel reasonably acceptable to the State in carrying out its obligations under this section. The Contractor's obligations under this section to indemnify, defend and hold harmless against Claims includes Claims concerning confidentiality of any part of or all of the Contractor's bid, proposal or any Records, any intellectual property rights, other proprietary rights of any person or entity, copyrighted or uncopyrighted compositions, secret processes, patented or unpatented inventions, articles or appliances furnished or used in the Performance of the Contract.
- (b) The Contractor shall not be responsible for indemnifying or holding the State harmless from any liability arising due to the negligence of the State or any other person or entity acting under the direct control or supervision of the State.
- (c) The Contractor shall reimburse the State for any and all damages to the real or personal property of the State caused by the Acts of the Contractor or any Contractor Parties. The State shall give the Contractor reasonable notice of any such Claims.
- (d) The Contractor's duties under this section shall remain fully in effect and binding in accordance with the terms and conditions of the Contract, without being lessened or compromised in any way, even where the Contractor is alleged or is found to have merely contributed

in part to the Acts giving rise to the Claims and/or where the State is alleged or is found to have contributed to the Acts giving rise to the Claims.

(e) The Contractor shall carry and maintain at all times during the term of the Contract, and during the time that any provisions survive the term of the Contract, sufficient general liability insurance to satisfy its obligations under this Contract. The Contractor shall name the State as an additional insured on the policy and shall provide a copy of the policy to the Agency prior to the effective date of the Contract. The Contractor shall not begin Performance until the delivery of the policy to the Agency. The Agency shall be entitled to recover under the insurance policy even if a body of competent jurisdiction determines that the Agency or the State is contributorily negligent.

(f) The rights provided in this section for the benefit of the State shall encompass the recovery of attorneys' and other professionals' fees expended in pursuing a Claim against a third party

(g) This section shall survive the Termination of the Contract and shall not be limited by reason of any insurance coverage.

4. State Liability The State of Connecticut shall assume no liability for payment for services under the terms of this agreement until the contractor is notified that this agreement has been accepted by the contracting agency and, if applicable, approved by the Office of Policy and Management (OPM) or the Department of Administrative Services (DAS) and by the Attorney General of the State of Connecticut.

5. Definitions:

a. State. The State of Connecticut, including the Department of Energy and Environmental Protection and any office, department, board, council, commission, institution or other agency of the State.

b. Commissioner. The Commissioner of Energy and Environmental Protection or the Commissioner's designated agent.

c. Parties. The Department of Energy and Environmental Protection (DEEP or Agency) and the Contractor.

d. Contractor Parties. Contractor Parties shall be defined as a Contractor's members, directors, officers, shareholders, partners, managers, principal officers, representatives, agents, servants, consultants, employees or any one of them or any other person or entity with whom the Contractor is in privity of oral or written contract and the Contractor intends for such other person or entity to Perform under the Contract in any capacity. To the extent that any Contractor Party is to participate or Perform in any way, directly or indirectly in connection with the Contract, any reference in the Contract to the "Contractor" shall also be deemed to include "Contractor Parties," as if such reference had originally specifically included "Contractor Parties" since it is the Parties' intent for the terms "Contractor Parties" to be vested with the same respective rights and obligations as the terms "Contractor."

e. Contract. This agreement, as of its Effective Date, between the Contractor and the State for any or all goods or services as more particularly described in Appendix A.

f. Execution. This contract shall be fully executed when it has been signed by authorized representatives of the parties, and if it is for an amount exceeding three thousand dollars (\$3,000.00), by the authorized representative of the state Attorney General's office.

g. Exhibits. All attachments, appendices or exhibits referred to in and attached to this Contract are incorporated in this Contract by such reference and shall be deemed to be a part of it as if they had been fully set forth in it.

h. Records. For the purposes of this Contract, records are defined as all working papers and such other information and materials as may have been accumulated by the Contractor in performing the Contract, including but not limited to, documents, data, plans, books, computations, drawings, specifications, notes, reports, records, estimates, summaries and correspondence, kept or stored in any form.

i. Confidential Information. shall mean any name, number or other information that may be used, alone or in conjunction with any other information, to identify a specific individual including, but not limited to, such individual's name, date of birth, mother's maiden name, motor vehicle operator's license number, Social Security number, employee identification number, employer or taxpayer identification number, alien registration number, government passport number, health insurance identification number, demand deposit account number, savings account number, credit card number, debit card number or unique biometric data such as fingerprint, voice print, retina or iris image, or other unique physical representation. Without limiting the foregoing, Confidential Information shall also include any information that the Department classifies as "confidential" or "restricted." Confidential Information shall not include information that may be lawfully obtained from publicly available sources or from federal, state, or local government records which are lawfully made available to the general public.

j. Confidential Information Breach. shall mean, generally, an instance where an unauthorized person or entity accesses Confidential Information in any manner, including but not limited to the following occurrences: (1) any Confidential Information that is not encrypted or protected is misplaced, lost, stolen or in any way compromised; (2) one or more third parties have had access to or taken control or possession of any Confidential Information that is not encrypted or protected without prior written authorization from the State; (3) the unauthorized acquisition of encrypted or protected Confidential Information together with the confidential process or key that is capable of compromising the integrity of the Confidential Information; or (4) if there is a substantial risk of identity theft or fraud to the client, the Contractor, the Department or State.

6. Distribution of Materials. The Contractor shall obtain written approval from the Commissioner prior to the distribution or publication of any materials prepared under the terms of this Contract. Such approval shall not be unreasonably withheld.

7. Change in Principal Project Staff. Any changes in the principal project staff must be requested in writing and approved in writing by the Commissioner at the Commissioner's sole discretion. In the event of any unapproved change in principal project staff, the Commissioner may, in the Commissioner's sole discretion, terminate this Contract.

8. Further Assurances. The Parties shall provide such information, execute and deliver any instruments and documents and take such other actions as may be necessary or reasonably requested by the other Party which are not inconsistent with the provisions of this Contract and which do not involve the vesting of rights or assumption of obligations other than those provided for in the Contract, in order to give full effect to the Contract and to carry out the intent of the Contract.

9. Recording and Documentation of Receipts and Expenditures. Accounting procedures must provide for accurate and timely recording of receipt of funds by source, expenditures made from such funds, and of unexpended balances. Controls must be established which are adequate to ensure that expenditures under this Contract are for allowable purposes and that documentation is readily available to verify that such charges are accurate.
10. Assignability. The Contractor shall not assign any interest in this Contract, and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of the Commissioner thereto: provided, however, that claims for money due or to become due the Contractor from the Commissioner under this Contract may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the Commissioner.
11. Third Party Participation. The Contractor may make sub-awards, using either its own competitive selection process or the values established in the state's competitive selection process as outline in DAS General Letter 71, whichever is more restrictive, to conduct any of the tasks in the Scope of Work contained in Appendix A. The Contractor shall advise the Commissioner of the proposed sub-awardee and the amount allocated, at least two (2) weeks prior to the making of such awards. The Commissioner reserves the right to disapprove such awards if they appear to be inconsistent with the program activities to be conducted under this grant. As required by Sec. 46a-68j-23 of the Connecticut Regulations of State Agencies the Contractor must make a good faith effort, based upon the availability of minority business enterprises in the labor market area, to award a reasonable proportion of all subcontracts to such enterprises. When minority business enterprises are selected, the Contractor shall provide DEEP with a copy of the Affidavit for Certification of Subcontractors as Minority Business Enterprises (MBE) along with a copy of the purchase order or contract engaging the Subcontractor. The Contractor shall be the sole point of contact concerning the management of the Contract, including performance and payment issues. The Contractor is solely and completely responsible for adherence by any subcontractor to all the applicable provisions of the Contract.
12. Set Aside. State funded projects are subject to the requirements of CGS Sec. 4a-60g "Set-Aside program for small contractors, minority business enterprises, individuals with disabilities and nonprofit corporations" unless exempted from these requirements by the Department of Administrative Services Supplier Diversity Program. For contracts using non-exempted funding sources and subcontracting any portion of work, contractors are required to subcontract 25% of the total contract value to small businesses certified by the Department of Administrative Services and are further required to subcontract 25% of that 25% to minority and women small contractors certified as minority business enterprises by the Department of Administrative Services.
13. Procurement of Materials and Supplies. The Contractor may use its own procurement procedures which reflect applicable State and local law, rules and regulations provided that procurement of tangible personal property having a useful life of more than one year and an acquisition cost of one thousand dollars (\$1,000.00) or more per unit be approved by the Commissioner before acquisition.
14. State Audit (for grants only). The Contractor receiving federal funds must comply with the federal Single Audit Act of 1984, P.L. 98-502 and the Amendments of 1996, P.L. 104-156. The Contractor receiving state funds must comply with the Connecticut General Statutes §§ 7-396a and the State Single Audit Act, §§ 4-230 through 4-236 inclusive, and regulations promulgated thereunder. The Contractor agrees that all fiscal records pertaining to the project shall be maintained for a period of not less than three (3) years. For purposes of this paragraph, the word "Contractor" shall be read to mean "nonstate entity," as that term is defined in Conn. Gen. Stat. § 4-230. The Contractor shall provide for an annual financial audit acceptable to the Department for any expenditure of state-awarded funds made by the Contractor. Such audit shall include management letters and audit recommendations. Such records will be made available to the state and/or federal auditors upon request
15. Audit and Inspection of Plants, Places of Business and Records.
 - (a) The State and its agents, including, but not limited to, the Connecticut Auditors of Public Accounts, Attorney General and State's Attorney and their respective agents, may, at reasonable hours, inspect and examine all of the parts of the Contractor's and Contractor Parties' plants and places of business which, in any way, are related to, or involved in, the performance of this Contract.
 - (b) The Contractor shall maintain, and shall require each of the Contractor Parties to maintain, accurate and complete Records. The Contractor shall make all of its and the Contractor Parties' Records available at all reasonable hours for audit and inspection by the State and its agents.
 - (c) The State shall make all requests for any audit or inspection in writing and shall provide the Contractor with at least twenty-four (24) hours' notice prior to the requested audit and inspection date. If the State suspects fraud or other abuse, or in the event of an emergency, the State is not obligated to provide any prior notice.
 - (d) All audits and inspections shall be at the State's expense.
 - (e) The Contractor shall keep and preserve or cause to be kept and preserved all of its and Contractor Parties' Records until three (3) years after the latter of (i) final payment under this Agreement, or (ii) the expiration or earlier termination of this Agreement, as the same may be modified for any reason. The State may request an audit or inspection at any time during this period. If any Claim or audit is started before the expiration of this period, the Contractor shall retain or cause to be retained all Records until all Claims or audit findings have been resolved.
 - (f) The Contractor shall cooperate fully with the State and its agents in connection with an audit or inspection. Following any audit or inspection, the State may conduct and the Contractor shall cooperate with an exit conference.
 - (g) The Contractor shall incorporate this entire Section verbatim into any contract or other agreement that it enters into with any Contractor Party.
16. Americans With Disabilities Act. The Contractor shall be and remain in compliance with the Americans with Disabilities Act of 1990 ("Act"), to the extent applicable, during the term of the Contract. The DEEP may cancel the Contract if the Contractor fails to comply with the Act.

17. Affirmative Action and Sexual Harassment Policy. The Contractor agrees to comply with the Departments Affirmative Action and Sexual Harassment Policies available on DEEP's web site. Hard copies of the policy statements are available upon request at DEEP.
18. Campaign Contributions. For all State contracts as defined in P.A. 07-1 having a value in a calendar year of \$50,000 or more or a combination or series of such agreements or contracts having a value of \$100,000 or more, the authorized signatory to this Agreement expressly acknowledges receipt of the State Elections Enforcement Commission's notice advising state contractors of state campaign contribution and solicitation prohibitions, and will inform its principals of the contents of the notice. See attached *Notice to Executive Branch State Contractors of Campaign Contribution and Solicitation Limitations*.
19. Sovereign Immunity. The Parties acknowledge and agree that nothing in the Solicitation or the Contract shall be construed as a modification, compromise or waiver by the State of any rights or defenses of any immunities provided by Federal law or the laws of the State of Connecticut to the State or any of its officers and employees, which they may have had, now have or will have with respect to all matters arising out of the Contract. To the extent that this section conflicts with any other section of this Contract, this section shall govern.
20. Termination.
 - (a) Notwithstanding any provisions in this Contract, the Agency, through a duly authorized employee, may Terminate the Contract whenever the Agency makes a written determination that such Termination is in the best interests of the State. The Agency shall notify the Contractor in writing of Termination pursuant to this section, which notice shall specify the effective date of Termination and the extent to which the Contractor must complete its Performance under the Contract prior to such date.
 - (b) Notwithstanding any provisions in this Contract, the Agency, through a duly authorized employee, may, after making a written determination that the Contractor has breached the Contract, Terminate the Contract in accordance with the provisions in the Breach section of this Contract.
 - (c) The Agency shall send the notice of Termination via certified mail, return receipt requested, to the Contractor at the most current address which the Contractor has furnished to the Agency for purposes of correspondence, or by hand delivery. Upon receiving the notice from the Agency, the Contractor shall immediately discontinue all services affected in accordance with the notice, undertake all commercially reasonable efforts to mitigate any losses or damages, and deliver to the Agency all Records. The Records are deemed to be the property of the Agency and the Contractor shall deliver them to the Agency no later than thirty (30) days after the Termination of the Contract or fifteen (15) days after the Contractor receives a written request from the Agency for the Records. The Contractor shall deliver those Records that exist in electronic, magnetic or other intangible form in a non-proprietary format, such as, but not limited to, ASCII or .TXT.
 - (d) Upon receipt of a written notice of Termination from the Agency, the Contractor shall cease operations as the Agency directs in the notice, and take all actions that are necessary or appropriate, or that the Agency may reasonably direct, for the protection, and preservation of the Goods and any other property. Except for any work which the Agency directs the Contractor to Perform in the notice prior to the effective date of Termination, and except as otherwise provided in the notice, the Contractor shall terminate or conclude all existing subcontracts and purchase orders and shall not enter into any further subcontracts, purchase orders or commitments.
 - (e) The Agency shall, within forty-five (45) days of the effective date of Termination, reimburse the Contractor for its Performance rendered and accepted by the Agency in accordance with Exhibit A, in addition to all actual and reasonable costs incurred after Termination in completing those portions of the Performance which the notice required the Contractor to complete. However, the Contractor is not entitled to receive and the Agency is not obligated to tender to the Contractor any payments for anticipated or lost profits. Upon request by the Agency, the Contractor shall assign to the Agency, or any replacement contractor which the Agency designates, all subcontracts, purchase orders and other commitments, deliver to the Agency all Records and other information pertaining to its Performance, and remove from State premises, whether leased or owned, all of Contractor's property, equipment, waste material and rubbish related to its Performance, all as the Agency may request.
 - (f) For breach or violation of any of the provisions in the section concerning Representations and Warranties, the Agency may Terminate the Contract in accordance with its terms and revoke any consents to assignments given as if the assignments had never been requested or consented to, without liability to the Contractor or Contractor Parties or any third party.
 - (g) Upon Termination of the Contract, all rights and obligations shall be null and void, so that no Party shall have any further rights or obligations to any other Party, except with respect to the sections which survive Termination. All representations, warranties, agreements and rights of the parties under the Contract shall survive such Termination to the extent not otherwise limited in the Contract and without each one of them having to be specifically mentioned in the Contract.
 - (h) Termination of the Contract pursuant to this section shall not be deemed to be a breach of contract by the Agency.
21. Breach. If either Party breaches the Contract in any respect, the non-breaching Party shall provide written notice of the breach to the breaching Party and afford the breaching Party an opportunity to cure within ten (10) days from the date that the breaching Party receives the notice. In the case of a Contractor breach, any other time period which the Agency sets forth in the notice shall trump the ten (10) days. The right to cure period shall be extended if the non-breaching Party is satisfied that the breaching Party is making a good faith effort to cure but the nature of the breach is such that it cannot be cured within the right to cure period. The notice may include an effective Contract Termination date if the breach is not cured by the stated date and, unless otherwise modified by the non-breaching Party in writing prior to the Termination date; no further action shall be required of any Party to effect the Termination as of the stated date. If the notice does not set forth an effective Contract Termination date; then the non-breaching Party may Terminate the Contract by giving the breaching Party no less than twenty four (24) hours' prior written notice. If the Agency believes that the Contractor has not performed according to the Contract, the Agency may withhold payment in whole or in part pending resolution of the Performance issue, provided that the Agency notifies the Contractor in writing prior to the date that the payment would have been due.

22. Severability. If any term or provision of the Contract or its application to any person, entity or circumstance shall, to any extent, be held to be invalid or unenforceable, the remainder of the Contract or the application of such term or provision shall not be affected as to persons, entities or circumstances other than those as to whom or to which it is held to be invalid or unenforceable. Each remaining term and provision of the Contract shall be valid and enforced to the fullest extent possible by law.
23. Contractor Guarantee. The Contractor shall: perform the Contract in accordance with the specifications and terms and conditions of the Scope of Work, furnish adequate protection from damage for all work and to repair any damage of any kind, for which he or his workmen are responsible, to the premises or equipment, to his own work or to the work of other contractors; pay for all permits, licenses, and fees, and to give all notices and comply with all laws, ordinances, rules and regulations of the city and the State.
24. Forum and Choice of Law. The Parties deem the Contract to have been made in the City of Hartford, State of Connecticut. Both parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.
25. Force Majeure. The Parties shall not be excused from their obligation to perform in accordance with the Contract except in the case of Force Majeure events and as otherwise provided for in the Contract. A Force Majeure event materially affects the cost of the Goods or Services or the time schedule for performance and is outside the control nor caused by the Parties. In the case of any such exception, the nonperforming Party shall give immediate written notice to the other, explaining the cause and probable duration of any such nonperformance.
26. Summary of State Ethics Laws. Pursuant to the requirements of section 1-101qq of the Connecticut General Statutes, the summary of State ethics laws developed by the State Ethics Commission pursuant to section 1-81b of the Connecticut General Statutes is incorporated by reference into and made a part of the Contract as if the summary had been fully set forth in the Contract.
27. Disclosure of Records. This Contract may be subject to the provisions of section 1-218 of the Connecticut General Statutes. In accordance with this statute, each contract in excess of two million five hundred thousand dollars between a public agency and a person for the performance of a governmental function shall (a) provide that the public agency is entitled to receive a copy of records and files related to the performance of the governmental function, and (b) indicate that such records and files are subject to FOIA and may be disclosed by the public agency pursuant to FOIA. No request to inspect or copy such records or files shall be valid unless the request is made to the public agency in accordance with FOIA. Any complaint by a person who is denied the right to inspect or copy such records or files shall be brought to the Freedom of Information Commission in accordance with the provisions of sections 1-205 and 1-206 of the Connecticut General Statutes.
28. Confidential Information of the Contractor. The Agency will afford due regard to a written request from the Contractor for the protection of the Contractor's proprietary and/or confidential information and the Agency will endeavor to keep said information confidential to the extent permitted by law. However, all materials associated with a bid and/or this Contract are subject to the terms of the Connecticut Freedom of Information Act (FOIA) and all corresponding rules, regulations and interpretations. In making such a written request, the Contractor shall delineate with specificity which materials provided by the Contractor to the Agency, and in Agency's possession, are deemed proprietary or confidential in nature and not, therefore, subject to release to third parties. Particular sentences, paragraphs, pages or sections of any document or Record that the Contractor believes are exempt from disclosure under the FOIA must be specifically identified as such. Additionally, the Contractor shall provide the Agency with a detailed explanation of its rationale sufficient to justify each claimed exemption consistent with the FOIA. The rationale and explanation shall be stated in terms of the prospective harm to the competitive position of the Contractor that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the FOIA. Additionally, the Contractor shall specifically and clearly mark all claimed documentation as "CONFIDENTIAL." However, nothing in this provision shall impose upon the Agency or the State any obligation to initiate, prosecute or defend any legal proceeding or to seek a protective order or other similar relief, to prevent disclosure of any information deemed confidential and/or proprietary by the Contractor that is sought pursuant to a FOIA request. The Contractor shall have the burden of establishing the availability of any FOIA exemption in any proceeding where it is an issue. Nothing in this provision shall be deemed to impose upon the Agency or the State any liability for the disclosure of any documents or information in its possession which the Agency believes are required to be disclosed pursuant to the FOIA or other requirements of law.
29. Protection of State Confidential Information.
 - a. Contractor and Contractor Parties, at their own expense, have a duty to and shall protect from a Confidential Information Breach any and all Confidential Information which they come to possess or control, wherever and however stored or maintained, in a commercially reasonable manner in accordance with current industry standards.
 - b. Each Contractor or Contractor Party shall develop, implement and maintain a comprehensive data - security program for the protection of Confidential Information. The safeguards contained in such program shall be consistent with and comply with the safeguards for protection of Confidential Information, and information of a similar character, as set forth in all applicable federal and state law and written policy of the Department or State concerning the confidentiality of Confidential Information. Such data-security program shall include, but not be limited to, the following:
 - 1) A security policy for employees related to the storage, access and transportation of data containing Confidential Information;

- 2) Reasonable restrictions on access to records containing Confidential Information, including access to any locked storage where such records are kept;
 - 3) A process for reviewing policies and security measures at least annually;
 - 4) Creating secure access controls to Confidential Information, including but not limited to passwords; and
 - 5) Encrypting of Confidential Information that is stored on laptops, portable devices or being transmitted electronically.
- c. The Contractor and Contractor Parties shall notify the Department and the Connecticut Office of the Attorney General as soon as practical, but no later than twenty-four (24) hours, after they become aware of or suspect that any Confidential Information which Contractor or Contractor Parties have come to possess or control has been subject to a Confidential Information Breach. If a Confidential Information Breach has occurred, the Contractor shall, within three (3) business days after the notification, present a credit monitoring and protection plan to the Commissioner of Administrative Services, the Department and the Connecticut Office of the Attorney General, for review and approval. Such credit monitoring or protection plan shall be made available by the Contractor at its own cost and expense to all individuals affected by the Confidential Information Breach. Such credit monitoring or protection plan shall include, but is not limited to reimbursement for the cost of placing and lifting one (1) security freeze per credit file pursuant to Connecticut General Statutes § 36a-701a. Such credit monitoring or protection plans shall be approved by the State in accordance with this Section and shall cover a length of time commensurate with the circumstances of the Confidential Information Breach. The Contractor's costs and expenses for the credit monitoring and protection plan shall not be recoverable from the Department, any State of Connecticut entity or any affected individuals.
- d. The Contractor shall incorporate the requirements of this Section in all subcontracts requiring each Contractor Party to safeguard Confidential Information in the same manner as provided for in this Section.
- e. Nothing in this Section shall supersede in any manner Contractor's or Contractor Party's obligations pursuant to HIPAA or the provisions of this Contract concerning the obligations of the Contractor as a Business Associate of the Department.
30. Whistleblowing. This Contract may be subject to the provisions of Section 4-61dd of the Connecticut General Statutes. In accordance with this statute, if an officer, employee or appointing authority of the Contractor takes or threatens to take any personnel action against any employee of the Contractor in retaliation for such employee's disclosure of information to any employee of the contracting state or quasi-public agency or the Auditors of Public Accounts or the Attorney General under the provisions of subsection (a) of such statute, the Contractor shall be liable for a civil penalty of not more than five thousand dollars for each offense, up to a maximum of twenty per cent of the value of this Contract. Each violation shall be a separate and distinct offense and in the case of a continuing violation, each calendar day's continuance of the violation shall be deemed to be a separate and distinct offense. The State may request that the Attorney General bring a civil action in the Superior Court for the Judicial District of Hartford to seek imposition and recovery of such civil penalty. In accordance with subsection (f) of such statute, each large state contractor, as defined in the statute, shall post a notice of the provisions of the statute relating to large state contractors in a conspicuous place which is readily available for viewing by the employees of the Contractor.
31. Entirety of Contract. The Contract is the entire agreement between the Parties with respect to its subject matter, and supersedes all prior agreements, proposals, offers, counteroffers and understandings of the Parties, whether written or oral. The Contract has been entered into after full investigation, neither Party relying upon any statement or representation by the other unless such statement or representation is specifically embodied in the Contract.
32. Interpretation. The Contract contains numerous references to statutes and regulations. For purposes of interpretation, conflict resolution and otherwise, the content of those statutes and regulations shall govern over the content of the reference in the Contract to those statutes and regulations.
33. Tangible Personal Property.
- (a) The Contractor on its behalf and on behalf of its Affiliates, as defined below, shall comply with the provisions of Conn. Gen. Stat. §12-411b, as follows:
 - (1) For the term of the Contract, the Contractor and its Affiliates shall collect and remit to the State of Connecticut, Department of Revenue Services, any Connecticut use tax due under the provisions of Chapter 219 of the Connecticut General Statutes for items of tangible personal property sold by the Contractor or by any of its Affiliates in the same manner as if the Contractor and such Affiliates were engaged in the business of selling tangible personal property for use in Connecticut and had sufficient nexus under the provisions of Chapter 219 to be required to collect Connecticut use tax;
 - (2) A customer's payment of a use tax to the Contractor or its Affiliates relieves the customer of liability for the use tax;
 - (3) The Contractor and its Affiliates shall remit all use taxes they collect from customers on or before the due date specified in the Contract, which may not be later than the last day of the month next succeeding the end of a calendar quarter or other tax collection period during which the tax was collected;
 - (4) The Contractor and its Affiliates are not liable for use tax billed by them but not paid to them by a customer; and
 - (5) Any Contractor or Affiliate who fails to remit use taxes collected on behalf of its customers by the due date specified in the Contract shall be subject to the interest and penalties provided for persons required to collect sales tax under chapter 219 of the general statutes.
 - (b) For purposes of this section of the Contract, the word "Affiliate" means any person, as defined in section 12-1 of the general statutes, that controls, is controlled by, or is under common control with another person. A person controls another person if the person owns, directly or indirectly, more than ten per cent of the voting securities of the other person. The word "voting security" means a security that confers upon the holder the right to vote for the election of members of the board of directors or similar governing body of the business, or that is convertible into, or entitles the holder to receive, upon its exercise, a security that confers such a right to vote. "Voting security" includes a general partnership interest.

(c) The Contractor represents and warrants that each of its Affiliates has vested in the Contractor plenary authority to so bind the Affiliates in any agreement with the State of Connecticut. The Contractor on its own behalf and on behalf of its Affiliates shall also provide, no later than 30 days after receiving a request by the State's contracting authority, such information as the State may require to ensure, in the State's sole determination, compliance with the provisions of Chapter 219 of the Connecticut General Statutes, including, but not limited to, §12-411b.

APPENDIX A
SCOPE OF WORK

Purpose: To . . .

Description: The Contractor agrees to conduct a project entitled: _____

- 1. Insert Specific Paragraph Title(s):** *[Insert paragraph(s) providing the following information: Who...is specifically doing the service? Include job titles of those involved and whether they are contractor staff, subcontractor or state agency staff. What...exactly is the contractor doing for the state? What steps are necessary and in what order? When...is each step to be conducted ? What are due dates for deliverables and any reports? Where...is the service to be provided ? dates, times, places? How...is each service to be provided? Include details as to how each step in the process is conducted. Take care to ensure that language is in contract format NOT proposal format (e.g. use Contractor shall vs. Contractor proposes to).]*
- 2. Budget:** *[Describe all applicable unit rates – per hour, per day, per consultation, etc. and conditional terms such as credits or refunds or cancellation.] [If an itemized budget is required, include the following language.]* The Contractor shall adhere to the budget which is included in this Contract on page ____.
- 3. Acknowledgement of Funding:** Any publication or sign produced or distributed or any publicity conducted in association with this Contract must provide credit to the _____ as follows: "Funding provided by the [*list grant program*] administered by the Connecticut Department of Energy and Environmental Protection (DEEP)."
- 4. Publication of Materials:** The Contractor must obtain written approval from DEEP's _____ prior to distribution or publication of any printed material prepared under the terms of this Contract.

Unless specifically authorized in writing by the State, on a case by case basis, Contractor shall have no right to use, and shall not use, the name of the State of Connecticut, its officials, agencies, or employees or the seal of the State of Connecticut or its agencies: (1) in any advertising, publicity, promotion; or (2) to express or to imply any endorsement of Contractor's products or services; or (3) to use the name of the State of Connecticut, its officials agencies, or employees or the seal of the State of Connecticut or its agencies in any other manner (whether or not similar to uses prohibited by (1) and (2) above), except only to manufacture and deliver in accordance with this Agreement such items as are hereby contracted for by the State. In no event may the Contractor use the State Seal in any way without the express written consent of the Secretary of State.

5. ADA Publication Statement:

For all public notices printed in newspapers, the following ADA and Title VI Publication Statement should be used:

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action and Equal Opportunity Employer that is committed to complying with the Americans with Disabilities Act. To request an accommodation contact us at (860) 418-5910 or <mailto:deep.accommodations@ct.gov>

If there is not a meeting or event associated with the material(s) being published, the following ADA and Title VI Publication Statement should be used:

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. Please contact us at (860) 418-5910 or deep.accommodations@ct.gov if you: have a disability and need a communication aid or service; have limited proficiency in English and may need information in another language; or if you wish to file an ADA or Title VI discrimination complaint.

If the material(s) being published have a meeting or event associated with them, the following ADA and Title VI Publication Statement should be used:

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. Please contact us at (860) 418-5910 or deep.accommodations@ct.gov if you: have a disability and need a communication aid or service; have limited proficiency in English and may need information in another language; or if you wish to file an ADA or Title VI discrimination complaint. Any person needing a hearing accommodation may call the State of Connecticut relay number - 711. Requests for accommodations must be made at least two weeks prior to any agency hearing, program or event.

For videos that will be published on the DEEP website, the following ADA and Title VI statement and the following line should be included on the DVD cover and the title page of the video:

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action and Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. To request an accommodation contact us at (860) 418-5910 or deep.accommodations@ct.gov.

This video with closed captioning is available at www.ct.gov/deep.

- 6. Submission of Materials:** For the purposes of this Contract, all correspondence, summaries, reports, products and extension requests shall be submitted to:

Department of Energy and Environmental Protection
Insert Division Name
Insert Program Coordinator Title
79 Elm Street
Hartford, CT 06106-5127

All **invoices** must include the PO #, PSA #, Project Title, DEEP Bureau/Division name, amount dates and description of services covered by the invoice, and shall be submitted to:

DEEP ó Financial Management Division
Accounts Payable
79 Elm Street
Hartford, CT 06106-5127

- 7. Permits:** No work shall commence until all required local, state and federal permits and approvals have been obtained by the Contractor.
- 8. Project Summaries:** Following Execution of this Contract, the Contractor shall provide summaries of project status to the [bureau/division/program coordinator] once every [six months] during the time in which this Contract is in effect. Such summaries shall include a brief description (1 or more pages) indicating the work completed to date and the anticipated project completion date if different from the current Contract expiration date.
- 9. Extensions/Amendments:** Formal written amendment of the Contract is required for extensions to the final date of the Contract period and changes to terms and conditions specifically stated in the original Contract and any prior amendments, including but not limited to:
- a. revisions to the maximum Contract payment,
 - b. the total unit cost of service,
 - c. the contract's objectives, services, or plan,
 - d. due dates for reports,
 - e. completion of objectives or services, and
 - f. any other Contract revisions determined material by DEEP.

If it is anticipated that the project cannot be completed as scheduled, a no-cost extension must be requested in writing no later than 60 days prior to the expiration date of the contract. Said extension request shall include a description of what work has been completed to date, shall document the reason for the extension request, and shall include a revised work schedule and project completion date. If deemed acceptable, approval will be received in the form of a contract amendment.

- 10. Final Report:** Within 30 days of the expiration date of this Contract, the Contractor shall submit to the _____, a Final Report including documentation, satisfactory to the Commissioner, demonstrating that all the elements of Appendix A have been met including, but not limited to, *[INSERT SPECIFIC LANGUAGE]*.
- 11. Final Financial Report:** Within 30 days of the expiration date of this Contract, the Contractor shall submit a Final Financial Report to the _____, with supporting documentation sufficient to demonstrate expenditures identified in the project proposal. Amounts spent on specific items such as *[DETAILS]* must be included. A sample format is attached as Appendix C.

APPENDIX B
SCHEDULE OF PAYMENTS

The maximum amount payable under this Contract is _____ dollars (\$_____).

The payments by the Commissioner shall allow for use of funds to meet allowable financial obligations incurred in conjunction with this Project, prior to expiration of this Contract, and shall be scheduled as follows provided that the total sum of all payments shall not exceed the maximum Contract amount noted above.

- a. _____ following completion of _____. [*This may include several "phases or series of deliverables. May be invoiced on a periodic basis (monthly, quarterly, etc.) Be specific on when payments will be made and what documentation needs to accompany the invoice.*]
- b. remainder following completion of Project to the Commissioner's satisfaction, review and approval of a Final Report and associated documentation demonstrating that all the elements of Appendix A have been met. Payment shall be processed contingent upon receipt of detailed invoices with any required supportive documentation, subject to review and approval by DEEP. Total sum of all payments shall not exceed total Project costs.

Should total Projects costs be less than the amount of payments made, any remaining funds must be refunded to the Connecticut Department of Energy and Environmental Protection through a check made payable to "_____" within 90 days of the Contract expiration date.

Notice to Executive Branch State Contractors and Prospective State Contractors of Campaign Contribution and Solicitation Limitations

Acknowledgement of Receipt of Explanation of Prohibitions for Incorporation in Contracting and Bidding Documents

This notice is provided under the authority of Connecticut General Statutes §9-612(g)(2), as amended by P.A. 10-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined on the reverse side of this page).

CAMPAIGN CONTRIBUTION AND SOLICITATION LIMITATIONS

No *state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor*, with regard to a *state contract or state contract solicitation* with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee (which includes town committees).

In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

On and after January 1, 2011, no state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor, with regard to a state contract or state contract solicitation with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall **knowingly solicit** contributions from the state contractor's or prospective state contractor's employees or from a *subcontractor or principals of the subcontractor* on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

DUTY TO INFORM

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

PENALTIES FOR VIOLATIONS

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

Civil penalties—Up to \$2,000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of up to \$2,000 or twice the amount of the prohibited contributions made by their principals.

Criminal penalties—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or not more than \$5,000 in fines, or both.

CONTRACT CONSEQUENCES

In the case of a state contractor, contributions made or solicited in violation of the above prohibitions may result in the contract being voided.

In the case of a prospective state contractor, contributions made or solicited in violation of the above prohibitions shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The State shall not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

DEFINITIONS

“State contractor” means a person, business entity or nonprofit organization that enters into a state contract. Such person, business entity or nonprofit organization shall be deemed to be a state contractor until December thirty-first of the year in which such contract terminates. “State contractor” does not include a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee.

“Prospective state contractor” means a person, business entity or nonprofit organization that (i) submits a response to a state contract solicitation by the state, a state agency or a quasi-public agency, or a proposal in response to a request for proposals by the state, a state agency or a quasi-public agency, until the contract has been entered into, or (ii) holds a valid prequalification certificate issued by the Commissioner of Administrative Services under section 4a-100. “Prospective state contractor” does not include a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee.

“Principal of a state contractor or prospective state contractor” means (i) any individual who is a member of the board of directors of, or has an ownership interest of five per cent or more in, a state contractor or prospective state contractor, which is a business entity, except for an individual who is a member of the board of directors of a nonprofit organization, (ii) an individual who is employed by a state contractor or prospective state contractor, which is a business entity, as president, treasurer or executive vice president, (iii) an individual who is the chief executive officer of a state contractor or prospective state contractor, which is not a business entity, or if a state contractor or prospective state contractor has no such officer, then the officer who duly possesses comparable powers and duties, (iv) an officer or an employee of any state contractor or prospective state contractor who has *managerial or discretionary responsibilities with respect to a state contract*, (v) the spouse or a *dependent child* who is eighteen years of age or older of an individual described in this subparagraph, or (vi) a political committee established or controlled by an individual described in this subparagraph or the business entity or nonprofit organization that is the state contractor or prospective state contractor.

“State contract” means an agreement or contract with the state or any state agency or any quasi-public agency, let through a procurement process or otherwise, having a value of fifty thousand dollars or more, or a combination or series of such agreements or contracts having a value of one hundred thousand dollars or more in a calendar year, for (i) the rendition of services, (ii) the furnishing of any goods, material, supplies, equipment or any items of any kind, (iii) the construction, alteration or repair of any public building or public work, (iv) the acquisition, sale or lease of any land or building, (v) a licensing arrangement, or (vi) a grant, loan or loan guarantee. “State contract” does not include any agreement or contract with the state, any state agency or any quasi-public agency that is exclusively federally funded, an education loan, a loan to an individual for other than commercial purposes or any agreement or contract between the state or any state agency and the United States Department of the Navy or the United States Department of Defense.

“State contract solicitation” means a request by a state agency or quasi-public agency, in whatever form issued, including, but not limited to, an invitation to bid, request for proposals, request for information or request for quotes, inviting bids, quotes or other types of submittals, through a competitive procurement process or another process authorized by law waiving competitive procurement.

“Managerial or discretionary responsibilities with respect to a state contract” means having direct, extensive and substantive responsibilities with respect to the negotiation of the state contract and not peripheral, clerical or ministerial responsibilities.

“Dependent child” means a child residing in an individual's household who may legally be claimed as a dependent on the federal income tax of such individual.

“Solicit” means (A) requesting that a contribution be made, (B) participating in any fund-raising activities for a candidate committee, exploratory committee, political committee or party committee, including, but not limited to, forwarding tickets to potential contributors, receiving contributions for transmission to any such committee or bundling contributions, (C) serving as chairperson, treasurer or deputy treasurer of any such committee, or (D) establishing a political committee for the sole purpose of soliciting or receiving contributions for any committee. Solicit does not include: (i) making a contribution that is otherwise permitted by Chapter 155 of the Connecticut General Statutes; (ii) informing any person of a position taken by a candidate for public office or a public official, (iii) notifying the person of any activities of, or contact information for, any candidate for public office; or (iv) serving as a member in any party committee or as an officer of such committee that is not otherwise prohibited in this section.

“Subcontractor” means any person, business entity or nonprofit organization that contracts to perform part or all of the obligations of a state contractor's state contract. Such person, business entity or nonprofit organization shall be deemed to be a subcontractor until December thirty first of the year in which the subcontract terminates. “Subcontractor” does not include (i) a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or (ii) an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee.

“Principal of a subcontractor” means (i) any individual who is a member of the board of directors of, or has an ownership interest of five per cent or more in, a subcontractor, which is a business entity, except for an individual who is a member of the board of directors of a nonprofit organization, (ii) an individual who is employed by a subcontractor, which is a business entity, as president, treasurer or executive vice president, (iii) an individual who is the chief executive officer of a subcontractor, which is not a business entity, or if a subcontractor has no such officer, then the officer who duly possesses comparable powers and duties, (iv) an officer or an employee of any subcontractor who has managerial or discretionary responsibilities with respect to a subcontract with a state contractor, (v) the spouse or a dependent child who is eighteen years of age or older of an individual described in this subparagraph, or (vi) a political committee established or controlled by an individual described in this subparagraph or the business entity or nonprofit organization that is the subcontractor.

Connecticut Department of

**ENERGY &
ENVIRONMENTAL
PROTECTION**

AFFIRMATIVE ACTION POLICY STATEMENT

It is the policy of the Department of Energy and Environmental Protection (DEEP) to provide its programs and services in a manner that is consistent with State and Federal laws that prohibit discrimination and harassment based on a person's legally protected status which includes race, color, religious creed, age, sex, marital status, national origin, ancestry, intellectual disability, physical disability, learning disability, sexual orientation, gender identity, present or past history of mental disability, genetic information or prior conviction of a crime, unless there is a bona fide occupational qualification excluding persons in one of the above protected groups.

Harassment means any unwelcome conduct when: (A) submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment; (B) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or (C) when such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

Affirmative action is positive action undertaken with conviction and effort to overcome the present effects of past practices, policies or barriers to equal employment opportunity and to achieve the full and fair participation of women, Blacks and Hispanics, and any other groups that have been found historically to be underutilized in the workforce or affected by policies or practices having an adverse impact. The purpose of affirmative action is to achieve equal employment opportunity in all aspects of the employment process. Equal employment opportunity is the employment of individuals without consideration of their protected group status, as required by State and Federal laws and regulations.

As the Commissioner of the DEEP, I acknowledge the purpose and need for affirmative action and equal employment opportunity, and I pledge my commitment to achieve the full and fair participation of women, people of color, people with disabilities and other groups that have been historically disadvantaged in our workforce in all aspects of the employment process including recruitment, selection, hiring, training, promotion, benefits, compensation, layoffs, and terminations.

As stated by the U.S. Supreme Court, discrimination not only refers to situations in which intended discrimination has occurred, but also includes practices, criteria, and procedures which appear neutral but have a discriminatory effect on classes of individuals protected against employment discrimination. Accordingly, the DEEP pledges to periodically review its policies and procedures to identify and eliminate any barriers to the full representation of members of protected groups in its workforce as compared to their availability in the labor market.

Affirmative action and equal opportunity are immediate and necessary objectives for the DEEP, therefore, I pledge my commitment to comply with all Federal and State constitutional provisions, laws, regulations, guidelines, and executive orders that prohibit discrimination (see attached listing). The DEEP also recognizes the hiring difficulties experienced by people with physical disabilities and older persons. Therefore, we will take the necessary steps to identify and

www.ct.gov/deep

Affirmative Action/Equal Opportunity Employer

33 - > 2

overcome areas of underutilization of such persons in our workforce and to achieve their full and fair participation in our programs and services.

The DEEP will not knowingly do business with any contractor, sub-contractor, bidder or supplier of materials who discriminates against members of a protected class, and will actively solicit services from businesses owned by persons with disabilities, minorities and women.

Complaints alleging violation of this policy must be filed with the Affirmative Action Office within 30 days of the alleged violation and/or with the Commission on Human Rights and Opportunities (CHRO) within 180 days of the alleged discriminatory action. Complaints filed with CHRO must be submitted to the office which serves the town where the alleged discriminatory action took place. The CHRO offices are listed in the Affirmative Action Complaint Procedure.

This policy also protects employees and applicants from retaliation for filing and/or participating in the investigation of a complaint alleging discrimination. All employees are expected to cooperate fully with all administrative complaint investigations and any actions taken by the DEEP as a result of such investigations.

As the appointing authority for DEEP, I have the responsibility to implement an effective Affirmative Action Plan as a tool to achieve equal employment objectives and as a mechanism to prevent and eliminate discrimination. Therefore, I am committed to making a good faith effort to achieve a successful affirmative action program, and I will hold managers and supervisors accountable for their compliance with the goals and objectives established.

I have assigned the responsibility to implement our affirmative action goals and objectives to Marcia Z. Bonitto, EEO Manager. Ms. Bonitto may be contacted at 79 Elm Street, 3rd floor, Hartford, CT 06106, or at (860) 424-3051, or via e-mail at Marcia.Bonitto@ct.gov.

This policy statement will be given annually to staff and will be posted at all agency locations. Any employee found to be in violation of this policy will be subject to appropriate disciplinary action up to and including termination.

Revised 1/9/12

Connecticut Department of

**ENERGY &
ENVIRONMENTAL
PROTECTION**

**THE DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION
ZERO TOLERANCE SEXUAL HARASSMENT PREVENTION POLICY**

In accordance with Title VII of the Civil Rights Act of 1964, 42 United States Code Section 200e, et seq., as amended, as well as Section 46a-60(a) (8) of the Connecticut General Statutes, it is the established policy of the Department of Energy and Environmental Protection (DEEP) to provide equal employment opportunity in all aspects of the employment process without consideration to an individual's sex. Sexual harassment is illegal. It is a form of discrimination based on a person's sex and it undermines the integrity of the workplace and the personal dignity of the individual. The definition of sexual harassment includes harassment based on a person's gender identity or sexual orientation.

Sexual harassment is defined by Connecticut State law as any unwelcome sexual advances or requests for sexual favors or any conduct of a sexual nature when: (A) submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment, (B) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual, or (C) when such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

Prohibited conduct includes, without limitation:

- Sexual flirtation, propositions or threats;
- Lewd comments;
- Using crude and offensive language, or sexually explicit jokes;
- Unwanted or inappropriate touching such as patting, pinching or hugging;
- Sexual gestures;
- Use or display of sexually suggestive photographs, objects or pornographic pictures;
- Obscene noises or leering;
- While in a supervisory position, condoning or ignoring sexual harassment of which one has knowledge or has reason to have knowledge; and
- Derogatory comments about another person's sex, gender or sexual orientation.

The Department of Energy and Environmental Protection is committed to maintaining a work environment free of **all forms of discrimination including** sexual harassment and will not tolerate any behavior that may violate this policy. Supervisory personnel and all other employees are directed to adhere to this policy, to familiarize themselves with the laws and statutes stated, and to be receptive to complaints made by afflicted personnel. The DEEP further prohibits sexual harassment in any form whether in the workplace, at assignments outside the workplace, at work sponsored functions, or elsewhere. Off-duty or non-duty behavior that affects the workplace may also be considered sexual harassment. Sexual harassment by employees against non-employees is also prohibited. Employees should be aware that some forms of sexual harassment may be subject to civil or criminal penalties. More importantly, anyone found to be in violation of this policy will be subject to appropriate disciplinary action up to and including termination.

Complaints alleging a violation of this policy must be filed with the Affirmative Action Office within 30 days of the alleged violation and/or with the Commission on Human Rights and Opportunities (CHRO) within 180 days of the alleged discriminatory action. Complaints filed with CHRO must be submitted to the office which serves the town where the alleged discriminatory action took place. The CHRO offices are listed in the Affirmative Action Complaint Procedure.

This policy also protects employees, applicants, and program participants from retaliation for filing and/or participating in the investigation of a complaint alleging discrimination. All employees are expected to cooperate fully with all administrative complaint investigations and any actions taken by the DEEP as a result of such investigations.

The remedies available to victims of sexual harassment include the following: cease and desist orders, back pay, compensatory damages, and hiring/promotion or reinstatement. At no time will the internal investigation of a complaint be terminated or suspended because the complainant has filed a complaint with the CHRO or the Equal Employment Opportunity Commission or any similar enforcement agency.

To ensure that all employees are aware of the DEEP commitment to provide a work environment free of all forms of harassment, this policy will be posted on all bulletin boards and educational workshops will be conducted for staff, as needed. It will also be distributed once a year to all employees. Supervisors are responsible for making their employees aware of this policy. The determination of whether violation of this policy has occurred will be made from the facts and the context in which the alleged incident(s) took place.

Contractors, suppliers, consultants, or any other agency we do business with must comply with all applicable State and Federal Laws and Regulations protecting persons against sexual harassment.

Daniel C. Esty, Commissioner

1. **DEFINITIONS**

Whenever the following terms, or pronouns in place of them, are used, the intent and meaning shall be as follows:

- A. Additional or Deleted Work: Work required by the Commissioner which, in the judgment of the Commissioner, involves any addition to, deduction from or modification of the Work required by the Contract Documents. See Article # 15 - Change Orders/Compensation herein.
- B. Additional Insured: An assured party specifically named under an insurance policy that is not automatically included as an Insured under the policy of another, but for whom the named Insured's policy provides a certain degree of protection. An endorsement is typically required to effect additional insured status.
- C. Bid Bond: A surety bond in an amount stated as a percentage of the Bid, executed by the Bidder as Principal and by a surety insurer licensed by the Connecticut Insurance Department, to guarantee that the Bidder will enter into a contract within the specified time and furnish the required bond as mandated by Connecticut General Statute (CGS) Section 4b-92.
- D. Bidder: An individual, partnership, firm, corporation or other business organization submitting a bid on the Proposal Form for the Work contemplated.
- E. Bid Proposal Form: The form on which the bidder is to submit a bid for the Work contemplated.
- F. Bid Security: The Bid Bond submitted with the Bid Proposal Form, which provides that the Bidder, if awarded the Contract, will execute the Contract in accordance with the requirements of the Contract Documents and guarantee payment of damages up to the stated amount of the Bid Bond, which damages may result from failure to so execute.
- G. Change Order: Written authorization signed by the Commissioner, authorizing a modification, addition or reduction or deletion in the Work, an adjustment in the monetary value of a Contract Work Item or Items, or an adjustment in the Contract Work Time.
- H. Commissioner: The Commissioner of the Department of Energy & Environmental Protection or designee, acting directly or through specifically authorized DEEP personnel.
- I. Construction Inspector: An employee of the Department of Energy & Environmental Protection, or its Project Engineer, duly authorized to perform duties listed in Article # 5 - Authority of the Construction Inspector herein.
- J. Contract Documents: The Invitation to Bid, Proposal Form, Wage Rates, Notice to Bidders, these General Conditions, Supplemental Conditions, Technical Specifications, Plans, Contract, Bonds and Insurance Certificates, all of which shall constitute the Contract.
- K. Contract Execution Date: The date the Contract is approved by the Attorney General's office.
- L. Contract Expiration Date: The date by which all construction, post construction and administrative actions must be completed. This is not the Work End Date.
- M. Contract Period: The period from the Contract Execution Date continuing until the Contract Expiration Date.

- N. Contract Work Time: The Contract Work Time is the number of calendar days, allotted in the bidding documents, for execution and completion of the Work, including adjustments authorized by Change Order. The Contract Work Time is the sum of all working and non-working calendar days and will be reiterated in the Notice to Proceed.
- O. Contractor: An individual, partnership, firm or corporation, under direct Contract with the Department of Environmental Protection, responsible for performing the Work under the Contract Documents.
- P. DEEP: Department of Energy & Environmental Protection.
- Q. Equal: The recognized equivalent in substance and function; considering quality, workmanship, economy of operation, durability and suitability for purposes intended, and not constituting a change in the work specified. Whenever the words "equal" or "equals" or words of like import are used, it shall be understood they mean "equal" in the opinion of the Commissioner.
- R. Execution: The Contract shall be fully executed when it has been signed by authorized representatives of the parties, and if it is for an amount exceeding three thousand dollars (\$3,000.00), by the authorized representative of the state Attorney General's office.
- S. Final Contract Value: The final approved total monetary value of the completed Contract Work based on the unit prices bid multiplied by the actual final measured quantities for unit price work items, completed Lump Sum work items, and as adjusted by approved Change Order(s).
- T. IWRD: The Inland Water Resources Division of the Bureau of Water Management of the Department of Energy & Environmental Protection.
- U. IWRD Department Representative: The IWRD Staff Engineer designated to manage this Contract.
- V. IWRD Director: The Director of the Inland Water Resources Division of the Bureau of Water Management of the Department of Energy & Environmental Protection.
- W. Labor and Material Bond: A bond in which the Contractor and the Contractor's surety guarantee to the DEP that the Contractor will pay for labor and materials furnished for use in the performance of the Contract, as required by Connecticut General Statute Section 49-41.
- X. Liquidated Damages: A sum established in the Contract Documents, as a fixed sum per day, as a measure of damages for extra Contract inspection and administration costs to be paid to the DEP if a Contractor fails to complete the Work by the Work End Date.
- Y. Lump Sum: An item or category priced as a whole rather than broken down into its elements.
- Z. Notice to Proceed: Following Contract approval by the Attorney General's office, written Notice to Proceed will be issued by the Commissioner, to the Contractor authorizing the Contractor to proceed with the Work. The Notice to Proceed will establish the Work Start Date and Work End Date based on the Contract Work Time.
- AA. Performance Bond: A surety bond in which the Contractor and the Contractor's surety insurer guarantee to the Commissioner that the Work will be performed in accordance with the Contract Documents, as required by Connecticut General Statute Section 49-41.

- BB. Plans or Drawings: All plans, drawings, reproductions of drawings, and appurtenances pertaining to the construction of the Work.
- CC. Principal Superintendent: The employee of the Contractor who was identified on the bidding documents as available to oversee this contracted work and who has overall charge of the construction activities at the site of the Work.
- DD. Project Engineer: An employee of the DEEP or a person, partnership, corporation or other business organization under Contract with the DEEP, commissioned to perform construction administration and inspection duties during construction.
- EE. Project Specific Conditions: These are Supplemental Conditions applicable to specific and special requirements and conditions of the project.
- FF. Properly Executed Invoice: Following the Commissioners approval and signature of periodic payment invoice and the invoice being date stamped in the DEEP Bureau of Financial and Support Services a periodic payment invoice shall be deemed a properly executed invoice.
- GG. Shop Drawings: Drawings, diagrams, schedules, performance charts, brochures and other materials prepared by the Contractor or subcontractors, manufacturers or distributors which provide additional detail of portions of the Work. The Shop Drawing submission and review process is specified in Article # 11 - Shop Drawings, Catalog Cuts and Samples herein.
- HH. Special Risk Insurance: Coverage designed to provide financial protection against risks or hazards of a special or unusual nature.
- II. Subcontractor: A person, partnership, corporation or other business organization under direct contract with the Contractor supplying labor and/or materials for the Work.
- JJ. Supplemental Conditions: Supplementary general and project specific conditions and requirements which extend and modify the General Conditions to apply to any and all portions of Work under the Contract.
- KK. Technical Specifications: The description, provisions and other requirements pertaining to the method and manner of performing the Work specified under each Work Item and pertaining to the quantities and quality of materials to be furnished under the Contract and methods of measurement and payment.
- LL. Total Bid Amount: The cost summation of the Contract lump sum bid items plus the unit priced bid items based on the estimated quantities of work for the unit priced items that are shown on the proposal form.
- MM. Unit Price: A Contract per-unit price corresponding to the unit used to measure the completed and accepted quantity of an item for payment in accordance with the Contract.
- NN. Work: The construction and services required by the Contract Documents, and including all plant, labor, materials, services, supplies, equipment and other facilities provided or to be provided by the Contractor to fulfill the Contractor's obligations for completion of all the Work Items under the terms of the Contract.

- OO. Work Item: The specific construction and services required by the Contract Documents for which a separate description and payment method is provided on the Proposal Bid Form and in the Technical Specifications.
- PP. Work Start Date: The date work is to begin as established in the Notice to Proceed.
- QQ. Work End Date: The date work is to be completed as established in the Notice to Proceed unless adjustments to the Contract Work End Date are authorized by approved change orders.

2. **WORK TO BE PERFORMED**

The Work to be performed by the Contractor consists of furnishing all necessary plant, materials, equipment, supplies, labor and transportation, including fuel and water, necessary to perform all Work as required by the Contract Documents in strict accordance with the Technical Specifications, Plans and Construction Progress Schedules, all of which are made a part hereof, and including any supplemental detail drawings as may be furnished from time to time during the prosecution of the Work in explanation of said Plans.

3. **INTENT OF DOCUMENTS**

The Technical Specifications, with the accompanying Plans, are intended to describe and illustrate all materials and labor necessary to complete the Work.

4. **ALL WORK SUBJECT TO CONTROL OF THE COMMISSIONER**

- A. In the performance of the Work, the Contractor shall abide by all orders, directions and requirements of the Commissioner.
- B. The Commissioner shall determine the amount, quality, acceptability and fitness of all parts of the Work, shall interpret the Plans, Technical Specifications, Contract Documents and Change Orders and shall decide all other questions in connection with the Work.
- C. Only the Commissioner can act in matters involving revoking, altering, enlarging or relaxing any requirement of the Contract Documents. Change Orders must be authorized by the Commissioner and shall be guided by the provisions of Article 15 - Change Orders/Compensation herein.
- D. The Contractor shall use no plant, equipment, materials, methods or workers to which the Commissioner objects and shall remove no plant, materials, equipment or other facilities from the site of the Work without the permission of the Commissioner. Upon request, the Commissioner will confirm any oral order, direction, requirement or determination in writing.
- E. During the progress of the Work, the Contractor's Principal Superintendent who was identified on the bidding documents as available for this Work, and other identified workers shall remain on the job unless found to be unsatisfactory to the Commissioner. The Principal Project Superintendent shall be explicitly familiar with the Contract Documents, Specifications and Plans.

5. **AUTHORITY OF THE CONSTRUCTION INSPECTOR**

- A. The Construction Inspector employed by the DEEP or its Project Engineer, under the supervision of the Project Engineer or IWRD Department Representative, shall inspect all Work done and materials

furnished for conformance to the Contract Documents. The Construction Inspector is authorized to reject all Work found to be defective, unacceptable and nonconforming to the Contract Documents. Such inspections and rejections may extend to all or any part of the Work, and to the preparation or manufacture of the materials to be used.

- B. The Construction Inspector is not empowered to revoke, alter, enlarge or relax any requirements of the Contract Documents, or to issue instructions contrary to the Contract Documents. The Construction Inspector shall in no case act as foreman or perform other duties for the Contractor, nor shall the Construction Inspector interfere with the management of the Work by the Contractor. Any advice which the Construction Inspector may give the Contractor shall in no way be construed as binding the DEEP in any way, nor releasing the Contractor from fulfillment of the terms of the Contract documents.
- C. In any dispute arising between the Contractor and the Construction Inspector with reference to inspection or rejection of the Work, the Construction Inspector may suspend work on the non-compliant portion of the Work until the dispute can be referred to and decided by the Commissioner.

6. **CONDITIONS OF WORK**

- A. The Contractor shall carefully examine and study the conditions under which the Work is to be performed, the site of the Work, the seasonal items, constraints, water control requirements, the Plans and Technical Specifications, the form of the Contract, the General Conditions, the Supplemental Conditions, the Bonds and all other Contract Documents associated with the Work contemplated; and it will be assumed that the Contractor is satisfied as to all the requirements of the Contract Documents.
- B. The Contractor shall verify all dimensions and obtain all necessary measurements at the site. Any deterrent conditions at the site of the contemplated work, which are and were obvious and apparent during examinations of the site but are not indicated on the Plans shall be corrected by the Contractor without additional compensation.
- C. In performing the Work, the Contractor must employ such methods or means as will not cause any interruption of or interference with the work of any other contractor, nor any inordinate disruption with the normal routine of the DEEP operating at the site.
- D. No claims for additional compensation will be considered when additional costs result from conditions made known to, discovered by, or which should have been discovered by, the Contractor prior to bidding.
- E. No claims for additional compensation will be considered when additional costs result from cold weather conditions or rising water, unless specifically authorized in the Technical Specifications.

7. **PLANS AND SPECIFICATIONS AT THE SITE**

The Contractor shall maintain in good order at the work site two (2) copies of all Plans, Contract Documents, addenda, approved Shop Drawings, Change Orders and other modifications, schedules and instructions. At least one copy is to be marked to record all changes made during construction. These shall be available at all times to the Project Engineer and the Commissioner. At the conclusion of construction, the Contractor shall turn one (1) marked up / corrected set over to the Project Engineer.

8. STANDARD SPECIFICATIONS

All references made to Standard Specifications and Plans refer to the latest editions in effect at the date of the proposal. The Connecticut Department of Transportation (CT DOT) Standard Specifications for Roads, Bridges and Incidental Construction, Form 816, original version dated 2004, as modified by subsequent supplements thereof, shall apply and be considered a part of this Specification as though it were bound herein. The Standard Specification is available on line at www.ct.gov/dot under "Publications".

9. COMMENCEMENT AND COMPLETION OF THE WORK

- A. The Work shall start upon the Work Start Date as given in the Notice to Proceed or thereafter. The Contractor shall complete all the Work within the number of days specified in the Contract Work Time as stated in the Notice to Proceed and on the Proposal Form.
- B. Time is of the essence with respect to the Contract Work Time. By executing the Contract, the Contractor confirms and agrees that the Contract Work Time is a reasonable number of calendar days to perform the Work and that the work will be completed by the Work End Date. The Contractor may plan to complete the Work in less time than the Contract Work Time.
- C. If the Contractor is delayed at any time in the progress of the Work by acts of God such as fire or flood or any action, injunction or stop order issued by any court, judge or officer of the court or any other court action beyond the DEEP's control, then the Contract Work Time may be increased by Change Order for such reasonable time as demonstrated by the Contractor's schedule and as the Commissioner may determine that such event has delayed the Work. To receive consideration, the Contractor shall submit a request for Change Order in writing, with a full statement of the reasons thereof, within (7) seven days of the occurrence of the delay. In any event, the granting of additional Contract Work Time shall be solely within the discretion of the Commissioner.
- D. Except as otherwise may be provided herein, increases in the Contract Work Time shall be the Contractor's sole remedy for delays outlined in Article #9 subparagraph C. above. No payment or compensation of any kind shall be made to the Contractor for damages because of hindrance in the orderly progress of the Work caused by the causes outlined in Article # 9 subparagraph C. herein.
- E. Any increase in the Contract Work Time shall be by Change Order pursuant to Article # 15 - Change Order/Compensation herein.

10. LIQUIDATED DAMAGES

Time is an essential element of the Contract. It is important that the project be pressed vigorously to completion. The cost to the DEEP of the administration of the Contract, including engineering, inspection and supervision, will also be increased as the time for project completion is lengthened. Therefore for each calendar day that the work shall remain uncompleted after the Contract Work time has expired, the per diem sum of liquidated damages specified in the Supplemental Conditions under Project Specific Conditions paragraph 2.J herein, shall be deducted from any money due the Contractor. Liquidated damages are not a penalty, but are a reasonable estimate of the damages caused by such delay. There will be no bonus or additional funds offered to the Contractor because of the Contractor's decision to complete the project before the end of the Contract Work Time.

The Commissioner has the right to deduct the amount of the liquidated damages assessed against the Contractor from any estimated payment for work performed under the Contract or to recover such sums by process of law.

- A. The Liquidated Damages, provided for in the Bidding Documents, will be assessed against the Contractor for each day beyond the current Work End Date needed for completion of the Work.
- B. The Liquidated Damages or any portion thereof may be waived at the sole discretion of the Commissioner.
- C. No payment by the DEEP, either partial or final, shall be construed to waive the Commissioner's right to seek Liquidated Damages.

11. SHOP DRAWINGS, CATALOG CUTS AND SAMPLES

- A. Shop drawings, catalog cuts and samples shall be submitted in the number of copies and manner as directed by the Technical Specifications and shall show all work and materials in detail. Details on the shop drawings shall be large scale and/or full size.
- B. The Contractor shall review the shop drawings, catalog cuts and samples, stamp with approval and submit them with such promptness and in orderly sequence to the Project Engineer as to cause no delay in the Work. Shop drawings, catalog cuts and samples shall be properly identified as specified for item, material, workmanship (when required), and project. At submission, the Contractor shall inform the Project Engineer, in writing, of any deviation in the shop drawings, catalog cuts and samples from the requirements of the Contract Documents.
- C. The Project Engineer shall review shop drawings, catalog cuts and samples with reasonable promptness but only for conformance with the design concept of the project and with the information given in the Contract Documents.
- D. The Contractor shall make any corrections required by the Project Engineer and shall resubmit the required number of corrected copies of shop drawings, catalog cuts and samples.
- E. The Project Engineer's review and approval of shop drawings, catalog cuts and samples will be general only and shall not relieve the Contractor of responsibility for errors in dimensions, for construction and fit, or for any departure from the Contract requirements unless such departure has received the Commissioner's written approval.
- F. No work governed by shop drawings, catalog cuts or samples shall be fabricated, delivered or installed until final approval by the Commissioner is obtained.

12. SEPARATE CONTRACTS

- A. The Commissioner reserves the right to perform work in connection with the Contract with its own forces, or to let separate contracts relating to the Work site or for work on adjoining sites. In such cases, the Contractor shall afford such parties reasonable opportunity for storage of materials and equipment and for the installation of their work.
- B. Contractors working in the same vicinity shall cooperate with one another and, in case of dispute, the decision of the Commissioner shall be complied with by all contractors involved.

- C. The Contractor shall assume all liability, financial or otherwise, in connection with this Contract and shall protect and hold harmless the DEEP from any and all damages or claims that may arise because of inconvenience or delay which the Contractor may cause other contractors. If the Contractor experiences a loss because of the presence and operations of other contractors working adjacent to or within the limits of the same project, the Contractor shall bear such loss.
- D. In no event shall the DEEP be responsible for any claim or damages that are the result of the Contractor's failure to coordinate the Work with any contractor or subcontractor.

13. USE OF PREMISES, SPECIAL WORKING CONDITIONS

- A. The Contractor shall confine the Contractor's apparatus, storage of materials, supplies, equipment and operations to the areas bounded by the Contract and grading limits, and as directed by the Project Engineer.
- B. Parking for Contractor's employees will be limited to an area designated by the Project Engineer.
- C. Existing walks, driveways and parking areas shall be kept free and clean at all times. Any damage to these areas caused by the Contractors activities shall be repaired to the same or better condition prior to the completion of the work at the site.

14. QUALITY CONTROL

The Contractor shall establish and maintain quality control for all items set forth herein. The Contractor shall record on daily reports any problems in complying with statutes, laws, regulations and ordinances and the corrective actions that were taken.

15. CHANGE ORDERS/COMPENSATION

- A. If such Change Orders make the Work less expensive for the Contractor, the proper deductions shall be made from the applicable Work Items and will reflect in the Final Contract Value, said deductions to be computed in accordance with the provisions listed below in this Article.
- B. The Contractor may request, and the Commissioner may grant, through a change order, additional Contract Work Time when, in the opinion of the Commissioner, the Contractor has demonstrated that such additional work cannot be performed concurrently with the original Work.
- C. The amount of compensation to be paid to the Contractor for any additional or deleted work so ordered shall be determined in one of the following manners:
 - i) By unit prices stated in the Contract Documents.
 - ii) By a lump sum and computed as follows:
 - a) The cost of labor performed and materials and equipment used by the Contractor or the Contractor's subcontractors with their own forces.
 - b) The cost of Worker's Compensation, Federal Social Security and Connecticut Unemployment Compensation at established rates as well as all fringe benefits applying to the particular trades involved.

c) The Contractor's overhead and profit on work performed by the Contractor's own forces and subcontractors' overhead and profit on work performed by their own forces shall not exceed:

Change Order Amount (\$)	Overhead & Profit
0 to 5,000.00	20%
over 5,000.00 to 15,000.00	17%
over 15,000.00 to 25,000.00	15%
over 25,000.00	12%

If the work to be performed results in a credit to the DEEP, no percentage of overhead and profit will apply.

d) On work performed by a subcontractor, the Contractor's mark up for overhead and profit shall not exceed 6%.

e) The Contractor shall, when requested, promptly furnish in a form satisfactory to the Commissioner itemized statements of the cost of work so ordered, including but not limited to certified payrolls and copies of accounts, bills and vouchers to substantiate the above actual costs.

D. If unit prices are not applicable and the parties cannot agree upon a lump sum, the Commissioner may:

i) Order the work done and compensated for in the following manner: by actual cost of the material; wages of applied labor including allowed travel, room and board where applicable, insurance and taxes imposed by law on labor employed on the work; engineering and drafting; rental for equipment (other than tools); as well as all fringe benefits applying to the particular trades involved. The Contractor shall receive the listed overhead and profit as indicated in Article# 15 subparagraph C.ii.c and d herein.

ii) Omit any part of the work ordered and shall adjust the Total Bid Amount in the amount as the Commissioner determines.

E. If the Contractor wishes to make a request for an increase in the Final Contract Value or for any damages sustained as a result of changes in the Work, the Contractor shall give the DEEP, through the Project Engineer, written notice thereof within seven (7) calendar days after the occurrence of the event giving rise to such request. No such request shall be valid unless the notice is in writing. In addition, the Contractor shall file with the DEEP, via Project Engineer, daily or weekly itemized statements of the details and cost of such work performed or damage sustained as may be required by the Commissioner. The Commissioner or designee in their sole discretion may allow or disallow the claim.

16. CONTRACTOR'S INSURANCE

A. The Contractor shall not commence work under this Contract until the Contractor has obtained all insurance required by the Contract Documents and until such insurance has been approved by the Commissioner. The Contractor shall not allow any subcontractors to commence work on their subcontracts until all similar insurance required of the subcontractors has been so obtained and approved or the Contractor's insurance provides coverage on behalf of the subcontractors. Presented below is a narrative summary of the insurance required.

i) Commercial General Liability insurance including contractual liability, products/completed operations, broad form property damage, premises and operations, and independent contractors. The limits shall be no less than \$1,000,000 each occurrence and \$2,000,000 annual aggregate.

- ii) Owner and Contractor's Protective Liability insurance providing a total limit of \$1,000,000 for all damages arising out of bodily injury or death of persons in any one accident or occurrence and for all damages arising out of injury or destruction of property in any one accident or occurrence and subject to a total (aggregate) limit of \$2,000,000 for all damages arising out of bodily injury to or death of persons in all accidents or occurrences and out of injury to or destruction of property during the policy period. This coverage shall be for and in the name of the State of Connecticut.
 - iii) Automobile Liability insurance providing a \$1,000,000 combined single limit per accident per bodily injury. Coverage Extends to owned, hired and non-owned automobiles. In cases where an insurance policy shows an aggregate limit as part of the automobile liability coverage, the aggregate limit must be at least \$2,000,000. This coverage shall be provided on a primary basis. Should the Contractor not own any motor vehicles, the automobile & liability requirement shall be amended to allow the Contractor to maintain only hired and non-owned liability.
 - iv) Excess Liability (other than Umbrella Form) insurance in the amount of \$5,000,000 for bids of \$1,000,001 to \$10,000,000 and in the amount of \$10,000,000 for bids of \$10,000,001 to \$20,000,000.
 - v) Workers' Compensation and Employer's Liability Statutory coverage in compliance with the compensation laws of the State of Connecticut. Coverage shall include Employer's liability with minimum limits of \$100,000 each accident, \$500,000 disease policy limit and \$100,000 disease each employee. When the Work is on or contiguous to navigational bodies of waterways and ways adjoining, the Contractor shall include Federal Act endorsement for U.S. Longshoremen's and Harbor Workers Act.
- B. Each insurance policy required to be maintained by the Contractor, except Workers' Compensation, shall endorse the State of Connecticut as an Additional Insured. Additional Insured endorsements shall provide coverage on a primary basis.
- C. The Contractor's insurer shall have no right of recovery or subrogation against the State.

17. ESTIMATED QUANTITIES

The Estimated Quantities for the Work have been furnished on the Proposal Form and have been used to compute the Total Bid Amount. Within the limits of the Total Bid Amount, Change Orders notwithstanding, the Contractor will be required to complete the work specified herein at the prices submitted in the Proposal, whether it involves quantities greater or lesser than the Estimated Quantities. The Contractor will be compensated only for work actually performed and materials actually used.

18. CORRECTION OF WORK BEFORE FINAL PAYMENT

- A. The Commissioner shall issue written notice to the Contractor of rejected materials that fail to conform to the Contract Documents. Upon receipt of such notice, the Contractor shall promptly, without expense to the DEEP, remove from the work site all such materials whether incorporated into the Work or not.
- B. The Commissioner shall issue written notice to the Contractor of unacceptable Work that fails to conform to the Contract Documents. Upon receipt of such notice, the Contractor shall promptly,

without expense to the DEEP, make good all work including the work of other contractors or subcontractors that was destroyed or damaged during the process of rectifying the unacceptable work.

- C. If the Contractor fails to remove such rejected or unacceptable materials within the time fixed in the notice, the DEEP may remove and store such materials at the expense of the Contractor. The DEEP's removal will not affect the obligation of the Contractor to replace the complete assembly and installation of the Work and to bear the expenses referred to above. Costs incurred by the DEEP for necessary removal and storage will be recovered by the processing of a Change Order reducing the value of the appropriate bid item or by alternative Contract value adjustment method.
- D. If the Commissioner deems it inexpedient or undesirable to correct any portion of the Work not done in accordance with the Contract Documents, the reduction in the final value of the Work will be recovered by the processing of a Change Order reducing the value of the appropriate bid item or by alternative Contract value adjustment method.

19. GUARANTEE AND WARRANTIES: CORRECTION OF WORK AFTER FINAL PAYMENT

- A. The Contractor shall warrant that the equipment, materials and workmanship are of good quality and new, unless permitted elsewhere by the Contract documents, and that the Work shall be free from defects not inherent in the quality required or permitted and that the Work conforms to the Contract Documents. Final payment to the Contractor shall not relieve the Contractor of the responsibility for the defects in materials or workmanship.
- B. Unless expressly provided for otherwise in the Contract Documents, the Contractor shall remedy any defective work appearing within one (1) year from the date of completion and shall pay for any damage to other work caused by such defective work or occasioned in correcting the same.
- C. The Contractor shall supply copies of any written manufactures' warranties or guarantees to the Commissioner.

20. WAGE RATES

- A. In accordance with the provisions of Connecticut General Statutes Section 31-53 the following applies:
"The wages paid on an hourly basis to any mechanic, laborer or workman employed upon the work herein contracted to be done and the amount of payment or contribution paid or payable on behalf of each such employee to any employee welfare fund, as defined in subsection (h) of Section 31-53 of the Connecticut General Statutes, shall be at a rate equal to the rate customary or prevailing for the same work in the same trade or occupation in the town in which such public works project is being constructed. Any contractor who is not obligated by agreement to make payment or contribution on behalf of such employees to any such employee welfare fund shall pay to each employee as part of his wages the amount of payment or contribution for his classification on each pay day."

Pursuant to Connecticut General Statutes Section 31-53 (g) "[t]he provisions of this section shall not apply where the total cost of all work to be performed by all contractors and subcontractors in connection with new construction of any public works project is less than four hundred thousand dollars or where the total cost of all work to be performed by all contractors and subcontractors in connection with any remodeling, refinishing, refurbishing, rehabilitation, alteration or repair of any public works project is less than one hundred thousand dollars."

- B. The Contractor shall provide a certified copy of the payroll for all persons working on the site to the Project Engineer for each pay cycle.

21. POSTING WAGE RATES

The Contractor shall post at conspicuous points on the site of the Work a schedule showing all determined wage rates for all trades and all authorized deductions, if any, from wages to be paid.

22. PREFERENCE IN EMPLOYMENT

- A. Should this Contract be for the construction or repair of any building, then in the employment of labor to perform the Work specified herein, preference shall be given to citizens of the United States, who are, and continuously for at least three (3) months prior to the date hereof have been, residents of the labor market area, as established by the State of Connecticut Labor Commissioner, in which such work is to be done, and if no such qualified person is available, then to citizens who have continuously resided in the county in which the Work is to be performed for at least three (3) months prior to the date hereof, and then to citizens of the State who have continuously resided in the State at least three (3) months prior to the date hereof. In no event shall said provisions be deemed to abrogate or supersede, in any manner, any provision regarding residence requirements contained in a collective bargaining agreement to which the Contractor is a party.
- B. Should the Contract be for a public works project other than for the construction, remodeling or repairing of public buildings covered by Connecticut General Statute Section 31-52 then in the employment of mechanics, laborers or workers to perform the Work specified herein, preference will be given to residents of the State who are, and continuously for at least six (6) months prior to the date hereof have been, residents of this State, and if no such person is available then to residents of other states.
- C. The provisions of this Article shall not apply where the State or any subdivision thereof may suffer the loss of revenue granted or to be granted from any agency or department of the federal government as a result of this Article or regulations related thereto.

23. WORKING CONDITIONS

In prosecuting the work of this Contract, the Contractor shall provide working conditions on each operation that shall be as safe and healthful as the nature of the operation permits. The Contractor shall comply with all safety and sanitary rules, laws and regulations.

24. WORKING HOURS

Unless specifically authorized by the IWRD Department Representative, no work shall be done between the hours of 6:00 p.m. and 7:00 a.m., nor on Saturdays, Sundays or legal holidays, except as necessary for the proper care and protection of the Work already performed. If it becomes necessary (as approved by the Commissioner) to perform work at night, the Project Engineer shall be informed at a reasonable time in advance of the beginning of the performance of such work. Only such work shall be performed at night as can be done in a satisfactory manner and at a level of workmanship in conformance with all requirements of the Contract Documents. Adequate lighting and all other necessary facilities for carrying out and inspecting the work in compliance with all applicable State and Federal health and safety requirements shall be provided and maintained at all locations where such work is being performed.

25. **HOURS OF WORK**

- A. No person shall be employed to work or be permitted to work more than eight (8) hours in any day or more than forty (40) hours in any week on any work provided for in this Contract.
- B. The operation of such limitation of hours of work may be suspended during an emergency, upon the approval of the Commissioner.

26. **MATERIALS: STANDARDS**

- A. Unless otherwise specifically provided for in the Contract Documents, all equipment, materials and articles incorporated in the Work are to be new and of the best grade of their respective kinds for the purposes. Wherever in the Contract Documents a particular brand or make of material, device or equipment is shown or specified, such is to be regarded as the standard. If two or more brands are shown or specified, they are to be regarded as equal.
- B. Any other brand or make of material, device or equipment which, in the opinion of the Commissioner, is the equal in substance and function to that specified, considering finish, workmanship, durability, economy of operation and suitably for the purposes intended, will be accepted.
- C. Prior approval by the Commissioner for the use of other than specified materials, devices or equipment shall be obtained before the Contractor proceeds with the work. The Commissioner's decision in this regard shall be final and binding on the Contractor.
- D. No extension of time will be allowed for the time required for consideration of any article or material proposed as a Substitute by the Contractor; neither will any extension of time be allowed nor any responsibility be assumed by the DEEP when the Contractor submits a request for changes in articles or materials or form of construction from those shown or specified, whether such request be granted or denied.
- E. The Contractor shall purchase no materials or supplies for the Work which is subject to any chattel mortgage or which is under a conditional sale or other agreement by which an interest is retained by the seller. The Contractor warrants that the Contractor has good title to all materials and supplies used in the Work.
- F. Existing materials on site which can be approved for use or re-use for work under this Contract shall be used or reused whenever possible. The actual quantities of existing materials that are used in the work shall be measured and the value of such material shall be negotiated and be factored into the quantities estimates for payment requisitions so that the State receives credit for the value of such materials.

27. **SUBSTITUTE MATERIALS**

The Commissioner and/or Project Engineer reserve the right to reject a proposed Substitute Material. If required, the Contractor must submit data from either the material supplier / manufacturer or a testing laboratory certifying that the proposed material is equivalent to the material specified in the Contact documents. In addition, the Commissioner and/or the Project Engineer may require that such material have been used and approved by the Connecticut Department of Transportation on other projects successfully under similar conditions for up to two (2) years, and the Project Engineer must observe a location of such usage of the material and validate its performance. The Commissioner

reserves the right to withhold payment for any Substitute Material for up to one year while the Substitute Material is confirmed to function as designed.

28. ROYALTIES AND PATENTS

- A. If the Contractor desires to use any design, device, material or process covered by a patent or copyright, the Contractor shall provide for such use by suitable legal agreement with the holder of such patent or copyright. The Contractor shall furnish a copy of this legal agreement to the DEEP.
- B. The Contractor and the Surety shall indemnify and hold harmless the DEEP for any costs, expenses and damage which it may be obligated to pay by reason of any infringement of a patent or a copyright at any time during the prosecution or after the completion of Work.

29. DELIVERY, STORAGE AND HANDLING

All materials and equipment shall be delivered, stored and handled so as to prevent intrusion of foreign matter and any damage by weather or breakage. Packaged materials shall be delivered and stored in original packaging. Packages, materials and equipment showing evidence of damage shall be rejected and replaced at no additional cost to the DEEP.

30. FOREIGN MATERIALS

- A. Preference shall be given to articles or materials manufactured or produced in the United States, conditions of quality and price with duty being equal.
- B. Only domestic articles or materials will be used unless a statement is submitted with the proposal that enumerates the foreign articles or materials proposed to be used and such proposal is accepted by the DEEP. The foregoing provisions shall not apply to foreign articles or materials required by the Contract Documents.

31. CUTTING, FITTING, PATCHING AND DIGGING

- A. The Contractor shall perform, or shall require the subcontractors to perform, all cutting, fitting or patching of the portion(s) of the Work that may be required to make the several parts thereof join and coordinate in a manner satisfactory to the Commissioner and in accordance with the Plans and Specifications.
- B. The primary responsibility for defective or ill-timed work shall be with the Contractor, but such responsibility shall not in any way relieve the subcontractors who performed such work. Except with the consent of the Commissioner, the Contractor will not permit any of the subcontractors to cut or alter the work of any other contractors or their subcontractors.

32. DISPOSAL OF SURPLUS AND UNSUITABLE MATERIAL

The Contractor shall obtain an off-site disposal site, satisfactory to the Commissioner, at the Contractor's own expense for disposal of surplus and unsuitable materials. The Contractor shall obtain any required permits and pay the costs associated with removing and transporting the material.

33. REMOVAL OF REJECTED OR CONDEMNED MATERIALS

The Contractor shall remove from the site of work, without delay, all rejected and condemned materials of any kind brought to or incorporated in the Work. No such rejected or condemned materials shall again be offered for use by the Contractor.

34. CONSTRUCTION EQUIPMENT

- A. The Contractor shall furnish and maintain, at the Contractor's own cost and risk, all the equipment and utilities and fuel necessary for the construction, control of water, and safety of personnel during the execution of the Work of this Contract. This includes providing, installing, and maintaining all the tools, apparatus, appliances, hoists, cranes, coffer dams, sheet piling, scaffolding, runways, ladders, temporary supports and bracing and all similar items necessary for access to the work and safe construction and inspection activities. All such items shall be subject to the approval of the Commissioner as to general stability, type and location, but the responsibility for proper design, strength and safety shall remain with the Contractor. All such items shall comply with OSHA regulations and all other applicable codes, statutes, rules and regulations.
- B. The Contractor shall provide all drains, drainage, ditches and pumping apparatus (including power and attendance for same) that may be necessary to keep all excavations and subgrade work free from water.

35. INSPECTION AND TESTS

- A. The purpose of the inspections and tests will be to assure that the Work is performed in accordance with the Contract documents.
- B. All material and workmanship, if not otherwise designated by the Specification, shall be subject to inspection, examination and test by the DEEP at any and all times during manufacture and/or construction and at any and all places where such manufacture and/or construction is carried on. All tests shall be made at the Contractor's expense, except that laboratory tests will be carried out and paid for by the DEEP, unless they show the Work to be defective. Notice of the time of all tests to be made at the site shall be given to all interested parties.
- C. Without additional cost to the DEEP, the Contractor shall promptly furnish reasonable facilities, labor and materials necessary to coordinate and perform operational tests and checkout of the Work and to make all such testing safe and convenient. Special, full size and performance tests shall be as described in the Specifications.
- D. If, at any time before final acceptance of the Work, the Commissioner considers it necessary or advisable to examine any portion of the Work already completed by removing or tearing out the same, the Contractor shall, upon request, furnish promptly all necessary facilities, labor and materials. If such Work is found to be defective in any material respect, as determined by the DEEP, because of a fault of the Contractor or any of the Contractor's subcontractors, or if any work shall have been covered over without the approval or consent of the Commissioner (whether or not it is found to be defective), the Contractor shall be liable for testing costs and all costs of correction, including removal and/or demolition of the defective work, including labor, material, testing services of required consultants, additional supervision and administrative costs.

36. UTILITIES

- A. The accuracy and completeness of any utility information shown on the Plans is not guaranteed. The Contractor shall investigate the extent and location of utilities and of the possibility of relocation work by the utility companies, and shall plan operations accordingly. No claim for any delays, damage or extra work occasioned thereby will be allowed.
- B. The Contractor shall allow others access to the Work for the purpose of placing, relocating or maintaining utilities, and shall cooperate in every way in the performance of this work.
- C. The Contractor shall notify the utility owners well in advance of the time the Contractor proposes to perform any work which would endanger their installations, and shall cooperate with the utility owners in relocating and/or protecting such installations during construction operations.
- D. No payment will be made to the Contractor for locating, protecting and making arrangements for relocating public utilities or for any delays caused thereby. The Contractor shall include all costs of this work in other scheduled items of the Contract.
- E. The Contractor must contact Call Before You Dig at least two days prior to commencing any excavation on the site (toll free in Connecticut at 1-800-922-4455).

37. SURVEYS, PERMITS AND REGULATIONS

- A. Unless otherwise provided for in the Contract Documents, the Contractor shall furnish all surveys necessary for the execution of the Work. Surveys shall be performed by a licensed land surveyor. The DEEP will furnish the Contractor with one benchmark and necessary survey control, i.e., baseline. The Contractor shall complete the layouts from this data.
- B. The Contractor shall obtain and pay for permits and licenses necessary for the execution of the Work and the use of the completed Work.
- C. The Contractor shall give all notices and comply with all laws, statutes, ordinances, rules and regulations relating to the performance of the Work.
- D. The Contractor shall perform all layout work, field measurements and construction staking as may be required for the satisfactory execution of the Work as shown on the Plans and as specified herein.

38. PROTECTION OF THE WORK, PERSONS AND PROPERTY

- A. The Contractor shall continuously and adequately protect the Work against damage from any cause, shall protect all materials and supplies furnished by the Contractor or subcontractors, whether or not incorporated in the Work, and shall make good any damage, unless it is directly due to errors in the Contract Documents or is caused by agents or employees of the DEEP.
- B. To the extent required by law, public authority or made necessary in order to safeguard the health and welfare of the personnel or occupants of any state institutions, the Contractor shall adequately protect adjacent property and persons, and provide and maintain all facilities, including but not limited to passageways, guard fences, lights, barricades, and other facilities necessary for such protection.
- C. The Contractor shall take all necessary precautions for the safety of employees on the Work and

shall comply with applicable provisions of federal, state, and municipal safety laws and building codes to prevent accidents or injury to persons on, about or adjacent to the Work site.

- D. The Contractor shall erect and properly maintain at all times, as required by the conditions and progress of the Work, all necessary safeguards for the protection of workers and the public, and shall post danger signs warning against the hazards created by such things as protruding nails, well holes, elevator hatchways, scaffolding, window openings, excavations, tripping hazards, stairways and falling materials.
- E. The Contractor shall designate a qualified and responsible on site staff person, whose duty shall be the prevention of accidents. The name and position of the designated person shall be reported to the DEEP at the commencement of the site Work.
- F. At all times the Contractor shall protect excavations, trenches, buildings and all items of the Work from damage by rain, water from melted snow or ice, surface water run off, and subsurface water usual for the vicinity at the time of operations; and provide all pumps and equipment and enclosures to insure such protection.
- G. The Contractor shall construct and maintain all necessary temporary drainage and do all pumping necessary to keep excavations, basements, footings and foundations free of water.
- H. The Contractor shall remove all snow and ice as required for proper protection and execution of the Work.
- I. The Contractor shall install bracing, shoring, sheathing, sheet piling, coffer dams, caissons and any other underground facilities required for safety and proper execution of the Work, and shall remove them when no longer necessary. All such bracing, shoring, cofferdams, etc. shall be designed by an engineer licensed to practice in the State of Connecticut.
- J. During cold weather the Contractor shall protect the Work from damage. If low temperatures make it impossible to continue operations safely in spite of cold weather precautions, the Contractor may cease work, upon the approval of the Commissioner.
- K. The Contractor shall be held responsible for damage to any property or utilities caused by his operations.

39. **WORK IN INCLEMENT WEATHER**

During freezing, stormy and inclement weather no work shall be performed except as can be done satisfactorily and in such manner as to secure first-class construction throughout. In the event that the Contractor must suspend work due to inclement weather conditions, the Contractor shall protect the completed portions of the Work so that no damage will occur.

40. **DUST AND SPILLAGE CONTROL**

- A. The Contractor shall take appropriate measures to control the generation and migration of dust from the Contractor's activities at the site. Water for dust control shall be provided and applied whenever required or as ordered by the Project Engineer or Commissioner.
- B. All vehicles utilized by the Contractor for delivery or removal of materials shall have appropriate covers to prevent spillage of material during transit.

41. **WINTER EROSION CONTROL MEASURES**

Seeding and plantings shall be performed March 15 to June 15 or August 15 to October 15. The Contractor shall submit a Winter Erosion Control Plan to the Project Engineer for approval prior to the start of construction. This plan shall indicate the methods and materials which shall be used during the winter months to prevent erosion, scour and general deterioration of the project and adjacent flora and fauna.

42. **PROPERTY PROTECTION AND RESTORATION**

Any property, including structures, utilities, access roads, driveways, drainage facilities, fences, etc., which is damaged by the Contractor's operations, shall be restored to its original condition at the Contractor's expense.

43. **PROTECTION OF ENVIRONMENTAL RESOURCES**

The environmental resources within the project boundaries and those affected outside the limits of permanent Work under this Contract shall be protected during the entire period of this Contract. The Contractor shall confine activities to areas defined by the Plans and Specifications. Environmental protection shall be as stated in the following subparagraphs:

- A. Prior to any construction, the Contractor shall identify all land resources to be preserved within the Contractor's work area. The Contractor shall not remove, cut, deface, injure or destroy land resources including trees, shrubs, vines, grasses, top soil and land forms without special permission from the Commissioner. No ropes, cables or guys shall be fastened or attached to any trees for anchorage unless specifically authorized by the Project Engineer. Where such special emergency use is permitted, the Contractor shall provide effective protection for land and vegetation resources at all times as defined in the following subparagraphs.
- B. Prior to any construction, the Contractor shall mark the areas that are not required to accomplish the Work to be performed under this Contract. Isolated areas within the general work area which are to be saved and protected shall also be marked or fenced. Monuments and markers shall be protected before construction operations commence. Where construction operations are to be conducted during darkness, the markers shall be visible.
- C. Trees, shrubs, vines, grasses, land forms and other landscape features indicated and defined on the Plans to be preserved shall be clearly identified by marking, fencing or wrapping with boards, or any other approved techniques.
- D. Earthwork brought to final grade shall be finished as indicated and specified. Side slopes and back slopes shall be protected as soon as practicable upon completion of rough grading. All earthwork shall be planned and conducted to minimize the duration of exposure of unprotected soils. Except in instances where the constructed feature obscures borrow areas, quarries and waste material areas, these areas shall not initially be cleared in total. Clearing of such areas shall progress in reasonably sized increments as needed to use the areas developed as approved by the Commissioner.
- E. Runoff from the construction site shall be controlled by the construction of diversion ditches, benches and berms to retard and divert runoff to protected drainage courses, and any measures required by area wide plans approved under Paragraph 208 of the Clean Water Act.

- F. The Contractor shall construct or install all temporary erosion control features as indicated on the Plans. Temporary erosion control measures such as berms, dikes, drains, grassing and mulching shall be maintained until construction of the project is completed.
- G. The Contractor's field offices, staging areas, stockpile storage and temporary buildings shall be placed in areas designated on the submitted Plan. Temporary movement or relocation of the Contractor's facilities shall be made only on approval by the Commissioner.
- H. Borrow areas shall be managed to minimize erosion and to prevent sediment from entering nearby watercourses.
- I. Spoil areas shall be managed and controlled to limit spoil areas and to prevent erosion of soil or sediment from entering nearby watercourses. Spoil areas shall be developed in accordance with the grading plan indicated on the Plans.

44. NONCOMPLIANCE WITH ENVIRONMENTAL LAWS, ETC.

The Commissioner will notify the Contractor in writing of any observed noncompliance with the aforementioned Federal, State or Local laws or regulations and other elements of the Contractor's Environmental Protection Plan. The Contractor shall, after receipt of such notice, inform the Commissioner of proposed corrective action and take such action as may be approved. If the Contractor fails to comply promptly, the Commissioner may issue an order stopping all or part of the work until satisfactory corrective action has been taken. No time extensions shall be granted or costs or damages allowed to the Contractor for any such suspension.

45. CLEAN UP

- A. The Contractor shall, on a daily basis, keep the Work site free from accumulations of waste material or rubbish.
- B. At the completion of the Work, the Contractor shall remove all rubbish from and about the site of the Work. The Contractor shall also remove all temporary structures, tools, scaffolding and surplus materials, supplies and equipment that the Contractor or any subcontractors may have used in the performance of the Work. In case of dispute, the DEEP may remove the rubbish and charge the cost of such removal to the Contractor.

SUPPLEMENTAL CONDITIONS

1. **Definitions:** The terms used herein are as defined in the General Conditions of a Construction Contract.
2. **Project Specific Conditions:**
 - A. **Description of Project:** Repairs to Savin Lake Dam, Lebanon, CT. Project includes replacement of spillway and training walls, installation of a new drawdown structure, installation of sheet piles, riprap erosion protection, embankment repairs, installation of toe drains, and various other repairs.
 - B. **Location of Project:** The Work location is Norwich Avenue, Lebanon at Savin Lake. More specific information can be found on Title Sheet Drawing of the Contract Documents.
 - C. **Contract Work Time:** 365 calendar days.
 - D. **Project Engineer:** Macchi Engineers, LLC, 44 Gillett St., Hartford, CT 06105
 - E. **Temporary Utilities:** Contractor is required to provide temporary electricity and internet connection to the site trailer and for whatever construction needs he may have. In addition, the Contractor shall provide necessary toilet accommodations and drinking water for the workers. Separate toilet facilities are required if women are employed at the site.
 - F. **Access to Site:** The dam can be accessed where shown on the plans.
 - G. **Site Trailer:** The contractor shall provide a trailer on site for the DEEP representative and for the Engineer. The field office shall have ample lighting, a heater, air conditioning and be furnished with a minimum of 1 desk, 1 table with 6 chairs, 1 fire-proofed file cabinet, 1 water cooler with hot and cold water, and 1 copier. Trailer shall have internet access and be equipped with security system.
 - H. **Construction Pictures:** The Contractor shall provide a comprehensive series of construction photographs showing different views of the progress of the work and key elements of construction. Photographs shall be taken with a digital camera acceptable to the DEEP/IWRD, not modified or edited, and at least 100 shall be taken over the course of each month. Photographs shall indicate the subject and date taken of each picture and delivered each month to the Engineer on a disc.
 - I. **Progress Meetings:** Progress meetings will be held weekly at the job site for the purpose of reviewing, scheduling and coordinating the project's progress as well as other construction related matters.
 - J. **Liquated Damage Rate Per Day: \$1300.00**
3. **Commissioner:** For the purposes of this Contract, "Commissioner" means the Commissioner of the Connecticut Department of Energy & Environmental Protection or designee.
4. **Work:** The Contractor shall perform the work in accordance with this contract, including all documents incorporated by reference, and all work required by Change Orders, and/or amendments to the contract.
5. **Documents Incorporated by Reference:** The parties to this contract, as part of the consideration hereof, agree that the following documents are incorporated herein by reference and made a part hereof and available at DEEP:
 - A. **Bid Package** which contains the Invitation to Bid, Instructions to Bidders, Proposal Form, Standard Bid Bond, Statement of Bidder's Qualification, Notice to Bidders, Instructions to Lowest Qualified Bidder, Wage Rates, Contract Compliance Information and Forms, Certificate of Insurance, Performance Bond, Labor and Material Bond, and any Addenda(s) to the Bid Package;

- B. **Technical Specifications** –Project Specifications for Repairs to Savin Lake Dam, Lebanon, CT –
 - C. **Plans** entitled –Repairs to Savin Lake Dam, Lebanon, CT.
 - D. **General Conditions of a Construction Contract:** Work is to be performed in accordance with the General Conditions, which describe the conditions and how and when the work is to be performed.
 - E. **Supplemental Conditions:** The General Conditions are extended and modified by the Supplemental Conditions which include project specific conditions and special requirements applicable to all portions of the Work.
6. **Contract Documents:** The Contract Documents are complementary, and neither party to the Contract shall take advantage of any obvious error or apparent discrepancy in the Contract Documents. The Contractor shall give immediate written notification of any error or discrepancy discovered to the Project Engineer, who shall take the necessary actions to obtain such corrections and interpretations as may be deemed necessary for the completion of the Work in a satisfactory and acceptable manner. Where discrepancies or conflicts occur in the Contract Documents the following order of precedence shall be utilized:
- A. **Addenda to the Plans and Technical Specifications** shall take precedence over previously issued Contract Documents.
 - B. **Specifications** shall take precedence over the Plans.
 - C. **Stated dimensions** shall take precedence over scaled dimensions.
 - D. **Large-scale detail drawings** shall take precedence over small-scale drawings.
 - E. **Schedules** shall take precedence over other data on the Plans.
7. **Compliance with Local, State, and Federal Authority:** The Contractor shall ensure the Project is in full compliance with all Local, State and Federal laws and requirements for permitting or authorizations necessary for the work, including those for Flood Management and the NFIP.
8. **Documents Furnished:** Five (5) copies of the Plans and Specifications will be provided by DEEP to the Contractor. If more are required, the Contractor shall pay the cost of reproduction to the DEEP.
9. **Prior Approvals Needed for Subcontracts, Schedules, Shop Drawings, Plans, etc.:** The Contractor shall obtain written approval from the Project Engineer and the Commissioner for all subcontracting, schedules, shop drawings, supplemental plans, and designs needed for the Construction Activity, prior to undertaking the related work.
10. **Notice to Proceed / Contract Work Time:** Following Contract approval, the Commissioner will issue written notice to the Contractor in the form of a Notice to Proceed, stating the Contract Work Time and establishing the Work Start Date and Work End Date. The Notice to Proceed authorizes the Contractor to proceed with the Work associated with the Contract. The Contractor shall submit the following within one (1) week of receipt of Notice to Proceed:
- A. **Schedule of Values:** A Schedule of Values for the lump sum bid items for use when estimating periodic payments. The sum of the unit cost items and the Schedule of Values items shall equal the Total Bid Amount. The Schedule of Values shall break down the lump sum bid items into measurable quantities with unit costs and must reflect the true costs and be in sufficient detail to be an effective tool for monitoring the progress of the Work. Upon request, the Contractor shall supply to the Commissioner copies of supportive documentation, such as signed contracts or vendor quotations, which documents form the basis of the values assigned to the bid items.

- B. Environmental Protection Plan:** An Environmental Protection Plan for the approval of the Commissioner in accordance with the provisions herein specified. The Environmental Protection Plan shall include but not be limited to the following:
- i. A list of Federal, State and Local laws and regulations concerning environmental protection, pollution control and abatement that are applicable to the Contractor's proposed operations and the requirements imposed by those laws and regulations.
 - ii. Methods for protection of features to be preserved within authorized work areas. The Contractor shall prepare a listing of methods to protect resources needing protection, i.e., trees, shrubs, vines, grasses and groundcover, landscape features, air and water quality, fish and wildlife, soil, historical, archeological and cultural resources.
 - iii. Procedures to be implemented by the Contractor to provide the required environmental protection and to comply with applicable laws and regulations. The Contractor shall set out the procedures to be followed to correct pollution of the environment due to accident, natural causes or failure to follow the procedures set out in accordance with the Environmental Protection Plan.
 - iv. The location of the nearest suitable solid waste disposal area and a permit allowing the Contractor to use those facilities.
 - v. Drawing showing locations of any proposed temporary excavations or embankments for haul roads, stream crossings, material storage areas, structures, sanitary facilities, and stockpiles of excess or spoil materials.
 - vi. Environmental monitoring plans for the job site, including land, water, air and noise monitoring as necessary, and if required by the Project Engineer.
 - vii. Traffic control plan when necessary.
 - viii. Methods of protecting surface and ground water during construction activities.
 - ix. Work area plan showing the proposed activity in each portion of the area and identifying the areas of limited use or nonuse. The plan should include measures for establishing the limits of use areas.
- C. Water Handling / Control Plan:** The Contractor is responsible for all dewatering required to complete the Contract. This includes, but is not limited to pumping, wellpoints, trenches, excavations, water control structures and cofferdams, which may be required to properly complete the Work. Particular attention is called to the fluctuation of water levels due to precipitation. No extra compensation will be allowed due to water level fluctuation. The Contractor shall submit the Water Control Plan via the Project Engineer for the approval of the Commissioner within one (1) week after the Notice to Proceed. See above Item 5. B. Technical Specifications.
- D. Soil Erosion and Sediment Control Plan:** All watercourses shall be protected from sedimentation, both during and after construction. The Contractor shall control erosion and sedimentation problems in accordance with the 2002 Connecticut Guidelines For Soil Erosion and Sediment Control (available at local libraries) or download at http://www.ct.gov/Deep/cwp/view.asp?a=2720&q=325660&deepNav_GID=1654, prepared by The Connecticut Council on Soil and Water Conservation in cooperation with the Connecticut Department of Environmental Protection. The Contractor shall submit a plan showing the proposed Sediment and Erosion Control measures via the Project Engineer for the approval of the Commissioner within one (1) week after the Notice to Proceed.

11. **Certificate of Insurance/Performance Bond/Labor and Material Bond:** Prior to commencement of any Work on the site, the Contractor is required to submit the signed Certificate of Insurance, Performance Bond, and Labor and Material Bond forms; available in Bid Package, see Item 5 A above.
12. **Construction Progress Schedule:**
- A. Within one (1) week after receipt of the Notice to Proceed, and prior to commencement of any Work on site, the Contractor shall prepare a construction progress schedule. The construction progress schedule shall indicate proposed scheduling of the items of Work listed in the Technical Specifications such that the Work is completed by the Work End Date. The schedule shall also indicate the activities of all subcontractors to be utilized and the portions of the Work that they will be performing.
 - B. Within one (1) week after the Notice to Proceed, the Contractor shall initiate meetings with the Project Engineer and the Commissioner to present and evaluate the Construction Progress Schedule. The Contractor shall submit three (3) copies of the agreed upon Construction Progress Schedule to the Commissioner and one copy to the Project Engineer.
 - C. The Contractor shall continually or at least weekly, evaluate the progress of the Work, comparing it to the schedule. If the Work is found to be behind schedule, the Contractor shall within three working days, initiate a meeting with all involved parties to reevaluate and revise the Construction Progress Schedule. Any time the Construction Progress Schedule is revised significantly either by alteration of priority or by Change Order, the Contractor shall submit the revised schedule to the Commissioner and Project Engineer.
13. **Duration of the Project:** All Work shall be performed within the period of calendar days defined in the General Conditions as the Contract Work Time and completed by the Work End Date as stated in the Notice to Proceed.
14. **Address / Contact for Submission of Materials:** For the purposes of this Contract, all correspondence, reports, products and/or change order requests shall be submitted to:

IWRD Department Representative: Dan Biron
Connecticut Department of Environmental Protection
Bureau of Water Management
Inland Water Resources Division
79 Elm Street
Hartford, CT 06106-5127

15. **Subcontracting Coordination:** The Contractor is responsible for and shall control the activities of the Contractor's subcontractors and notify the Commissioner of all proposed subcontractors at least two weeks prior to award. The Commissioner reserves the right to disapprove subcontract awards. The subcontractors shall consult and cooperate with one another. Each subcontractor shall furnish all necessary information to other subcontractors and shall lay-out and install their own work so as to avoid any delays or interference with the work of others by failure to observe the above coordination requirements shall be borne by the Contractor.
16. **Change Orders:** The parties agree that the Commissioner may order changes in the contract work, including changes in quantities and alterations in work or work days, which are necessary for satisfactory completion of the project, without invalidating any provision of the contract, and without providing notice

to the sureties, provided that the Commissioner authorizes the work change on a written Change Order form, and providing that the Commissioner does not exceed the funding limits for the project.

The Contractor shall submit in writing, to the Commissioner via the Project Engineer, all requests for changes in the quantities and alterations in the work including changes in work days, on a Change Order Form (available at DEEP). The request must contain a detailed description of all changes requested, the reasons that the changes are necessary to satisfactorily complete the project, and all costs associated with the proposed changes, including quantities of and unit prices for the work and for any subcontracted work involved.

Failure of the Contractor to negotiate in good faith issues of the time and costs or failure of the Contractor to provide requested documentation within fourteen (14) days, or an alternate time period accepted by the Commissioner, may result in the Commissioner issuing a unilateral Change Order in an amount deemed to be fair and equitable by the Commissioner.

The Commissioner has discretion to approve or disapprove the Contractor's request for a Change Order. If the request is approved, the Commissioner will provide the Contractor with a fully executed Change Order.

Upon receipt of the Change Order, the Contractor shall proceed with the work as provided in the Change Order. Work associated with a Contractor's requested change that begins before the Contractor has received the Commissioner's Change Order shall be at the Contractor's risk, and the Contractor may not be compensated for it. The amount of compensation to be paid to the Contractor for any deleted or additional work authorized by a Change Order shall be in accordance with the methods contained in the General Condition, Article 15 Change Order/Compensation, incorporated by reference.

17. **Corrected Plans and Specifications:** Following completion of the Project, the Contractor shall submit to the Project Engineer one (1) corrected set of Plans and Specifications (Plans, Specifications, Addenda, approved Shop Drawings, Change Orders and other Modification Schedules and Instruction).
18. **Change in the Principal Superintendent:** Any changes in the Principal Superintendent, who was identified on the bidding documents as available to oversee this work, must be requested in writing and approved in writing by the Commissioner. In the event of any unapproved change in the Principal Superintendent, the Contract may be terminated or suspended at the Commissioner's sole discretion.
19. **Periodic Payments:**
 - A. The Contractor may submit periodic payment invoice requests no more than once a month to the Commissioner via the Project Engineer. The partial payment invoice requests shall be subdivided into items that correspond with the bid items in the proposal form and the approved Schedule of Values. Each periodic payment invoice request may include estimates of the value of the work completed to date and for materials suitably stored on the site.
 - B. The Project Engineer shall review the periodic payment invoice requests and documentation for accuracy, completeness, and compliance with the Contract and provide a recommendation to the Commissioner on whether to approve payment. The Project Engineer shall notify the Contractor of any discrepancies and/or problems with the invoice and/or the documentation, and give the Contractor an opportunity correct the invoice and/or submit supporting documentation as agreed upon.
 - C. Upon approval of the periodic payment invoice, the Commissioner shall endeavor to make the payment of a Properly Executed Invoice within forty-five (45) days.

- D. In making such periodic Payments for the Work, the Commissioner shall deduct two and one half percent (2.5%) of the estimated amount of each Partial Payment and retain until the completion of the entire Contract in an acceptable manner. Refer to Connecticut General Statute 49-41b.
20. **Statement of Amounts Due:** With any request for a Periodic Payment, the Commissioner reserves the right to require the Contractor to submit written, verified statements, in a form satisfactory to the Commissioner, showing in detail all amounts then due and unpaid by the Contractor or subcontractors for wages to persons employed by them under the Contract for the performance of the Work at the site, or to other persons for materials, equipment, or supplies delivered at the site.
21. **Department of Energy & Environmental Protection's Right To Withhold Payments:**
- A. The Commissioner may withhold a portion of any Periodic Payment due the Contractor that may, in the judgment of the Commissioner, be necessary:
- i. To assure the payment then due and unpaid to any persons supplying labor or materials for the work.
 - ii. To protect the Commissioner from loss due to defective, unacceptable or non-conforming work not remedied by the Contractor.
 - iii. To protect the Commissioner from loss due to injury to persons or damage to the work or property of other contractors, subcontractors or others caused by the act or neglect of the Contractor or any of the Contractor's subcontractors.
- B. The Commissioner may apply any amount withheld under this Article, as the Commissioner may deem proper. The amount withheld shall be considered a payment to the Contractor.
22. **Final Payment Approval:**
- A. Upon the completion of the work, the Project Engineer and Contractor shall make final measurements of all quantities of unit priced work and shall confirm that all lump sum work has been completed in accordance with the Contract. The Contractor shall submit a final payment requisition with the final amount (including Change Orders) to the Commissioner via Project Engineer. The final payment requisition shall be subdivided into items that correspond with the Work Items in the proposal form and Technical Specifications and shall include documentation of the final quantities and completeness of the Work and shall list all approved Change Orders.
- B. The Project Engineer shall review the final payment invoice and documentation for accuracy, completeness, and compliance with the Contract and provide a recommendation to the Commissioner on whether to approve payment. The Project Engineer shall notify the Contractor of any discrepancies and/or problems with the invoice and/or the documentation, and give the Contractor an opportunity correct the invoice and/or submit supporting documentation as agreed upon.
- C. Upon approval of the final payment invoice, the Commissioner shall endeavor to make the payment of a Properly Executed Invoice within forty-five (45) days.
- D. Upon approval of the final payment requisition, the Commissioner will authorize the Final Payment for the Final Contract Value that includes approved Change Orders and other adjustments. In making such final payment for the Work two and one half percent (2.5%) of the final amount shall be deducted and retained by the Commissioner. The retainage will be held for a period of time as determined by the Commissioner to be necessary to ensure that the Work is satisfactory and that all conditions at the work site are acceptable. Refer to Connecticut General Statute Section 49-41b.
- E. All prior estimates and payments, including those relating to extra or additional work, shall be

subject to correction by this Final Payment.

- F. No payment, final or partial, shall act as a release to the Contractor or the Contractor's Surety from any obligations under this Contract.
23. **Overpayment:** The total of all payments released from the Commissioner shall not exceed the Final Contract Value. The Final Contract Value is based on the final measured and accepted Work Items completed and includes approved Change Orders. Should total payments exceed the Final Contract Value, the overpaid funds must be returned to the Connecticut Department of Energy & Environmental Protection through a check made payable to DEEP within 30 days of written notice of overpayment.
24. **Recording and Documentation of Receipts and Expenditures:** The Contractor shall implement accounting procedures that provide for accurate and timely recording of all expenditures. Controls must be established which are adequate to ensure that expenditures under this Contract are for allowable purposes and that documentation is readily available to verify that such charges are accurate.
25. **Amendment to the Contract:** Formal written amendment of this Contract is required to change the terms and conditions of this Contract and any prior amendments, except for changes in work authorized by Change Orders in a construction contract.
26. **Campaign Contributions:** For all State contracts as defined in P.A. 07-1 having a value in a calendar year of \$50,000 or more or a combination or series of such agreements or contracts having a value of \$100,000 or more, the authorized signatory to this Agreement expressly acknowledges receipt of the State Elections Enforcement Commission's notice advising state contractors of state campaign contribution and solicitation prohibitions, and will inform its principals of the contents of the notice. See attached SEEC Form 11.
27. **Summary of State Ethics Laws:** Pursuant to the requirements of section 1-101qq of the Connecticut General Statutes, the summary of State ethics laws developed by the State Ethics Commission pursuant to section 1-81b of the Connecticut General Statutes is incorporated by reference into and made a part of the Contract as if the summary had been fully set forth in the Contract.
28. **Officials Not to Benefit:** No member of or delegates to the Congress of the United States of America, no resident Commissioner, and no elected or appointed municipal official shall be admitted to any share or part hereof or to any benefit to arise herefrom.
29. **Severability:** The provisions of this Contract are severable. If any part of it is found unenforceable, all other provisions shall remain fully valid and enforceable, unless the unenforceable provision is an essential element of the bargain.
30. **Forum and Choice of Law:** The Contract shall be deemed to have been made in the City of Hartford, State of Connecticut. Both Parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.

31. **Subletting or Assigning Of The Contract:** The Contractor shall not assign any interest in this Contract, and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of the Commissioner thereto: provided, however, that claims for money due or to become due the Contractor from the Commissioner under this Contract may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the Commissioner.
32. **Indemnify / Hold Harmless:** The Contractor shall at all times indemnify and save harmless the State of Connecticut, including the Department of Energy & Environmental Protection, and their respective officers, agents and employees, on account of any and all claims, damages, losses, litigation, expenses, counsel fees and compensation arising out of injuries (including death) sustained by or alleged to have been sustained by the officers, agents and employees of said State or Department, or of the Contractor, the Contractor's subcontractors or suppliers, and from injuries (including death) sustained by or alleged to have been sustained by the public, any or all persons on or near the Work, or by any other person or property, real or personal (including property of said State or Department) caused in whole or in part by the acts, omissions or neglect of the Contractor including but not limited to any neglect in safeguarding the Work or through the use of unacceptable materials in constructing the Work of the Contractor, any subcontractor, supplier or anyone directly employed by them or any of them while engaged in the performance of the Contract, including the entire elapsed time from the date of the Notice to Proceed or the actual commencement of the Work whichever occurs first until its completion as certified by the Department of Energy & Environmental Protection.
33. **Termination:** This agreement shall remain in full force and effect for the entire term of the contract period stated unless terminated by the Commissioner giving the Contractor written notice of such intention at least 30 days in advance. The Commissioner may terminate the Contract whenever the Commissioner determines that such termination is in the best interests of the State. Any such termination shall be effected by delivery to the Contractor of a written Notice of Termination specifying the extent to which performance of Work under the Contract is terminated, and the date upon which such termination shall be effective. The Commissioner reserves the right to recoup any overpayments if the contract is terminated.
- A. In the event of such termination, the Contractor shall be entitled to reasonable compensation as determined by the Commissioner, however, no claim for lost overhead or profits shall be allowed.
 - B. In the event of such termination, the Commissioner may take possession of and use materials and equipment on the site to complete the Work.
 - C. Materials obtained by the Contractor for the Work that have been inspected, tested as required and accepted by the Commissioner, and that are not incorporated into the Work, shall, at the option of the Commissioner, be purchased from the Contractor at actual cost as shown by receipted bills. To this cost shall be added all actual costs for delivery at such points of delivery as may be designated by the Commissioner, as shown by actual cost records.
 - D. Termination of the Contract shall not relieve the Contractor or its Surety of their responsibilities for the completed Work, nor shall it relieve the Contractor's Surety of its obligations to ensure completion of the Work and to pay any legitimate claims arising out of the Work.
34. **Suspension of Work On The Contract:** The Commissioner has the authority to suspend the Work wholly or in part, for such period or periods as the Commissioner considers to be in the best interests of the State, or in the interests of public necessity, convenience or safety. The Work suspension or delay order shall be issued by the Commissioner in writing. The Contractor shall cease operations upon receipt of such order. Work shall not resume until the Contractor receives a written notice from the Commissioner to resume the

Work. During such periods the Contractor shall store all project materials and equipment in such a manner as to prevent them from being in any way damaged, lost or stolen, and the Contractor shall take precautions to protect the Work from damage.

- A. If the Contractor believes that the suspension or delay was for an unreasonable period of time (i.e. not originally anticipated, customary or inherent in the construction industry) and the Contractor believes that additional compensation and/or Contract Work Time is due as a result of such suspension or delay, the Contractor shall submit to the Commissioner, in writing, a request for a Change Order within seven (7) calendar days of receipt of the notice to resume work. The Change Order request shall set forth the specific reasons for adjustments to the Contract Work Time and Final Contract Value. Adjustments to the Final Contract Value may not include profit.
- B. The Commissioner shall evaluate any such Change Order requests received. If the Commissioner agrees (a) that the cost and/or time required for the performance of the Work has increased as a result of such suspension and (b) that the suspension was caused by conditions beyond the control of and not the fault of the Contractor, its suppliers or subcontractors, and was not caused by weather, and that the requested adjustments are fair and correct, then the Commissioner may approve the Change Order.
- C. No Contract adjustment will be made under this Article to the extent that (a) performance would have been suspended or delayed by any other cause within the Contractor's control or by any factor for which the Contractor is responsible under the Contract; or (b) such an adjustment is provided for or excluded under any other term or condition of this Contract.

Application No.: DS-201400723
Town: Lebanon
Waters: Savin Lake & Bartlett Brook
Permit type: Dam Safety
Project: Savin Lake Dam, 7104, Hazard Class B (Significant Hazard)

Dear Mr. Shannon:

The Commissioner of the Department of Energy and Environmental Protection (DEEP) has approved your application to conduct certain regulated activities. Your attention is directed to the conditions of the enclosed permit. You should read your permit carefully. Construction and other work must conform to that which is authorized. Please pay particular attention to items 15 and 16, which states conditions specific to dam safety and additional conditions related to environmental controls for the project site.

If you have not already done so, you should contact your local Planning and Zoning Office and the U. S. Army Corps of Engineers to determine local and federal permit requirements on your project, if any. Write the Corps' New England District, Regulatory Branch, 696 Virginia Road, Concord, MA 01742-2751; <http://www.nae.usace.army.mil/> or call 1-800-343-4789.

Do not file the permit on the municipality's Land Records.

If you have any questions concerning your permit, please contact the Inland Water Resources Division at 860-424-3019.

PERMIT

Permittee: State of Connecticut, Department of Agriculture
165 Capitol Avenue
Hartford, CT 06106

Attention: Lance Shannon

Permit No: DS-201400723

Town: Lebanon

Project: Savin Lake Dam (DEEP ID #7104; Hazard Class B, Significant Hazard)

Waters: Savin Lake & Bartlett Brook

Pursuant to Connecticut General Statutes Section 22a-403, the Commissioner of Energy and Environmental Protection ("Commissioner") hereby grants a permit to the State of Connecticut, Department of Agriculture ("the Permittee") to conduct regulated activities associated with the Savin Lake Dam modification. The purpose of said activities is to repair an existing dam.

AUTHORIZED ACTIVITY

Specifically, the permittee is authorized to do the following: replace the existing 40 foot wide spillway weir with a 80 foot wide concrete spillway weir; re-grade a low area along the west access road; construct a 100 foot wide auxiliary spillway along the east access road; construct a mid-level drawdown structure; install toe drains; widen the dam crest; and establish a uniform dam crest elevation.

The activities proposed will impact Savin Lake & Bartlett Brook.

All activities shall be conducted in accordance with plans entitled: "Repairs to Savin Lake Dam Lebanon, Connecticut" dated January 2014, revised 12-2014, with Drawing No 3 revised 1-2015, submitted as a part of the application.

This authorization constitutes the licenses and approvals required by Section 22a-403 of the Connecticut General Statutes.

This authorization is subject to and does not derogate any present or future property rights or other rights or powers of the State of Connecticut, conveys no property rights in real estate or material nor any exclusive privileges, and is further subject to any and all public and private rights and to any federal, state, or local laws or regulations pertinent to the property or activity affected thereby.

The permittee's failure to comply with the terms and conditions of this permit shall subject the permittee, including the permittee's agents or contractor(s) to enforcement actions and penalties as provided by law.

This authorization is subject to the following conditions:

CONDITIONS:

1. **Expiration.** This permit shall expire on or before three years following the date of issue unless this permit is specifically renewed.
2. **Construction Commencement and Completion.** If construction of any structures or facilities authorized herein is not completed within three years of issuance of this permit or within such other time as may be provided by this permit, or if any activity authorized herein is not commenced within three years of issuance of this permit or within such other time as may be provided by this permit, this permit shall expire three years after issuance or at the end of such time as may be authorized by the Commissioner.
3. **Notification of Project Initiation.**
 - a. The permittee shall notify the Commissioner in writing no less than seven (7) days prior to commencement of permitted activities and no less than seven (7) days following completion of permitted activities.
 - b. The permittee shall, pursuant to Section 22a-377(b)-1(a)(16)C of the Regulations of Connecticut State Agencies, notify the Commissioner and any potentially affected water company in writing at least seven (7) days prior to the lowering of Savin Lake for the purpose of undertaking permitted activities.
 - c. The Department of Energy and Environmental Protection shall be notified at least forty-eight (48) hours prior to drawdown of the impoundment, in accordance with Section 26-138 of the Connecticut General Statutes. Such notification shall be made to the Inland Fisheries Division, 79 Elm Street, Hartford, CT 06106-5127, telephone no. 860-424-3474.
4. **De minimis Alteration.** The permittee may not make any alterations, except de minimis alterations, to any structure, facility, or activity authorized by this permit unless the permittee applies for and receives a modification of this permit. A de minimis alteration means a change in the design, construction or operation authorized under this permit that does not increase environmental impacts or substantively alter the construction of the project as permitted.
5. **Maintenance of Structures.** All structures, facilities, or activities constructed, maintained, or conducted pursuant hereto shall be consistent with the terms and

conditions of this permit, and any structure, facility or activity not specifically authorized by this permit, or exempted pursuant to section 22a-377 of the General Statutes or section 22a-377(b)-1 of the Regulations of Connecticut State Agencies, or otherwise exempt pursuant to other General Statutes, shall constitute a violation hereof which may result in modification, revocation or suspension of this permit or in the institution of other legal proceedings to enforce its terms and conditions.

6. **Accuracy of Documentation.** In issuing this permit, the Commissioner has relied on information provided by the permittee. If such information was false, incomplete, or misleading, this permit may be modified, suspended or revoked and the permittee may be subject to any other remedies or penalties provided by law.
7. **Best Management Practices & Notification of Adverse Impact.** In constructing or maintaining any structure or facility or conducting any activity authorized herein, the permittee shall employ best management practices to control storm water discharges, to prevent erosion and sedimentation, and to otherwise prevent pollution of wetlands and other waters of the State. Best Management Practices include, but are not limited to practices identified in the *Connecticut Guidelines for Soil Erosion and Sediment Control* as revised, *2004 Connecticut Stormwater Quality Manual*, Department of Transportation's *ConnDOT Drainage Manual* as revised, and the Department of Transportation Standard Specifications as revised.

The permittee shall immediately inform the Commissioner of any adverse impact or hazard to the environment which occurs or is likely to occur as the direct result of the construction, maintenance, or conduct of structures, facilities, or activities authorized herein.

Drawdown of Savin Lake shall be limited in extent and duration to that necessary to complete the permitted activities.

8. **Reporting of Violations.** The permittee shall, no later than 48 hours after the permittee learns of a violation of this permit, report same in writing to the Commissioner. Such report shall contain the following information:
 - a. the provision(s) of this permit that has been violated;
 - b. the date and time the violation(s) was first observed and by whom;
 - c. the cause of the violation(s), if known
 - d. if the violation(s) has ceased, the duration of the violation(s) and the exact date(s) and times(s) it was corrected;
 - e. if the violation(s) has not ceased, the anticipated date when it will be corrected;

- f. steps taken and steps planned to prevent a reoccurrence of the violation(s) and the date(s) such steps were implemented or will be implemented;
- g. the signatures of the permittee and of the individual(s) responsible for actually preparing such report, each of whom shall certify said report in accordance with condition 12 of this permit.

- 9. Material Storage in the Floodplain.** The storage of any materials at the site which are buoyant, hazardous, flammable, explosive, soluble, expansive, radioactive, or which could in the event of a flood be injurious to human, animal or plant life, below the elevation of the five-hundred (500) year flood is prohibited. Any other material or equipment stored at the site below said elevation by the permittee or the permittee's contractor must be firmly anchored, restrained or enclosed to prevent flotation. The quantity of fuel stored below such elevation for equipment used at the site shall not exceed the quantity of fuel that is expected to be used by such equipment in one day.
- 10. Permit Transfer.** This permit is not transferable without the prior written consent of the Commissioner.
- 11. Contractor Notification.** The permittee shall give a copy of this permit to the contractor(s) who will be carrying out the activities authorized herein prior to the start of construction and shall receive a written receipt for such copy, signed and dated by such contractor(s). The permittee's contractor(s) shall conduct all operations at the site in full compliance with this permit and, to the extent provided by law, may be held liable for any violation of the terms and conditions of this permit.
- 12. Certification of Documents.** Any document, including but not limited to any notice, which is required to be submitted to the Commissioner under this permit shall be signed by the permittee or a responsible corporate officer of the permittee, a general partner of the permittee, and by the individual or individuals responsible for actually preparing such document, each of whom shall certify in writing as follows:

"I have personally examined and am familiar with the information submitted in this document and all attachments thereto and I certify that based on reasonable investigation, including my inquiry of the individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that a false statement in the submitted information may be punishable as a criminal offense in accordance with Section 22a-6 of the General Statutes, pursuant to Section 53a-157b and in accordance with any other applicable statute."

- 13. Submission of Documents.** Any document or notice required to be submitted to the Commissioner under this permit shall, unless otherwise specified in writing by the Commissioner, be directed to:

Director, Inland Water Resources Division
Department of Energy and Environmental Protection
79 Elm Street
Hartford, CT 06106-5127

The date of submission to the Commissioner of any document required by this permit shall be the date such document is received by the Commissioner. The date of any notice by the Commissioner under this permit, including but not limited to notice of approval or disapproval on any document or other action, shall be the date such notice is personally delivered or the date three days after it is mailed by the Commissioner, whichever is earlier. Except as otherwise specified in this permit, the word "day" means any calendar day. Any document or action which is required by this permit to be submitted or performed by a date which falls on a Saturday, Sunday or legal holiday shall be submitted or performed by the next business day thereafter.

- 14. Rights.** This permit is subject to and does not derogate any rights or powers of the State of Connecticut, conveys no property rights or exclusive privileges, and is subject to all public and private rights and to all applicable federal, state, and local law. In constructing or maintaining any structure or facility or conducting any activity authorized herein, the permittee may not cause pollution, impairment, or destruction of the air, water, or other natural resources of this State. The issuance of this permit shall not create any presumption that this permit should be renewed.

15. Dam Safety Conditions.

- a. This permit and a copy of the approved plans and specifications shall be kept at the project site and made available to the Commissioner at any time during the construction of permitted activities.
- b. Permitted activities shall be performed under the supervision of an engineer who is licensed to practice in the State of Connecticut and who is familiar with dam construction. Said engineer shall, upon completion of the permitted activities, certify to the Commissioner in writing that the permitted activities have been completed according to the approved plans and specifications.
- c. Within thirty (30) days of completion of the permitted activities, permittee shall submit to the Commissioner record drawings depicting the dam construction as completed, including any deviations from the approved plans and specifications. Said drawings shall be prepared and sealed by the engineer who oversaw the

construction. In addition, the permittee shall arrange for submission of an electronic copy of the final record drawings in Adobe Acrobat "pdf" format.

- d. Nothing in this chapter and no order, approval or advice of the Commissioner, shall relieve any owner or operator of {a dam} from his legal duties, obligations and liabilities resulting from such ownership or operation. No action for damages sustained through the partial or total failure of any structure or its maintenance shall be brought or maintained against the state, the Commissioner of Energy and Environmental Protection, or his employees or agents.

16. Additional Conditions

- a. A vegetated buffer shall be maintained between the staging areas and any waterbody or wetlands, the cleared portion shall be surrounded by silt fence and inspected daily to ensure proper function.
- b. Refueling of equipment shall be conducted as far away from wetlands and watercourses as is practicable. The fueling station shall have spill cleanup materials nearby and incorporate an impermeable barrier containment pan / mat system to capture any spills for cleanup.
- c. Savin Lake shall not be drawn down in order to minimize harm to the Eastern Pond Mussel.

1. GENERAL

1.1 This Section of the Specifications is provided to identify those construction activities or other activities which may have a negative effect on the environment, and to prevent or minimize any damage to the environment which might result from such activities, both during and following the completion of this project.

1.2 This Section reinforces those environmental protection requirements which the Contractor is bound to meet under the terms of the Contract, or under Federal or State laws and regulations. If a Contractor fails to comply with environmental provisions of the Contract or law, the Contractor shall be penalized as provided in this Section and as provided elsewhere in this Contract.

2. COMPLIANCE WITH LAWS AND REGULATIONS

2.1 The Contractor shall at all times conduct his operations in conformity with all Federal and State permit requirements concerning water, air, noise pollution and the disposal of contaminated or hazardous materials. Permit requirements include, but are not limited to Federal regulations administered by the US Army Corps of Engineers.

2.2 Appropriate permits shall be required for all activities associated with and incidental to the Contractor's operations including, but not limited to: those on the project site and in all adjacent areas, waste and disposal areas, borrow and gravel banks, storage areas, haul roads, access roads, detours, field offices, and any other temporary staging areas. The Contractor shall be responsible for, and hold the Owner harmless from, any penalties or fines which may be assessed by any authority due to his failure to comply with the terms of all applicable permit requirements.

2.3 Any request by the Contractor for authorization of activities or methods not specifically called for by the contract, plans, or applicable permits issued for the project, must be submitted by the Contractor in writing to the Engineer, and must include a detailed description of the proposed activities or methods, the justification for those activities and supporting documentation showing that the proposed activity or method will not create risks of damage to the environment.

2.4 In case of failure on the part of the Contractor to perform pollution control work as determined by the Engineer, the Engineer may, upon forty-eight (48) hours written notice, arrange for the performance of the work by approved forces and the cost thereof will be deducted from any moneys due or which may become due to the Contractor under the contract or under any other contract.

3. WATER POLLUTION CONTROL

- 3.1 The Contractor shall, throughout the life of the contract, control and abate siltation, sedimentation and pollution of all waters, underground water systems, inland wetlands, and navigable waters of the State. Temporary construction methods proposed by the Contractor shall also conform to all application or permit requirements. The Contractor shall assume responsibility for all obligations and costs incurred under the terms and conditions of such permit applications or permits.
- 3.2 The Contractor shall obtain any permits and pay any fees required for the performance of work which is not included in the original contract or which is to be done outside the project limits by which is proposed in the fulfillment of his contract obligations including, but not limited to, the removal of material from, deposition of material in, obstruction of, construction within, alteration or pollution of, any inland wetland, navigable water, streams, ponds, lakes, water supplies or other water bodies.
- 3.3 The Contractor shall not make any design changes in the contract work which requires a variance from the requirements of the following items until and unless he has first submitted a detailed written proposal for such changes to the Engineer, and then received written approval for the proposed variances.

BEST MANAGEMENT PRACTICES

- A. No construction shall proceed until erosion and sedimentation controls have been installed as the Engineer directs.
- B. Refueling of equipment or machinery within twenty-five (25) feet of any wetland or watercourse shall be allowed only by the direction of the Engineer.
- C. No construction shall proceed until a written proposal of methods to prevent construction debris, paint, spent blast materials, or other materials from entering the wetland or watercourse has been submitted by the Contractor to the Engineer and approved by the Engineer, and such methods have been implemented as the Engineer directs. These materials shall be collected and disposed of in an environmentally safe manner, in accordance with all applicable Federal and State laws and regulations. The Engineer may order the Contractor to cease such activity temporarily if, in the judgment of the Engineer, wind or storm conditions threaten to cause the deposit of materials into a waterway.
- D. No materials resulting from construction activities shall be placed in or contribute to, the degradation of an adjacent wetland or watercourse. Disposal of any material shall be in accordance with Connecticut

DIVISION 1
SECTION 01800
ENVIRONMENTAL
COMPLIANCE

General Statutes, including but not limited to, Sections 22a-207 through 22a-209.

- E. Fording of streams with equipment shall be prohibited, except where approved by the Engineer. Such equipment travel shall be minimized. Where frequent equipment travel on stream banks and beds is necessary, washed stone shall be placed to minimize erosion, scour, and turbidity, provided no significant grade change will occur and no significant environmental impact will result. Approval will be required for any haul road or temporary structure placed in wetlands or watercourses.
- F. All off site disposal locations for material and debris resulting from the progress of the project shall be submitted in writing to the Engineer who shall determine whether or not they are acceptable. The Contractor shall ensure that these locations are outside of designated wetlands or watercourses, unless otherwise approved by Local, State or Federal Agencies.
- G. A construction sequencing plan and a water handling plan including a contingency plan for flood events must be submitted in writing to the Engineer and approved by the Engineer prior to the commencement of any construction in a waterway
- H. When dewatering is necessary, pumps shall not discharge directly into the wetland or watercourse. Prior to dewatering, the Contractor must submit to the Engineer a written proposal for specific methods and devices to be used, and obtain the Engineer's approval of such methods and devices to be used for dewatering activities, including but not limited to, pumping the water into a temporary sedimentation bowl, providing surge protection at the inlet and outlet of pumps, or floating the intake of the pump, or other methods to minimize and retain the suspended solids. If the Engineer determines that the pumping operation is causing turbidity problems, said operations shall cease until such a time as a means of controlling turbidity is submitted by the Contractor and approved by the Engineer and implemented by the Contractor.
- I. Work within and adjacent to watercourses shall be conducted during periods of low flow, whenever possible. The Engineer shall remain aware of flow conditions during the conduct of such work, and shall cause such activity to cease should flow conditions threaten to cause excessive erosion, siltation or turbidity. The Contractor shall make every effort to secure the work site before predicted major storms. A major storm shall be defined as a storm predicted by the NOAA Weather Service with warnings of flooding, severe thunderstorms, or similarly severe weather conditions or effects.

DIVISION 1
SECTION 01800
ENVIRONMENTAL
COMPLIANCE

- J. All temporary fill shall be stabilized during use to prevent erosion and suitability contained to prevent sediment or other particulate matter from reentering a wetland or watercourse. All areas affected by temporary fills must be restored to their original contours or as directed by the Engineer, and re-vegetated. The area extent of temporary fill or excavation shall be confined to that area necessary to perform the work, as approved by the Engineer.
- K. Seeding is to be accomplished within seven (7) days of reaching an appropriate grading increment as determined by the Engineer. If the Engineer anticipates and so notifies the Contractor, or if the Contractor intends that a grading operation will be suspended for a period of thirty (30) or more consecutive days, the Contractor shall, within the first seven (7) days of that suspension period, accomplish seeding, or take such other appropriate measures to stabilize the soil as may be required by the Engineer.
- L. Dumping of oil, chemical or other deleterious materials on the ground is forbidden. The Contractor shall provide a means of catching, retaining, and properly disposing of drained oil, removed oil filters, or other deleterious material. All spills of such materials shall be reported immediately by the Contractor to the Department of Environmental Protection.
- M. No application of herbicides or pesticides within twenty-five (25) feet of any wetland shall take place. Outside these limits, the Contractor may submit to the Engineer a proposed applicator's name and Connecticut license number, and must receive the Engineer's approval of the proposed applicator, before such application is carried out.

3.4 If the Contractor wants to make changes in construction operations or scheduling which would affect the use of, or necessity for, any pollution controls, before beginning to implement these changes he must submit a written proposal detailing them to the Engineer, and must receive the Engineer's approval of those changes. As part of his submission, the contractor must submit a plan showing what erosion and sedimentation controls above and beyond those called for in the plans and specifications would be necessitated by the changes he proposes to make in the sequence or nature of project construction activities and related operations.

3.5 The Contractor shall inspect temporary and permanent erosion and sedimentation controls immediately after each rainfall and at least daily during prolonged rainfall. The Contractor shall maintain all erosion and sedimentation control devices in a functional condition. In the event the Contractor fails to maintain such devices in accordance with these documents, and the Contractor does not correct these failures within forty-eight (48) hours after receipt of written notice of such failures from the Engineer, the Department may proceed

DIVISION 1
SECTION 01800
ENVIRONMENTAL
COMPLIANCE

with approved forces to remedy specified failures and the cost thereof will be deducted from moneys due the Contractor under the contract or under any other contract.

4. AIR QUALITY CONTROL

- 4.1 The Contractor shall exercise every reasonable precaution throughout the life of the contract to safeguard the air resources of the State by controlling or abating air pollution in accordance with the Department of Environmental Protection's regulations. These measures shall include the control and abatement of dust, mist, smoke, vapor, gas, aerosol, other particulate matter, odorous substances or any combination thereof arising from construction operations, hauling, storage, or manufacture of materials.

5. NOISE POLLUTION

- 5.1 The Contractor shall take measures to control the noise intensity caused by his construction operations and equipment including, but not limited to, equipment used for drilling, pile driving, blasting, excavation and hauling.
- 5.2 All methods and devices employed to minimize noise shall be subject to the continuing approval of the Engineer. The maximum allowable level of noise at the nearest residence or occupied building shall be 90 decibels on the "A" weighted scale (dBA). Any operation that exceeds this standard will cease until a different construction methodology is developed to allow the work to proceed within the 90 dBA limit.

6. PROTECTION OF ARCHAEOLOGICAL & PALEONTOLOGICAL REMAINS AND MATERIALS

- 6.1 The Contractor shall be alert to the likelihood that, during the prosecution of the work, archaeological or paleontological remains and materials which may be of significance in recording the historic and prehistoric past, may be uncovered. When archaeological or paleontological remains are uncovered, the Contractor shall immediately halt operations in the discovery location and shall notify the Engineer.
- 6.2 The Contractor shall make every effort to preserve archaeological or paleontological remains intact in their original positions in order to preserve the archaeological or paleontological importance of materials in relation to one another and to the enclosing soil.
- 6.3 The Engineer shall have the authority to suspend the work for the purpose of preserving, documenting and recovering the remains and materials of

archaeological or paleontological importance for the State. The Contractor shall carry out all instructions of the Engineer for the protection of archaeological or paleontological remains including steps to protect the site from vandalism and unauthorized investigations, from accidental damage and from dangers such as heavy rainfall or runoff. The Contractor shall reschedule his work to minimize the loss of time in completing the project while the State evaluates, records and salvages the archaeological or paleontological information and materials

7. CONTAMINATED AND/OR HAZARDOUS MATERIAL

7.1 The Owner will acquire any "Hazardous Waste Generator Permit(s)" required under the Resource Conservation and Recovery Act, for the management and disposal of all contaminated and/or hazardous material known to exist or discovered during construction operations, provided that:

- a) Such material is within the construction limits defined in the contract, and;
- b) Such material is not comprised of waste materials generated by the Contractor.

7.2 In the event that the Contractor encounters or exposes any material, not previously known or suspected to be contaminated, but which exhibits abnormal properties which may indicate the presence of hazardous or contaminated material, the Contractor shall cease all operations in the vicinity of the abnormal condition, and the Engineer shall be notified immediately. The presence of barrels, discolored earth, metal, wood, visible fumes or smoke, abnormal odors or excessively hot earth may indicate the presence of hazardous or contaminated material, and shall be treated with extreme caution. The proper disposition of the material shall be arranged for via separate contract with the assistance of the Contractor.

7.3 Unless otherwise provided for under specific contract item, direct Contractor involvement with hazardous or contaminated materials, other than those associated with contract operations, is neither required nor solicited under this contract.

7.4 When the Contractor performs support work incidental to the removal, treatment or disposal of hazardous or contaminated material, payment will be made at the unit prices for applicable pay items in the contract. When the contract does not include appropriate pay items, payment will be made in accordance with Article 1.04.05 of CDOT Form 816 entitled ~~%~~Extra Work+.

7.5 The Contractor shall faithfully observe all security precautions established pursuant to OSHA 29 CFR 1910.120, including all revisions and amendments,

DIVISION 1
SECTION 01800
ENVIRONMENTAL
COMPLIANCE

and shall not work in any area, known or suspected of containing hazardous or contaminated material without prior written approval of the Engineer.

- 7.6 The Contractor will assume sole responsibility for the proper storage, handling, management and disposal of all regulated materials and wastes associated with the Contractor's operations, including but not limited to, lubricants, antifreeze, engine fluids, paints and solvent. All costs associated with the Contractor's failure to properly manage such materials in accordance with Federal and State regulations, and all remedial and punitive costs incurred by the Owner as a result of such failure, will be borne by the Contractor.

8. METHOD OF MEASUREMENT AND PAYMENT

Pay Item

None

- END OF SECTION -

1. GENERAL

- 1.1 The sequence of construction described in this section of the specification is provided for GENERAL INFORMATION ONLY.
- 1.2 The Contractor is required to prepare and submit his proposed sequence of operations in detail for review by the Engineer prior to performing any construction, except the mobilization items listed below.

2. DESCRIPTION

- 2.1 Mobilization: The following work items are to be completed prior to other earthwork or concrete construction.
- A. Visual delineation of the contract limit lines at the construction areas.
 - B. Setup of staging areas.
 - C. Clearing and grubbing as specified.
 - D. Installation of temporary silt fencing and erosion controls.
 - E. Improvements of access roads and anti-tracking pads.
- 2.2 Phase 1: Drawdown Construction & Eastern Upstream Embankment
- A. The construction of the drawdown chamber, low-level inlet and outlet structures and low-level piping are to be constructed as part of Phase 1 of the project. In addition, the eastern upstream embankment is also to be completed under Phase 1. The completed drawdown can then be used for water control purposes as part of the remaining construction.
 - B. The construction of the drawdown and inlet structure will require a temporary cofferdam. See Section 02150 . Sheet Piles and Section 02180 . Water Control for details.
- 2.3 Phase 2: Spillway, Training Wall & Western Upstream Embankment
- A. The construction of the spillway, training walls, and western upstream embankment are to be constructed as part of Phase 2 of the project.
 - B. The construction of the spillway, training walls, and western upstream embankment will require a temporary cofferdam. Contractor can use pulled sheets from Phase 1 cofferdam for use in constructing Phase 2 cofferdam. See Section 02150 . Sheet Piles and Section 02180 . Water Control for details.

2.4 Other Construction Items

- A. The scheduling of all other construction work is to be determined by the Contractor.
- B. Construction staking shall be done on a continuous basis during the progress of the work to maintain location and grade controls as shown on the plans.

2.5 General Maintenance:

- A. All check dams, sedimentation basins, silting fencing and other erosion control devices shall be maintained and kept in good repair. Sediments shall be removed as directed by the Engineer.
- B. The access roads shall be maintained and kept in good condition for the duration of the project.

3. METHOD OF MEASUREMENT AND PAYMENT

Pay Item

None

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specifications.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 The contractor shall provide a security system for the field office of the DEP's representative. The security system shall include at least the following, to the satisfaction of the Engineer:
- 2.2 Intrusion alarm - This shall consist of sound detection (microphones), or sound activated sensors, or Protective Infra-Red (P.I.R.) devices, or other state-of-the-art intrusion detection devices, or any combination thereof. The alarm system shall also include the following:
- A. Perimeter door and window switches.
 - B. Auxiliary power source to maintain system integrity during a power failure.
 - C. A 24-hour central monitoring station. The monitoring station shall notify local police, Contractor representative and State representative upon activation of alarm.
 - D. Sufficient state-of-the-art security equipment to satisfy the needs of the specified field office used in this project.
 - E. A Contractor provided 100 V.A.C. duplex electrical outlet located in close proximity to and for the use of the security system.
 - F. Adequate telephone service for the security equipment as required by the system manufacturer. This shall include rigid metal conduit where required.
 - G. A very high decibel sounding device shall be installed in the field office and sound when an intrusion occurs.

3. MATERIALS

3.1 The materials for this work shall conform to manufacturer's specifications, be compatible with telephone company equipment, and of sufficient quality to perform the tasks intended for the duration of the field office use on the project.

4. CONSTRUCTION METHODS

4.1 The intrusion alarm shall be installed in conformance with manufacturer's recommendations. The alarm shall be operational for the duration of the field office use. The maintenance of the Construction Field Office Security System shall be the responsibility of the Contractor and shall warrant immediate response and repair should the system be inoperative or in need of repair.

4.2 Failure to respond and repair the inoperative system within twenty-four hours of notification of failure shall result in liquidated damages in the amount of \$150.00 per calendar day for each and every day that the system remains inoperative.

5. METHOD OF MEASUREMENT AND PAYMENT

5.1 Measurement for payment for the installation and use of a Construction Field Office Security System shall include all materials, equipment, labor, maintenance and work included thereto for the cost of installation, any monthly monitoring fees, and the cost of removal at the conclusion of the project. The contractor will be held responsible for any penalties assessed by municipalities or police departments for false alarm responses and will not be reimbursed for any such penalties assessed.

Field Office Security System	L.S.

- END OF SECTION -

DIVISION 2
SECTION 02100
CLEARING AND
GRUBBING

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following description.

2. DESCRIPTION

- 2.1 Complete the clearing and grubbing within the clearing limits as shown on the plans.
- 2.2 Complete the clearing (no grubbing) at the western emergency spillway area to the limits as shown on the plans.
- 2.3 Remove turf and excavate all organic soil within the clearing limits.
- 2.4 Removal and disposal of all wood chips, wood, brush, and stumps from the site.

3. CONSTRUCTION METHODS

- 3.1 This work shall conform to the applicable requirements for Section 2.01 of Form 816 entitled "Clearing and Grubbing".
- 3.2 The Contractor shall flag clearing limits and perform a walk through to review these clearing limits with the Owner and the Owner's representative before any clearing is performed.
- 3.3 Remove all trees including stumps and shrubs within the clearing limits as shown on the plan. In areas of shallow fill, the Engineer may request that individual trees be left and protected.
- 3.4 Remove turf and excavate all organic soil or other unsuitable material as determined by the Engineer. Removed topsoil shall be stockpiled and seeded to establish vegetative cover.
- 3.5 No grubbing shall be done in wetland areas; removal will be of slash only, except at locations disturbed by proposed construction.
- 3.6 Wood chips, wood, brush, and stumps shall be removed from the site.
- 3.7 Topsoil at the site is and will remain the property of the Owner. This topsoil may be re-used for the work specified for this project. However, any excess after

DIVISION 2
SECTION 02100
CLEARING AND
GRUBBING

completion of construction shall be left at the site as directed or approved by the Engineer.

3.8 Other surplus material shall be disposed of by the Contractor at his own expense, in conformance with applicable ordinances of municipalities and regulations of state and local agencies.

3.9 Trees to remain are to be protected from mechanical and other injury during construction. Methods of surface impact protection shall include fencing and/or trunk armoring. Contractor shall also be aware of potential root zone impacts, and limit storage of equipment and materials accordingly.

4. METHOD OF MEASUREMENT AND PAYMENT

4.1 All other work of this section including all clearing and grubbing work, and removal and storage of topsoil will be paid for at the contract lump sum price as indicated below which price shall include all materials, equipment, tools, labor and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Clearing and Grubbing	L.S.
Clearing (No Grubbing)	L.S.

- END OF SECTION -

DIVISION 2
SECTION 02140
EROSION AND
SEDIMENTATION CONTROL

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Install and maintain temporary silt fencing or continuous sedimentation control bales as shown on the plans and as directed by the Engineer, including around stockpiled material where such material is susceptible to erosion.
- 2.2 Install and maintain a stone check dam in the downstream channel as shown on the drawings.
- 2.3 Install and maintain a pump discharge pad for pumping excess water from excavations. Discharge pad shall be constructed as detailed on the drawings.
- 2.4 Establishment of temporary vegetative cover on all disturbed areas if permanent turf establishment can not be provided by October 15.
- 2.5 Furnish and apply water on access roads for the purpose of allaying dust conditions.

3. CONSTRUCTION METHODS

- 3.1 Construction work shall be scheduled or performed by such methods, which will prevent erosion and sediment to flow or reach beyond the contract limit lines for this project. The Contractor shall demonstrate to the Engineer such sedimentation control measures and proposed construction methods which meet these requirements.

- 3.2 This work shall also conform to the applicable requirements of the following Sections of the Standard Specifications (Form 816):

Water Pollution Control	Section 2.10
Sedimentation Control Bales	Section 2.18
Sedimentation Control System	Section 2.19

- 3.3 The silt fencing, sedimentation control bales, check dams and discharge pads are to be maintained, repaired or replaced until they are no longer required.

DIVISION 2
SECTION 02140
EROSION AND
SEDIMENTATION CONTROL

- 3.4 At the conclusion of the project, all sediment and erosion control devices are to be removed.
- 3.5 No pumped water from excavations or other areas shall be pumped into the lake or downstream channel. A temporary pump discharge pad, as shown on the drawings, is to be constructed for this purpose.
- 3.6 Temporary turf establishment shall be perennial ryegrass or other approved mixture.
- 3.7 Contractor shall have watering equipment, consisting of pipelines, tanks, tank trucks, or other devices approved by the Engineer, which are capable of applying a uniform spread of water over the surface of the access road.

4. METHODS OF MEASUREMENT AND PAYMENT

- 4.1 Silt fencing will be measured and paid for by the number of linear feet of silt fencing completed and accepted.
- 4.2 Temporary turf establishment shall be measured and paid for by the number of square yards measured and accepted in the field.
- 4.3 All other items of this section including installation of silt fence around stockpiled material, stone check dams, pump discharge pad, maintenance and/or repairs of the silt fencing, sedimentation basins, dust control, and other miscellaneous items of this section will be measured for payment on a lump sum basis.

<u>Pay Item</u>	<u>Pay Unit</u>
Silt Fencing	L.F.
Temporary Turf Establishment	S.Y.
All other items Section 02140	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Installation of permanent sheet piling for water cutoff as shown on the plans and in accordance with Section 7.13 of Form 816.
- 2.2 Installation of temporary cofferdam for Phase 1 and Phase 2 of the project as shown on the plans and in accordance with Section 7.14 of Form 816.

3. MATERIALS

- 3.1 Permanent sheet piling shall be type PZ 22 and shall conform to ASTM A572, Grade 50. All accessories including splice plates and fabricated corners shall be of type for use with specified sheet piling.
- 3.2 Materials and method of temporary cofferdam shall be determined by the Contractor provided it is properly designed for the purpose intended.

4. SUBMISSIONS

- 4.1 Submit information of proposed driving equipment and a schedule of proposed driving sequence prior to commencing with work.
- 4.2 Contractor shall submit calculations, plan and sequence for the proposed cofferdam stamped by a Connecticut registered engineer.

5. CONSTRUCTION METHODS

- 5.1 All permanent sheet piling shall be driven to elevation as shown on the drawings or as directed by the Engineer.
- 5.2 The steel sheet piling cutoff elevation shall be as shown on the drawings or as directed by the Engineer. All material cut off shall remain the property of the Contractor and shall be disposed by him.

5.3 Phase 2 temporary cofferdam shall have provisions for overtopping during storm events. See Section 02180 . Water Control for details.

6. METHODS OF MEASUREMENT AND PAYMENT

6.1 Permanent sheet piling that will be measured for payment will be the number of square feet of sheet piling whose length and height is measured and accepted by the Engineer. Measurement will only consider actual sheet piling left in place and will not consider cutoff or temporary sheet piling.

6.2 Work for this Section will be paid for at the contract unit price per square foot for ~~Permanent Steel Sheet Piling~~, which price shall include the cost of furnishing, driving, cutting off, splicing, and all incidental expenses including all materials, equipment, tools, and labor incidental thereto.

6.3 Temporary cofferdam and all incidental expenses related to the cofferdam including all materials, equipment, tools, and labor incidental thereto will be paid for at the contract lump sum price for ~~Temporary Cofferdam~~.

<u>Pay Item</u>	<u>Pay Unit</u>
Permanent Steel Sheet Piling	S.F.
Temporary Cofferdam	L.S.

- END OF SECTION -

DIVISION 2
SECTION 02170
DRAINAGE SYSTEM

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Installation of rigid PVC underdrain system with stone drainage blanket material and filter fabric.

3. MATERIALS

- 3.1 The underdrain pipe system, including fittings, risers, and end caps shall be assembled from rigid PVC components. Pipes shall be schedule 40 and conform to ASTM D-1785, couplings and elbows to ASTM D-2466 or D-2467. The underdrain pipe shall be perforated with two (2) sets of 1/2" diameter holes, spaced at a maximum of six inches on center, located on the bottom side of the pipe. Holes to be placed 30° from each side of pipe centerline. Risers shall be solid PVC.
- 3.2 Stone for the underdrain system shall be sound and durable and meet the gradation requirements for 3/4" stone as shown in Section M.01.01 of Form 816.
- 3.3 Filter fabric shall be non-woven or needle-punched geotextile with spun bound continuous filament, having the following qualities:
minimum fabric weight of 3 oz./sy
minimum water flow rate of 60 GPM/sf
minimum grab tensile strength of 90 lbs
minimum puncture resistance of 30 lbs

4. SUBMISSIONS

- 4.1 Submit manufacturer's literature for filter fabric.

5. CONSTRUCTION METHODS

- 5.1 Risers or other inlet ends of the underdrain system shall be plugged.
- 5.2 PVC underdrain pipe shall be installed to the elevations as shown on the plans. The Contractor may find it necessary to adjust the lengths and locations of drain

DIVISION 2
SECTION 02170
DRAINAGE SYSTEM

from those shown on the plans due to field conditions. The Contractor shall first notify the Engineer before making any changes.

- 5.3 Any fitting showing a crack and any fitting or pipe which has received a severe blow that may have caused an incipient fracture, even though no such fracture can be seen, shall be marked as rejected and removed at once from the work.
- 5.4 The installation of pipe and fittings shall be strictly in accordance with the manufacturer's technical data and printed instructions.
- 5.5 Perforated underdrain pipe shall have 6+ of stone filter material placed on all sides of the drain (total width of underdrain 18+) and wrapped completely in filter fabric.
- 5.6 The Contractor shall drive two #6 reinforcement bars, three (3) feet in length, alongside each riser. Bar shall terminate three (3) to six (6) inches below grade.

6. METHODS OF MEASUREMENT AND PAYMENT

- 6.1 Work for this Section will be paid for at the contract unit price per linear foot for %RVC Underdrains and Risers+, which price shall include all incidental expenses including all materials, equipment, tools, and labor incidental thereto. Underdrains and risers will be measured by the actual number of linear feet of drains and risers completed and accepted. Measurements will be taken along the centerline of each unit.
- 6.2 Stone for underdrain system shall not be measured for payment. Cost shall be included in the unit price for %RVC Underdrains and Risers+.
- 6.3 Filter fabric for undrain system shall not be measured for payment. Cost shall be included in the unit price for %RVC Underdrains and Risers+.

<u>Pay Item</u>	<u>Pay Unit</u>
PVC Underdrains and Risers	L.F.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 The sequence of construction described in this section of the specification is provided for general information only. The Contractor is advised that additional work may be required, as special conditions may arise or during storm events, to protect the dam embankments from damage.

2. DESCRIPTION

- 2.1 The work on this project shall be scheduled and performed so as to prevent storm runoff from Savin Lake, the spillway, or the spillway channel to flood or overtop the dam or Norwich Avenue.
- 2.2 The Contractor will not be allowed to lower the water elevation in Savin Lake during construction activities.

3. METHODS OF CONSTRUCTION

- 3.1 During Phase 1 of construction, a cofferdam shall be installed where shown on the plans. The new drawdown system and the upstream embankment on the east end of the dam shall be constructed utilizing the existing spillway for water control.
- 3.2 After the Phase 1 work has been completed, the contractor shall remove the temporary cofferdam and outflows from the lake can be controlled by use of the new gate valve and weir boards in the drawdown structure.
- 3.3 During Phase 2 of construction, a cofferdam shall be installed where shown on the plans. The spillway, training walls and the upstream embankment on the west end of the dam shall be constructed utilizing the new drawdown system for water control.
- 3.4 The Phase 2 cofferdam shall be constructed in such a manner so the top of the cofferdam is at elevation 304.8qin order to allow storm events to overtop the cofferdam and flow through the existing channel. The contractor shall make use of temporary dikes, berms, pumps, and other approved means in order to protect previously completed work. No tools or equipment shall be left unprotected in the spillway and channel area at the end of each day.
- 3.5 The Contractor is to provide pumps, generators, and other equipment that may be necessary to perform excavations and place concrete work in the dry. All

pumped water is to be discharged into a pump discharge pad as shown on the drawings.

- 3.6 All methods of water control subject to approval from the Engineer.
- 3.7 Contractor is to provide a continuous flow of water downstream during all phases of the project. Minimum flow to be 3.5 c.f.s.

4. SUBMISSIONS

- 4.1 The Contractor is required to prepare and submit his proposed methods for water control in detail for review by the Engineer, prior to performing any construction.
- 4.2 Contractor's water control plan shall include details, methods, and equipment of water control for all phases of the project.
- 4.3 A review of the proposed water control measures by the Engineer will not constitute any changes in the Contractor's responsibility for protection of life and property under this contract.

5. METHODS OF MEASUREMENT AND PAYMENT

- 5.1 This work will be paid for at the contract lump sum price for ~~Water Control~~, which price shall include all materials, equipment, tools, labor and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Water Control	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Complete demolition and removal of existing concrete training walls, spillway, and downstream splash pad.
- 2.2 Potential partial demolition and removal of existing core wall as required for installation of new spillway structure, training walls, and drawdown piping.
- 2.3 Removal and disposal of all existing fencing on State property within the limits of construction.
- 2.4 Removal of bituminous pavement from west access road to the limits as shown on the plans.

3. CONSTRUCTION METHODS

- 3.1 All demolition and selective demolition is to be performed in such a manner as to prevent damage to any of the remaining structure. Any such damage is to be repaired by the Contractor at his own expense. Restoration of portions of the structure damaged, removed, or altered by the Contractor in furtherance of his operations shall be restored to the equivalent condition existing prior to the start of work and shall be to the satisfaction of the Engineer.
- 3.2 All removed concrete, piping, fencing, bituminous and other miscellaneous materials that are not to be used for the new construction must be disposed of off-site by the Contractor in an approved manner.
- 3.3 Any removed or excavated stone that is suitable for riprap shall be stockpiled for use elsewhere on the project.
- 3.4 The existence of a core wall through the dam is unknown. There is the potential that during demolition and other work to construct the new spillway and other construction, a core wall is unearthed. In the event that an existing core wall is found during construction, only the portions of the core wall that interfere with new concrete construction shall be removed. Contractor shall perform excavation alongside core wall and the limits of removal will be marked out before demolition begins. Demolition shall be performed in such a manner as to prevent damage to portions of the structure to remain.

4. METHODS OF MEASUREMENT AND PAYMENT

4.1 Item 2.1 indicated as complete demolition or complete removal will be paid for at the contract lump sum price for ~~%~~Mass Demolition+, which price shall include all materials, equipment, tools, labor, and work incidental thereto.

4.2 Item 2.2 indicated as partial demolition will be paid for at the contract unit price per cubic yard for ~~%~~Selective Demolition+, which price shall include all materials, equipment, tools, labor, and work incidental thereto. Selective demolition will be measured by the actual number of cubic yards of core wall removed as measured in place by the Engineer.

4.3 Items 2.3, 2.4 and all other items which fall into this section of the specification will be paid for at the contract lump sum price for ~~%~~All Other Items 02200+, which price shall include all materials, equipment, tools, labor, and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Mass Demolition	L.S.
Selective Demolition	C.Y.
All Other Items 02200	L.S.

- END OF SECTION .

DIVISION 2
SECTION 02250
MAINTENANCE AND
PROTECTION OF TRAFFIC

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Provide all signs, support posts, barricades, warning lights, and other appurtenances required to maintain traffic and access to parking and staging areas as shown on the plans.
- 2.2 Provide all barricades and protective safety fence as required to protect open trenches.
- 2.3 Provide all flagmen as necessary for assistance in truck and delivery traffic in and out of the job site.

3. MATERIALS

- 3.1 All construction signs shall be constructed of aluminum with a minimum thickness of 0.100±. All colors shall be reflectorized and shall conform to State of Connecticut Department of Transportation Form 816 Section 12.20.
- 3.2 Sign supports - Wt./Ft. = 3 LB. and shall conform to Standard Connecticut sign mounting details.

4. CONSTRUCTION METHODS

- 4.1 Contractor shall keep the roadway open to traffic for the full length of the project and shall provide a sufficient number of travel lanes to move that traffic ordinarily using the roadway.
- 4.2 Protect all work from vehicular and pedestrian traffic during all operations.
- 4.3 Contractor shall keep all signs in proper position, clean and legible at all times. Care shall be taken so that weeds, shrubbery, construction materials or equipment, and soil, are not allowed to obscure any sign, light, or barricade. Signs that no longer apply to an existing condition shall be removed or adjusted so that the legend is not visible to approaching traffic.
- 4.4 Contractor will make personnel available as flagmen to assist in the direction of traffic as necessary for the duration of the project. This will include the mobilization and de-mobilization operations as well as delivery vehicles entering and leaving the job site.

DIVISION 2
SECTION 02250
MAINTENANCE AND
PROTECTION OF TRAFFIC

5. METHODS OF MEASUREMENT AND PAYMENT

5.1 Work for this section of the specification will be paid for at the contract lump sum price for ~~M~~aintenance and Protection of Traffic, which price shall include all materials, equipment, tools, labor, and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Maintenance and Protection of Traffic	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans.

2. DESCRIPTION

- 2.1 Removal of topsoil and organic material from the proposed dam embankment and other areas of proposed construction. Stockpile material in an approved manner as specified under other sections of the specification.
- 2.2 Earth excavation as required for the construction of concrete spillway, training walls, drawdown chamber, inlet and outlet structures, drainage system and any other excavation required.
- 2.3 Compaction of the sub-grade and all fill materials.
- 2.4 Cutting and filling on proposed dam embankment to achieve grades as shown on plans. Fill will be accomplished with approved random fill material as specified in this section of the specifications.
- 2.5 Backfill and grading as required at the areas of concrete construction with pervious structural backfill.
- 2.6 Placement of topsoil on all regraded areas at the dam site.
- 2.7 Placement of impervious fill layer at west access road embankment and where directed by Engineer during construction.
- 2.8 Turf establishment at all disturbed areas at the dam site, storage and staging areas.
- 2.9 Processed stone wearing surface along the crest of the dam.
- 2.10 Placement of bedding material for drawdown piping.
- 2.11 Placement and compaction of processed aggregate base and traffic bound gravel wearing surface course for boat launch and parking area.
- 2.12 Placement of boulder barricades where shown on the drawings.
- 2.13 The work specified herein shall conform to the applicable requirements of the following Sections of the Standard Specifications (Form 816), unless noted:

DIVISION 2
SECTION 02300
EARTHWORK

Excavation, Formation of Embankment and Disposal of Surplus Material	Section 2.02
Structure Excavation.	Section 2.03
Trench Excavation.	Section 2.05
Subgrade.	Section 2.09
Subbase.	Section 2.12
Pervious Structure Backfill	Section 2.16
Processed Aggregate Base	Section 3.04
Traffic Bound Gravel Surface.	Section 4.13
Topsoil	Section 9.44
Turf Establishment.	Section 9.50

2.14 For related work, see the following and other Sections of these Specifications:

Clearing and Grubbing	Section 02100
Erosion and Sedimentation Control	Section 02140
Underdrain System	Section 02170
Water Control.	Section 02180
Riprap.	Section 02400

3. MATERIALS

3.1 RANDOM FILL

A. Random fill material for forming the embankment shall conform to the following requirements.

<u>Square mesh Sieve</u>	<u>% Passing by Weight</u>
8"	100%
5"	95%-100%
3/4"	50%-100%
#4	25%-75%

B. The fraction passing the #4 sieve shall have less than 15% (washed sieve) passing the #200 sieve.

C. Excess excavated materials may be used for random fill materials if they conform to the above requirements and are free from organic and other deleterious material.

3.2 STRUCTURAL FILL & PERVIOUS STRUCTURAL BACKFILL

- A. Structural fill material shall be used to replace unsuitable bearing materials. Unsuitable materials consist of organic or other unsatisfactory materials as determined by the Engineer.
- B. Pervious structural backfill shall be used behind concrete training walls to the extent as shown on the drawings.
- C. Structural fill and pervious structural backfill material shall conform to the following requirements.

<u>Square mesh Sieve</u>	<u>% Passing by Weight</u>
3 ½"	100%
¾"	50%-100%
No. 4	25%-100%

Additionally, the fraction passing the No. 4 sieve shall have less than 15% passing the No. 200 sieve.

3.3 PROCESSED STONE

<u>Square mesh Sieve</u>	<u>% Passing by Weight</u>
1 ½"	100%
¾"	45%-80%
¼"	25%-60%
#10	15%-45%
#40	5%-25%
#100	0%-10%

3.4 PROCESSED AGGREGATE BASE

<u>Square mesh Sieve</u>	<u>% Passing by Weight</u>
2 ¼"	100%
2"	95%-100%
¾"	50%-75%
¼"	25%-45%
#40	5%-20%
#100	2%-12%

3.5 TRAFFIC BOUND GRAVEL SURFACE

<u>Square mesh Sieve</u>	<u>% Passing by Weight</u>
1 ½+	100%
¾"	45%-80%
¼"	25%-60%
#10	15%-45%
#40	5%-25%
#100	0%-10%

3.6 IMPERVIOUS FILL MATERIAL

<u>Square mesh Sieve</u>	<u>% Passing by Weight</u>
¾"	100%
#4	90%-100%
#40	65%-90%
#100	50%-75%
#200	35%-50%

Additionally, the impervious fill shall have a maximum permeability of 10^{-5} cm/sec at 95% of its maximum dry density.

3.7 Bedding material for the drawdown pipe shall be bank or crushed gravel meeting the requirements of Section M.02.01 of Form 816.

3.8 Material for topsoil shall conform to the requirements of Section M13.01 of Form 816.

3.9 Boulders for vehicle barriers shall be sound and durable, and average 1 ½ cubic yards in size. On-site stones from the demolition stockpile can be used for vehicle barricades if they are of proper size.

3.10 Seed mixture for turf establishment shall conform to the requirements of Section M.13.04 of Form 816.

4. SUBMISSIONS

4.1 Initial laboratory sieve analysis of off-site random fill material or excess on-site material to be used as random fill.

4.2 Initial laboratory sieve analysis of structural fill and pervious structural backfill material.

4.3 Initial laboratory sieve analysis and 5 gallon sample of processed stone.

DIVISION 2
SECTION 02300
EARTHWORK

- 4.4 Initial laboratory sieve analysis of bedding material for drawdown pipe.
- 4.5 Initial laboratory sieve analysis of processed aggregate base material for parking area.
- 4.6 Initial laboratory sieve analysis and 5 gallon sample of traffic bound gravel surface for parking areas.
- 4.7 Initial laboratory sieve analysis, permeability analysis and 5 gallon sample of impervious fill material.
- 4.8 Sieve analysis for random fill, structural fill, aggregate base material and pervious backfill material shall include optimum moisture content and maximum dry density.
- 4.9 Manufacturer's literature for seed mixture, showing proportion of species, minimum purity, and minimum germination.

5. CONSTRUCTION METHODS

- 5.1 The existing topsoil shall be removed from the dam and stockpiled for use after the construction is completed.
- 5.2 Stockpiled surplus material or topsoil to have silt fence protection to prevent erosion or runoff from contaminating other areas.
- 5.3 All open excavations shall be protected with safety fencing or other suitable means when excavation is left open overnight.
- 5.4 Structures that do not bear on bedrock shall have its subgrade compacted with vibratory equipment. If wet subgrade is encountered, Contractor shall place a minimum of 6" of concrete fill below the underside of the footings or spillway slab. See Specification Section 03300 . Concrete for details.
- 5.5 All random fill, bedding material, structural fill, impervious backfill and subgrade material shall be placed in layers not to exceed 12 inches and shall be compacted with vibratory equipment to 95% of optimum density.
- 5.6 All fill material shall be subjected to nuclear density tests. Tests shall be made at each lift at a maximum of 50 feet on center. All soil testing is to be performed by a certified soil testing laboratory hired by the Contractor to ensure 95% compaction. Engineer may opt to relax frequency of density tests if initial tests yield consistently passing results.
- 5.7 Excavation may reveal areas of unsuitable material. If in the Engineers opinion, material is unsuitable, Contractor shall remove unsuitable material and replace with either random fill material, impervious fill or pervious structural backfill

DIVISION 2
SECTION 02300
EARTHWORK

material, depending on its location. Areas in and around new spillway and drawdown structure to have structural fill, general dam areas to have random fill.

- 5.8 Impervious fill material is to be placed in 18+layer on the upstream embankment along the west access road to the limits as shown on the plan. Fill is to be keyed 12+into existing subgrade material. Fill is to be placed in a minimum of two lifts and compacted to 95% proctor density with sheep~~s~~ foot roller. Impervious layer to be covered with 18+of fill, 12+of which is to be random fill and 6+to be topsoil.
- 5.9 Additional locations of impervious fill material are not shown on the contract drawings. Contractor is to place and compact impervious fill material as and where directed by the Engineer, up to the quantity as shown on the %Project Data Sheet . Bid List+in the Proposal Form of the Specification
- 5.10 Processed aggregate base for parking area shall be applied in accordance with Section 3.04 of Form 816, with the exception that it may be placed in one layer. Existing subbase to be compacted before placing 8+ layer of processed aggregate base. Processed aggregate base to be compacted to 90% of proctor density.
- 5.11 Traffic bound gravel surface for parking area and processed stone for pedestrian path and access drives shall be placed in a 6+layer.
- 5.12 Walls may be backfilled to half height after the concrete has been in place for min. 48 hours. Additional backfill shall not be placed until the concrete has been in place for min. 5 days, unless otherwise approved by the Engineer.
- 5.13 Vehicular boulder barricade to be spaced such that the maximum clear opening is less than 4 feet. Each boulder is to be set into finish grade a minimum of 6 inches.
- 5.14 After final grading, topsoil shall be placed to the depth as shown on drawings. After placement, all stones, roots, debris, sod, weeds, and other undesirable material shall be removed. The contractor shall perform such work as required to provide a friable surface for seed germination.
- 5.15 Final seeding shall take place during the growing seasons specified in Section 9.50 of Form 816. Seed shall be applied at the minimum rate of 100 lbs./acre; however, contractor is responsible for complete and uniform seed coverage. Re-seeding or fertilizing may be required for a period of up to 1-year in order to provide a minimum coverage of 100 plants per square foot. All seed shall be covered with an approved mulch material as specified in Form 816.

6. METHOD OF MEASUREMENT AND PAYMENT

- 6.1 Pay items from this section of the specification whose pay unit is based on a linear measurement will be paid according to the number of feet, square feet, square yards, or cubic yards of material as accepted and measured in the field.
- 6.2 Pay items from this section of the specification whose pay unit is based on weight will be paid according to approved delivery weight slips prepared by the supplier, as determined by the Engineer.
- 6.3 Removal of unsuitable materials and replacement with approve fill material shall be paid for according to the total number of cubic yards of material removed as measured in the field by the Engineer.
- 6.4 Bedding material for use under the ductile iron drawdown pipe will not be measured for payment under this Section of the Specification, see Section 02700.
- 6.5 Random fill and Pervious & Structural Backfill will be paid for at the contract lump sum price for the specific item as listed below.
- 6.6 All other items of this section not specifically indicated under %~~R~~ay Item+below will be paid for at the contract lump sum price for %~~A~~ll Other Items . 02300+
- 6.7 The work specified in this Section of the Specification will be paid for on the following basis which price shall include all materials, equipment, tools, labor, and work incidental thereto. Items of fill material requiring compaction testing shall include cost of testing in the unit price of the work.

<u>Pay Item</u>	<u>Pay Unit</u>
Topsoil	S.Y.
Turf Establishment	S.Y.
Processed Stone	Ton
Processed Aggregate Base	Ton
Traffic Bound Gravel Surface	Ton
Boulder Vehicle Barrier	L.F.

Impervious Fill Material	C.Y.
Pervious & Structural Backfill	L.S.
Excavation & Replacement of Unsuitable Material	C.Y.
All other items, Section 02300	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 DOT standard riprap installation, over stone base and filter fabric, for upstream slope protection to the extents as shown on the drawings.
- 2.2 DOT standard riprap installation along downstream concrete training walls.
- 2.3 DOT modified riprap installation at underdrain outlets.
- 2.4 DOT modified riprap installation to fill large voids in upstream riprap.
- 2.5 DOT modified riprap installation for overtopping protect along east access road to the extents as shown on the drawings.

3. MATERIALS

- 3.1 Filter fabric: Non-woven or needle-punched geotextile with spun bound continuous filament having the following qualities:
minimum fabric weight of 3 oz./sy
minimum water flow rate of 60 GPM/sf
minimum grab tensile strength of 90 lbs
minimum puncture resistance of 30 lbs
- 3.2 Bedding material for standard riprap shall be $\frac{3}{4}$ +stone as per the gradation table shown in Section M.01 of Form 816.
- 3.3 Standard riprap: Standard riprap as per section 7.03 of Form 816 and conforming to the requirements of M.12.02-1.
- 3.4 Modified riprap: Modified riprap as per Section 7.03 of Form 816 and conforming to the requirements of M.12.02-3.
- 3.5 Excess stones from the demolition stockpile may be used for riprap applications if it conforms to the gradation size for each use and is substantially clean and free of mortar or concrete.

DIVISION 2
SECTION 02400
RIPRAP

4. SUBMISSIONS

4.1 Product information for filter fabric.

5. CONSTRUCTION METHODS

5.1 Install filter fabric on prepared subgrade with a minimum 1'-6" lap. Overlap in the direction of flow. Hold fabric in place with staples or pegs as required to prevent shifting of the fabric.

5.2 A 6" bedding layer of ¾+stone is to be used on top of the filter fabric before the standard riprap is placed. Filter fabric end shall be lapped over the bedding material as shown on the plans.

5.3 Standard riprap is to be placed in a thickness as shown on the drawings. Rearranging of individual stones by hand placement may be necessary to provide a well-graded and uniform appearance without large voids or other defects.

5.4 Standard riprap is to be placed in the downstream channel alongside each concrete retaining wall to prevent scour of the concrete under normal flows. Riprap is to be placed on grade in minimum of 30+layers to the finished grades as shown on the drawings. Riprap is to be slushed with concrete. See Section 03300 for plain concrete for riprap.

5.5 Modified riprap is to be hand placed to fill large voids in upstream riprap.

5.6 Modified riprap at underdrain outlets is to be placed in a minimum of 12" in thickness, unless depth is specified on plans. Rearranging of individual stones by hand placement may be necessary to provide a well-graded and uniform appearance without large voids or other defects.

5.7 Modified riprap for overtopping protection is to be placed in a minimum of 12+in thickness. Rearranging of individual stones by hand placement may be necessary to provide a well-grade and uniform appearance without large voids or other defects. Overtopping area to riprap to be slushed with concrete. Concrete thickness at access road to be level with top of riprap to provide a smooth travel surface. Concrete thickness at remaining areas to be approximately ½ thickness of riprap.

5.8 Removed materials from existing demolition stockpile may be used for riprap if it is clean, free of concrete or mortar, of uniform size, and of approximately the same gradation as the proposed riprap.

6. METHOD OF MEASUREMENT AND PAYMENT

- 6.1 The quantity of filter fabric measured for payment will be the actual number of square yards of fabric installed and accepted. Overlaps will not be measured for payment.
- 6.2 The quantity of $\frac{3}{4}$ +stone bedding material measured for payment will be based on approved delivery weight slips prepared by the stone supplier, as determined by the Engineer.
- 6.3 The quantity of standard riprap measured for payment will be the number of cubic yards, whose length and width is measured in place as accepted, and the thickness as shown on the plans. Concrete used to slush voids in riprap will be paid under Section 03300 . %Concrete+
- 6.4 The quantity of modified riprap measured for payment will be based on approved delivery weight slips prepared by the stone supplier, as determined by the Engineer. If appropriate on-site material is used for modified riprap, the riprap will be measured in place and be paid based on a weight of 1.5 tons per cubic yard.

- END OF SECTION -

DIVISION 2
SECTION 02500
SITE ACCESS &
PROTECTION

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Construction of a temporary access road for work at the crest and upstream side of the dam as required.
- 2.2 Construction and maintenance of an anti-tracking pad at each entrance of the access road as detailed on the Contract Drawings.
- 2.3 Installation of temporary construction gate consisting of concrete blocks or other suitable methods to prevent access of unauthorized vehicles at each entrance during non-working hours.
- 2.4 Construction of a temporary staging area for the storage of equipment and materials.
- 2.5 Installation of temporary crushed stone parking area near trailer location for visitor parking.
- 2.6 Installation of construction safety fencing around project limits.
- 2.7 Removal of temporary access roads, anti-tracking pads, staging areas and temporary gates at conclusion of project.

3. MATERIALS

- 3.1 Anti-tracking pads are constructed of filter fabric and 1-1/2" stone. Requirements for 1-1/2" stone can be found under section M.01 of Form 816.
- 3.2 Filter fabric shall be needle-punched geotextile with spun bound continuous filament having the following qualities:
minimum fabric weight of 16 oz./sy
minimum grab tensile strength of 425 lbs
minimum puncture resistance of 195 lbs

DIVISION 2
SECTION 02500
SITE ACCESS &
PROTECTION

3.3 Crushed stone for temporary visitor parking area shall meet the requirements of grading ~~C~~ as specified in Section M.02.06 of Form 816.

3.4 Construction safety fencing shall be 4 feet high ~~S~~ Safety Barricade+ fencing, model UX4050 as manufactured by Tensar Corporation, Morrow, GA, or approved equal.

4. CONSTRUCTION METHODS

4.1 Anti-tracking pads are to be cleaned or replenished as necessary to prevent tracking on to Town or State roads. At the conclusion of the project, the anti-tracking pads are to be removed from the project and the areas regarded as shown on the plans.

4.2 After removal of the anti-tracking pads, the contractor shall be responsible for repairing any damage caused to town roads, bituminous curbing, or metal beam rail at his own expenses.

4.3 The access roads are for the contractor's construction purposes. It shall be constructed for the passage of concrete trucks and other construction equipment. Contractor shall construct, maintain, or up-grade access road as necessary to ensure prompt and convenient delivery of concrete, and to limit dust, erosion, or surface runoff.

4.4 Construction barricades shall be provided at each access entrance. Gate or chain to be equipped with padlock to prevent unauthorized vehicle access after working hours. In addition, contractor shall provide safety fencing or other approved means where shown on the drawings to prevent pedestrian and other traffic from entering project site from Norwich Avenue.

4.5 Staging area to be properly graded and be well maintained and kept free of garbage and other debris. Staging area to have an area near road kept free of equipment and materials for incoming delivery vehicles. Area to be large enough for trucks to turn around to prevent backing into street traffic.

4.6 Crushed stone visitor's parking area to be kept well maintained and up-graded as required. Area is not to be used for parking by Contractor or his employees.

4.7 Construction fencing to be installed around construction limits. Fencing is not required in areas where silt fencing is to be installed or where there is existing fencing. Fencing is to be kept in good condition throughout the project and is to be upgraded or replaced as necessary. Fencing is to be removed at the conclusion of the project.

5. METHOD OF MEASUREMENT AND PAYMENT

- 5.1 The placement of topsoil and seeding of the staging area at the conclusion of the project will be measured for payment under Section 02300 . Earthwork.
- 5.2 The installation, upkeep and removal of the safety fencing will be paid for by the number of linear feet of fencing installed and accepted by the Engineer. Contractor will not receive additional payment for fencing that needs to be replaced due to use or because of damage.
- 5.3 Payment for all other items specified in this section of the specification will be paid for at the contract lump sum price for ~~%~~All other items, Section 02500+, which price shall include all earthwork, materials for anti-tracking pad, temporary construction gates, staging area, crushed stone parking area at job trailer, any other materials, equipment, tools, labor and work incidental thereto, as follows:

<u>Pay Item</u>	<u>Pay Unit</u>
Construction Safety Fencing	L.F.
All other items, Section 02500	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specifications.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Provide and install a 5'-0" high PVC coated, wall-mounted, chain link fence on the retaining walls along both sides of the spillway as shown on the plans and as specified herein.
- 2.2 Provide and install a 4q0+high PVC coated, wall-mounted, chain link fence on the drawdown as shown on the plans and as specified herein.
- 2.3 Provide and install a 4q0+high X 3q0+wide PVC coated, chain link swing gate at the drawdown chamber as shown on the plans and as specified herein.
- 2.4 Provide and install a 4q0+high PVC coated, wall-mounted, chain link fence on the outlet structure as shown on the plans and as specified herein.
- 2.5 Provide and install a 4q0+high, PVC coated, chain link fence at the east end of the dam where shown on the plans and as specified herein.

3. MATERIALS

- 3.1 The polyvinyl chloride coated chain link fence material shall conform to section M.10.05.1 of Form 816. The color of the coating shall be black.
- 3.2 Posts, rails and caps shall be hot dipped galvanized as per Section M.10.05.2 of Form 816. Outside galvanized surface shall be coated with the same polyvinyl chloride coating as the chain link mesh material.
- 3.4 Posts: Schedule 40, 2.50" O.D.
Top Rail: Schedule 40, 1.625" O.D.
Tension wires along bottom of fence: M.10.05.4 of Form 816.

4. SUBMISSIONS

- 4.1 Materials certificate for the materials specified in this Section.

4.2 If contractor opts for side mounted chain link fencing as described in Section 5.2 below, submit details of side mounted fasteners.

5. CONSTRUCTION METHODS

5.1 Wall Mounted Chain Link Fencing:

- A. All wall mounted chain link fencing shall have posts spaced in line of fence not further than 8 feet on centers or to spacing as shown on plans.
- B. All wall mounted chain link fence to be surface mounted to top of wall with brackets as shown on the plans, or alternatively at the Contractor's option, can be side mounted.

5.2 Chain Link Fencing (non-wall mounted):

- A. Chain link fencing shall have posts spaced in line of fence not further than 10 feet on centers.
- B. Posts shall be set in concrete. Concrete footings shall conform to section 9.13.03 of Form 816.

5.3 General:

- A. Post caps shall be fastened with two stainless steel set screws spaced 180° apart.
- B. Chain link fencing shall be equipped with gates where shown on the plans. Gate shall have a latching type hasp, capable of receiving a padlock.

6. METHOD OF MEASUREMENT AND PAYMENT

6.1 Payment for items specified in this section of the specification will be paid for at the contract unit prices, complete in place, which price shall include all materials, labor, tools and equipment incidental thereto, as follows:

<u>Pay Item</u>	<u>Pay Unit</u>
5q0+Wall Mounted PVC Chain Link Fence	L.F.
4q0+Wall Mounted PVC Chain Link Fence	L.F.
4q0+PVC Chain Link Fence	L.F.
4qhigh x 3q0+Gate	Ea.

DIVISION 2
SECTION 02600
CHAIN LINK FENCE

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specifications.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plan, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 New ductile iron inlet and outlet pipe at the drawdown structure.

3. MATERIALS

- 3.1 Ductile iron pipe at drawdown chamber shall be 30+ diameter, conforming to AWWA C-151, with double thickness cement lining and seal coat as per AWWA C-104.
- A. Upstream pipe joints can be of the gasketed, push-on type.
- B. Downstream pipe joints shall be Series 1100 MegaLug+mechanical joint restraint or approve equal.

4. SUBMITTALS

- 4.1 Submit manufacturers' descriptive literature for all items proposed to be furnished and installed under this Section.
- 4.2 Submit manufacturer's specifications and other data required demonstrating compliance with the specified requirements.
- 4.3 Manufacturers' recommended installation procedures which, when accepted by the Engineer, shall become the basis for inspecting and accepting (or rejecting) the actual installation procedures used on this work.

5. CONSTRUCTION METHODS

- 5.1 Storage and handling:
- A. Protect pipes, fittings, and seals from dirt and damage.
- 5.2 Excavation:
- A. Excavate all pits and trenches to the proper depths and elevations.

- B. The bottom of all trenches shall be graded to a uniform firm bearing for the pipe throughout its entire length.
- C. All required shoring shall comply with OSHA regulations.

5.3 Piping:

- A. Lay pipes to proper elevations as indicated on drawings.
- B. Lay pipes by proceeding upgrade with the spigot ends of bell-and-spigot pipe. Lay the tongue ends of tongue-and-groove pipe pointing in the direction of flow.
- C. Bell and plain ends shall be thoroughly cleaned before installation. Plain end shall be beveled. Sharp edges, which may damage gasket, shall be filed before installation. Lubricant complying with manufacturer's recommendations should be used on the gasket and beveled end.
- D. All joints in ductile iron drawdown piping occurring upstream of the drawdown chamber shall have a concrete cutoff as detailed on the drawings.
- E. Concrete cutoff shall be placed at joints of all concrete bends or change of direction. Cutoff shall be as detailed on drawings.
- F. Follow all manufacturer's instructions and recommendations for the installation of the mechanical joint restraints.

5.4 There is the possibility that downstream piping may require penetration through an existing core wall. If core wall is found, perform minimal amount of demolition required for installation of piping. After installation of piping, construct concrete cutoff wall immediately upstream of core wall per detail on drawings. Backfill with impervious fill material.

5.5 Backfill and compact all trenches as specified in Section 02300.

5.6 Contractor will insure that at all times the safety ribbons or barricades are erected around the outside of all open trenches when an excavation is left open overnight.

6.0 METHOD OF MEASUREMENT AND PAYMENT

6.1 Concrete cutoffs at upstream joints of ductile iron piping will be measured for payment under Section 03300 . ~~%Cast-in-place Concrete+~~

6.2 All work associated with the installation of the ductile iron drawdown piping, including the mechanical joint restraints and the bedding material as specified elsewhere, shall be included in the contract unit price for ~~%Ductile Iron Piping+~~

6.3 Payment for items specified in this section of the specification will be paid for at the contract unit prices for items complete in place, which price shall include all materials, equipment, tools, labor and work incidental thereto, as follows:

<u>Pay Item</u>	<u>Pay Unit</u>
Ductile Iron Piping	L.F.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specifications.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans.

2. DESCRIPTION

- 2.1 Furnish and install trees and plants for mitigation in the downstream wetland areas as shown on the plans or specified herein.
- 2.2 Provide prepared topsoil, mulch, and fertilizer.
- 2.3 Provide maintenance service of the trees and plants as indicated herein.
- 2.4 The work specified herein shall conform to the applicable requirements of the following Sections of the Standard Specifications (Form 816), unless noted:
Topsoil Section 9.44
Furnishing, Planting, and Mulching Trees. Section 9.49

3. MATERIALS

- 3.1 Trees and plants:
 - A. Species and size identifiable in plant schedule, grown in climatic conditions similar to those in locality of the work.
- 3.2 Soil Amendment Materials:
 - A. Prepared Topsoil: Topsoil as specified in Section 02921 in the following mix: 1 part peat moss, 1 part aged pine bark, 2 parts topsoil.
 - B. Fertilizer: FS O-F-241, Type I, Grade B; with fifty percent of the elements derived from organic sources; of proportion necessary to eliminate any deficiencies of topsoil to the following proportions: Nitrogen 33 percent, phosphoric acid 33 percent, soluble potash 33 percent.
 - C. Peat Moss: Shredded, loose, sphagnum moss; free of lumps, roots, inorganic material or acidic materials; minimum of 85 percent organic material measured by oven dry weight, 4 to 5 pH range; moisture content of 30 percent.
 - D. Bone Meal: Raw, finely ground, commercial grade, minimum of 3 percent nitrogen and 20 percent phosphorous.

- E. Lime: Ground limestone, dolomite type, minimum 95 percent carbonates.
 - F. Water: Clean, fresh and free of substances or matter, which could inhibit vigorous growth of plants.
- 3.3 Mulch Materials: Pine bark shredded and free of growth or germination inhibiting ingredients.
- 3.4 Accessories:
- A. Wrapping Material: Burlap.
 - B. Stakes: Softwood lumber, pointed end.
 - C. Cable, Wire, Eye Bolts and Turnbuckles: Non-corrosive, of sufficient strength to withstand wind pressure and resultant movement of plant life.
 - D. Plant Protectors: Rubber sleeves over cable to protect plant stems, trunks, and branches.

4. SUBMISSIONS

- 4.1 Submit name, address, phone number and contact person for all plant material suppliers.
- 4.2 Submit list of plants to be supplied by each supplier, including species, size and number.
- 4.3 Submit instructions for continuing Owner maintenance, include cutting and trimming methods and types, application frequency, and recommended coverage of fertilizer.
- 4.4 Provide a warranty on work of this section for a minimum of one year including one continuous growing season. Commence warranty on date identified in Certificate of Substantial Completion. Warranty shall include coverage of plants from death or unhealthy conditions. Replacements plants shall be of same size and species as specified, planted in the next growing season, with a new warranty commencing on date of replacement.

5. CONSTRUCTION METHODS

- 5.1 Delivery, Storage, and Handling:
- A. Deliver, properly store, and protect all plants until planted.
 - B. Deliver fertilizer in waterproof bags showing weight, chemical analysis, and name of manufacturer.

- C. Deliver plant life materials immediately prior to placement. Keep plants moist.

5.2 Examination

- A. Verify that prepared subsoil is ready to receive work.
- B. Saturate soil with water to test drainage.
- C. Do not install plant life when ambient temperatures may drop below 35 degrees F or above 90 degrees F.
- D. Do not install plants when wind velocity exceeds 30 mph.

5.3 Fertilizing, Lime and Bone Meal:

- A. Apply fertilizer in accordance with manufacturer's instruction.
- B. Apply lime and bone meal as required for specific plant species and planting season.
- C. Apply after initial raking of topsoil.
- D. Mix thoroughly into upper 2 inches of topsoil.
- E. Lightly water to aid the dissipation of fertilizer, lime, and bone meal.
- F. Comply with regulatory requirements for fertilizer and herbicide composition

5.4 Planting:

- A. Place plants for best appearance for review and final orientation by Engineer.
- B. Set plants vertical.
- C. Remove non-biodegradable root containers.
- D. Set plants in pits or beds, partly filled with prepared topsoil mixture. Loosen burlap, ropes, and wires, from the root ball.
- E. Place bare root plant materials so roots lay in a natural position. Backfill soil mixture in 6 inch layers. Maintain plant materials in vertical position.
- F. Saturate soil with water when the pit or bed is half full of top soil and again when full.

- G. Plants will be rejected when ball of earth surrounding roots has been disturbed or damaged prior to or during planting.
- H. Place mulch in minimum 3 inch layer around plants.
- I. In general, trees are not to be staked unless otherwise directed by the Owner's Representative.

5.5 Maintenance Service:

- A. Maintenance Services to be performed by installer.
- B. Maintain plant life immediately after placement until plants are well established and exhibit a vigorous growing condition. Continue maintenance until termination of warranty period.
- C. Maintenance to include:
 - 1. Cultivation and weeding plant beds and tree pits.
 - 2. Application of herbicides for weed control in accordance with manufacturer's instructions. Remedy damage resulting from use of herbicides.
 - 3. Application of pesticides in accordance with manufacturer's instruction. Remedy damage from use of pesticides.
 - 4. Irrigating sufficient to saturate root system.
 - 5. Trimming and pruning, including removal of clippings and dead or broken branches, and treatment of pruned areas or other wounds.
 - 6. Disease control.
 - 7. Maintaining wrapping. Repair or replace accessories when required.

6. METHOD OF MEASUREMENT AND PAYMENT

- 6.1 The work of this Section of the Specification will be paid for at the contract lump sum price for %trees & Plants+which price shall include all materials, equipment, tools, labor, and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Trees & Plants	L.S.

END OF SECTION

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Furnish and install reinforcement for all cast-in-place concrete structures as shown on the Contract Drawings.

3. MATERIALS

- 3.1 This work shall conform to the requirements of Section 6.02 of Form 816 entitled "Reinforcing Steel".
- 3.2 Reinforcing steel and dowel bars shall conform to ASTM A615, Grade 60 and be epoxy coated as per ASTM D3963. Tie wires shall be plastic coated.
- 3.3 All damaged epoxy coating shall be touched up with material furnished by the coating manufacturer for this purpose. The touchup kits shall be suitable for use by the contractor for field application.

4. SUBMISSIONS

- 4.1 Submit shop drawings for all reinforcing steel.
- 4.2 Submit certification that the reinforcing steel and epoxy coating conform to the requirements of the specifications.

5. CONSTRUCTION METHODS

- 5.1 No steel wire or form ties shall be left in place within 1-1/2 inch of the concrete surface.
- 5.2 Lap splices shall be as indicated in ACI 318-11. Concrete cover shall be as indicated in ACI 318, as shown on the Contract Drawings or as specified below.
- A. All spillway and spillway slab concrete that is exposed to water shall have 3+of coverage.

5.3 Reinforcement that needs to be altered in the field due to improper fit can be done so only with the permission of the Engineer. Burning of reinforcement will not be allowed.

6. METHOD OF MEASUREMENT AND PAYMENT

6.1 Reinforcing for concrete items will not be measured for payment. The cost for reinforcing steel as shown on the plans and as requested by the Engineer and additional reinforcing steel due to changes in footing elevations and wall height and the specified epoxy touch-up kits are included in the contract unit prices for ~~%~~Reinforced Concrete+.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

2.1 Reinforced Concrete:

- a) Spillway structure.
- b) Channel training walls.
- c) Drawdown chamber.
- d) Underdrain headwalls.
- e) Drawdown inlet and outlet structure.
- f) Concrete cutoffs for pipe joints.

- 2.2 Plain Concrete for concrete slushed between riprap as shown on the drawings, for foundation subgrades, or where indicated by Engineer.
- 2.3 Cast-in installation of metal items and appurtenances specified elsewhere.
- 2.4 PVC and bentonite waterstops.
- 2.5 Dampproofing of walls.
- 2.6 Expansion joint filler.
- 2.7 Penetrating sealer and protective compound.
- 2.8 Furnishing and installation of weepholes and bagged stone.
- 2.9 Grout rubbed finish on exposed surfaces.
- 2.10 This work shall conform to the applicable requirements of Section 6.01 of Form 816, entitled "Concrete for Structures", and includes all required formwork and shoring, finishing and curing.

3. MATERIALS

3.1 Concrete:

- A. Minimum 28 day compressive strength:
Items from Section 2.1 ~~through~~ = 4,000 psi.
Items from Section 2.1 ~~through~~ = 3,000 psi.
Item 2.2 and any other concrete = 2,500 psi.
- B. For placement of concrete by pumping methods the Contractor shall design an adequate concrete mix with a 28 day compressive strength of 4,000 psi. The use of lightweight aggregate will not be allowed. All field testing of pumped concrete including the slump and air content will be measured at the outlet pipe.
- C. Slump for reinforced concrete mixes shall be 4+ with a variation of +/-1+
- D. All concrete shall be air-entrained as specified in Section M.03.01.09 of Form 816.
- E. Cement shall be Portland Cement, Type I or II conforming to ASTM C150. Cement used in the work shall correspond to that upon which the selection of concrete proportions was based.
- F. Hi-early cement shall be used only with prior approval from the Engineer
- G. Concrete admixtures shall be produced and serviced by established, reputable manufacturer's recommendations.
 - 1) Air-entraining admixtures shall conform to ASTM C260.
 - 2) Water-reducing, set-controlling admixture shall conform to ASTM C494, Type A (water-reducing), Type D (water-reducing and retarding) and Type E (water-reducing, accelerating), Type F or G (high range water-reducing, superplasticizer).
 - 3) Admixtures containing calcium chloride or Thiocyanate shall not be used.
- H. Aggregate:
 - 1) Fine aggregate shall conform to ASTM C33 and be clean, sharp, natural sand, free from loam, clay lumps, or other deleterious substance, within allowable standards.
 - 2) Coarse aggregate for normal weight concrete shall conform to ASTM C33 for normal weight concrete. All aggregate shall be clean, uncoated, graded aggregate, containing no clay, mud,

DIVISION 3
SECTION 03300
CONCRETE

loam, or foreign matter. Maximum size of coarse aggregate shall not exceed 3/4".

I. Water shall be fresh, clean, and drinkable.

- 3.2 Waterstops: PVC, serrated type with center bulb, prefabricated corners and intersections. PVC waterstop at bulkheads can be split flange type. All PVC waterstops to be minimum of 4+in width. PVC waterstop splices shall be heat welded. Bentonite waterstops to be butyl rubber based, designed for concrete construction joints in hydrostatic conditions.
- 3.3 Dampproofing of all backfilled walls as per Section 7.08 of Form 816.
- 3.4 Penetrating sealer and protective compound shall be applied to all exposed spillway slab surfaces as per Section 8.19 of Form 816.
- 3.5 All exposed concrete surfaces shall have grout rubbed finishes as specified in Section 6.01 of Form 816.
- 3.6 Bagged stone shall consist of crushed stone or gravel conforming to the requirements of Article M.01.01 for #3 or #4 coarse aggregate.
- 3.7 Weep holes shall be 4+diameter PVC. Weeps must be in place before pouring concrete. No core drilling of weep holes will be allowed.
- 3.8 Expansion joint filler shall conform to ASTM D1751. Install in sizes as shown on the drawings in accordance with manufacturer's recommendations.

4. SUBMISSIONS

- 4.1 Submit laboratories trial mix designs proposed in accordance with Method 1, ACI 301 or one copy each of 30 consecutive test results and the mix design used from a record of past performance in accordance with ACI 301, Method 2. The contractor shall submit the mix designs for approval at least ten (10) days before commencing any concrete operations.
- 4.2 Submit procedures for protecting concrete during placement and curing if required.
- 4.3 Submit catalog cuts and/or appropriate descriptive material and test results for the each of the following: waterstops, dampproofing material, expansion joint filler, penetrating sealer and protective compound.

5. CONSTRUCTION METHODS

- 5.1 Coordinate this work with the requirements for water control.

5.2 Formwork:

- A. Forms shall be used to confine and shape concrete to required dimensions. Forms shall have sufficient strength to withstand forces from placement and vibration of the concrete, and sufficient rigidity to maintain specified tolerances.
- B. Design, engineering, and construction of the formwork shall be the responsibility of the Contractor.
- C. Work shall be designed for loads, lateral pressure and allowable stresses in accordance with ACI 347, "Recommended Practice for Concrete Formwork."
- D. All tolerances, preparation of form surfaces, removal of forms etc. shall be in accordance with chapter 4 of ACI 301.
- E. Construction joints shall be located only where shown on the plans. Construction joints, other than shown on the plans, will only be allowed with approval by the Engineer. The surfaces of all construction joints shall be clean, rough, and surface dry when covered with fresh concrete. Cleaning shall consist of the removal of all laitance, loose or defective concrete, coatings, sand, and other foreign material. In addition, construction joints for the spillway concrete shall be wet-sandblasted, washed thoroughly with air water jets, and surface dried prior to placement of adjoining concrete. The sandblasting, washing, and surface drying shall be performed at the last opportunity prior to placing of concrete. Drying of the surface shall be complete and may be accomplished by air jet.
- F. Removal of forms shall be as specified in Section 6.01.03-20 of Form 816 and as follows:
 - 1) Concrete spillway forms shall remain in place for a minimum 3 days at which time they may be removed, but the curing process may be continued for the specified amount of time.

5.3 Concrete Placement:

- A. Formwork shall have been completed and all snow, ice, water, and debris removed from within forms.
- B. Expansion joint material, anchors and all embedded items shall have been positioned. All waterstops to be in place and secure before pouring concrete. PVC waterstops are to be spliced with splicing iron at all joints. Contractor shall use prefabricated pieces at all intersections.

DIVISION 3
SECTION 03300
CONCRETE

- C. Subgrade shall be sprinkled sufficiently to eliminate water loss from the concrete.
- D. Concrete shall not be placed on frozen ground.
- E. Concrete shall be ready-mixed, batched, mixed and transported in accordance with ASTM C94.
- F. Preparations: Contractor shall provide access for delivery and provide sufficient equipment and manpower to rapidly place all concrete.
- G. Conveying: Concrete shall be handled from mixer to final deposit rapidly by methods, which will prevent segregation, or loss of ingredients to maintain required quality of concrete. It shall be placed in the forms or on grade as near as practicable to its final position and shall be prohibited from free falling more than 6 feet.
- H. Concrete shall be deposited continuously; when continuous placement is not possible, construction joints shall be located as approved by the Engineer. Concrete shall be placed as nearly as possible to its final position. Avoid rehandling or flowing.
- I. During cold weather, provisions shall be made to retain heat by using insulating blankets or by an outside heat source.
- J. Curing and Protection: Immediately following placement, concrete shall be protected from premature drying, hot and cold temperatures, rain, flowing water and mechanical injury. Materials and method of curing shall be approved by the Engineer.
- K. Construction methods for placing concrete by pumping shall conform to the recommended practices of ACI 304 entitled "Placing Concrete by Pumping Methods".
- L. All concrete shall be mechanically vibrated.
- M. Concrete shall be adjusted to produce the required rate of hardening for varied climatic and job site conditions.
 - 1) Under 50^o F. ambient temperature - Accelerate (approval in writing required from the Engineer) (Type E admixture - ASTM C494).
 - 2) Over 80^o F. ambient temperature - Retard (Type D admixture ASTM C494).
- N. Plain concrete for splashed riprap shall contain a superplasticizer to develop a high slump concrete with good workability. Concrete is to be

DIVISION 3
SECTION 03300
CONCRETE

placed in the voids of the riprap to a depth of $\frac{3}{4}$ of its total thickness. Any concrete remaining on the top surface of the riprap is to be swept into the voids. The surface of the riprap is to be lightly washed clean with water before the concrete has had a chance to set.

- O. In the event that excavations for footings or spillway slabs reveal wet subgrades, the Contractor shall place a minimum of 6" of plain concrete to the underside of the footings or spillway slab.

5.4 Concrete surface finishes shall be as specified in Article 6.01.03-21 of Form 816 and as follows:

- a) Spillway slabs and tops of walls: Float finish
- b) Sides of walls, to 1.0' below grade: Grout clean down finish
- c) Drawdown slab Broom finish

5.5 Testing and Inspection:

- A. Materials and operations shall be tested and inspected as work progresses. Failure to detect defective work shall not prevent rejections when defect is discovered.
- B. The following testing services shall be performed by the testing laboratory selected and paid for by the Contractor:
 - 1) Mold and cure three specimens from each sample of concrete. Plain concrete for splashed riprap does not need to be tested.
 - 2) Test specimens in accordance with "Method of Test for Compressive Strength of Molded Concrete Cylinders," ASTM C39. Two specimens shall be tested at 28 days for acceptance and one shall be tested at 7 days for information. An additional cylinder shall be made as an extra in case a 56-day break is required.
 - 3) Make one strength test for each 50 cu. yds. or fraction thereof, of each mix design of concrete placed in any one day. (One test consists of four cylinders.) Engineer may decide to relax testing requirements during very large or small pours.
 - 4) Determine slump, air content and temperature for each strength test and whenever consistency of concrete appears to vary.
 - 5) All sampling of pumped concrete shall be done at the discharge end of the pump lines.
- C. Contractor shall furnish a concrete cylinder box for curing of the test samples as per Section 6.12 of Form 816.

DIVISION 3
SECTION 03300
CONCRETE

- D. To facilitate testing and inspection, the contractor shall furnish necessary labor to assist testing agency in obtaining and handling samples at the job site.
- E. During cold weather additional weather information shall be recorded including temperatures at several points within the enclosure and on the concrete surface, corners, and edges to show range of values. See Chapter 9 of A.C.I. 306R.

5.6 Dampproofing shall be applied on the fill side of all walls that are to be backfilled. Apply the dampproofing as indicated in Form 816 or as shown on the drawings, in accordance with the manufacturer's recommendations.

5.7 The penetrating sealer and protective compound shall be applied to all exposed surfaces of the spillway structure in conformance with the manufacturer's recommendations.

5.8 All downstream spillway training walls shall have 4" diameter weep holes placed at 8'0" on center unless indicated otherwise on the drawings. The crushed stone or gravel shall conform to the grading requirements of Article M.01.01 for No. 3 or No. 4 coarse aggregate or a mixture of both. The stone shall be placed in burlap bags large enough to contain loosely one cubic foot of material. Bags are to be placed in front of the weep holes to the dimensions as shown on the plans.

6. METHOD OF MEASUREMENT AND PAYMENT

6.1 The following items will not be paid for directly, but the cost thereof is to be included in the item for reinforced concrete:

- a) Reinforcing steel
- b) Waterstops
- c) Dampproofing
- d) Expansion joint filler
- e) Penetrating sealer and protective compound
- f) Weep holes with bagged stone
- g) Grout rubbed finish
- h) Concrete cylinder curing box
- i) Testing

6.2 Concrete will be measured at the actual number of cubic yards of concrete in place, either measured in place or based on approved delivery slips prepared by the concrete supplier, as determined by the Engineer.

DIVISION 3
SECTION 03300
CONCRETE

6.3 The work specified in this section will be paid for at the contract unit prices, for items complete in place, which price shall include all materials, equipment, tools, labor and work incidental thereto, as follows:

<u>Pay Item</u>	<u>Pay Unit</u>
4,000 psi Concrete	C.Y.
3,000 psi Concrete	C.Y.
Plain Concrete	C.Y.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Provide and install sluice gate and lift mechanism complete with all required accessories as stated herein or as shown on the drawings.

3.0 MATERIALS

- 3.1 Materials and installation shall conform to the requirements of the C501 specifications of the American Water Works Association (AWWA).
- 3.2 Sluice Gate Size: Nominal 30"x30" heavy duty gate (no gaskets, provide metal to metal fit)
Type Thimble: Nominal 30" opening.
Maximum Head: 15 feet, seating.
- 3.3 Accessories:
- A. Thimble, frame, guides, slide, pedestal and gear housing shall be cast iron, ASTM A126, Class B or ASTM A 48, Class 30; or Stainless steel ASTM A276, type 304.
 - B. Yoke shall be cast iron, ASTM A126, Class B or ASTM A48 Class 30; Steel, ASTM A36; or Stainless steel, ASTM A276, type 304.
 - C. Gears shall be bronze, ASTM B148 (CA 952, CA 954, or CA 958) ASTM B 584 (CA 865 or CA 867) or Steel AISI 8620 or AISI 4140.
 - D. Bearings shall be bronze, ASTM B148-9C (CA 954) or ASTM B-150 (CA 623).
 - E. Wedges, thrust nut, stem couplings, and gate activator lift nut shall be bronze, ASTM B584 (CA 872).
 - F. Seating faces and stem guide liners shall be bronze, ASTM B98 (CA 651 or CA 655), ASTM B139 (CA 521, CA 524 or CA 544), or stainless steel, ASTM A267, type 302 or 304.

- G. Stems shall be bronze ASTM B98 (CA 655) or stainless steel, ASTM A582, type 303, or ASTM A276, type 302, 303, or 304.
- H. Fasteners shall be bronze, ASTM B98 (CA 651 or CA 655), or stainless steel ASTM A276, type 302 or 304, or ASTM A582, type 303, or ASTM F593 and F594, type 304.
- I. Flush bottom seal shall be elastomeric materials, ASTM D2000.
- J. Flush bottom retainer bar shall be cast iron ASTM A126, Class B; stainless steel, ASTM A276, type 302 or 304, ASTM A582, type 303; bronze ASTM B98, (CA 651 or 655).
- K. Contractor shall provide ~~7~~ Tee+ handle closure for gate operation to Owner at end of project completion.

4. SUBMISSIONS

- 4.1 Shop drawings for sluice gate and accessories, showing the principal dimensions and general construction of, and materials used in all parts of the sluice gate and lift mechanism.
- 4.2 Four (4) sets of complete installation instructions and maintenance procedures.

5. CONSTRUCTION METHODS

- 5.1 The frames shall be of ample section and cast in one piece. The frame shall be designed for the maximum head indicated with a minimum safety factor of five with respect to tensile, compressive, and shear strength. All surfaces forming joints or bearings shall be machined. The frame shall be machined on the rear face to bolt directly to the machined face of the wall thimble.
- 5.2 The slide shall have strengthening ribs where required, and a reinforced section to receive the seating faces. The slide shall have tongues on each side extending its full length, and these tongues shall be accurately machined on contact surfaces. Surfaces of the slide that come in contact with the seat facings and wedges shall be accurately machined. The maximum allowable clearance between the slide and the slide guide shall be 1/16". A thrust nut pocket shall be provided above the horizontal center line of the slide reinforced by ribs. The thrust nut pocket shall be drained.
- 5.3 Seated faces shall be firmly secured in finished grooves in the frame and slide faces in such a way as to insure that they will remain in place, free from distortion and loosening during the life of the sluice gate.

DIVISION 5
SECTION 05200
DRAWDOWN SYSTEM

- 5.4 Provisions shall be made to prevent lateral movement of bolted on guides. They shall be capable of taking the whole thrust produced by water pressure and wedging action with a factor of safety of five. Wedges or wedge facings shall be securely attached to the guides at points where, in the closed position, they will make full contact with the wedging surfaces on the slide.
- 5.5 A thrust nut shall be provided for connecting the stem to the slide. The thrust nut and slide shall be constructed to prevent turning of the thrust nut in the pocket in the slide. The thrust nut shall be threaded but not keyed or pinned to the stem, so that the nut and slide can move up and down the stem as the stem turns.
- 5.6 The gate shall be equipped with adjustable side-wedging devices to provide contact between the slide and frame facings when the gate is in closed position. All faces shall be machined to give maximum contact and wedging action. Wedges shall be fully adjustable and so designed that they will remain in the fixed position after adjustment.
- 5.7 All assembly bolts, studs, nuts, and anchor bolts shall be of such size and spacing as required to provide for the design forces with a safety factor of five.
- 5.8 The operating stem shall be designed for a tensile strength to withstand a 200 pound effort on the crank. The threads of the stem shall be machine cut or rolled. If the stem is furnished in more than one piece, the different sections shall be joined together by solid couplings. The couplings shall be threaded and keyed or threaded and bolted, and shall be of greater strength than the stem.
- 5.9 The bracket stem guide shall be so constructed that they will hold the stem in alignment and yet allow it enough play to permit easy operation. The inside diameter of the guide shall not be greater than 1/8" larger than the outside diameter of the stem. A guide shall be placed so that the L/r ratio of the stem does not exceed 200. The guide shall be adjustable with respect to the bracket to provide proper concentric alignment with the stem, and shall be so designed that alignment will be maintained after adjustment. The guide shall be lined and provisions shall be made to hold the lining in place. Brackets shall be attached to the wall by sufficient anchor bolts to prevent twisting or sagging under load.

6. INSTALLATION

- 6.1 It shall be the Contractor's responsibility to handle, store, and install the wall thimble, gate, operating mechanism, stem guides, and accessories in accordance with the manufacturer's drawings and recommendations. Care shall be taken to avoid warping the gate frame and to maintain tolerances between seating faces. All gates, thimbles, stems, and operators shall be plumbed, shimmed, and accurately aligned.

DIVISION 5
SECTION 05200
DRAWDOWN SYSTEM

- 6.2 Tapped holes in thimbles shall be plugged for protection during concrete pouring and setting.
- 6.3 During construction, the surfaces of the thimble and gate shall be covered or otherwise protected from concrete spillage, paint, oil and debris. Any damage that occurs to the thimble or gate in storage or handling shall be corrected prior to installation of the gate or operation and testing of the gate.
- 6.4 Thimbles shall be accurately positioned and supported to prevent shifting during the pouring of the surrounding concrete. Thimbles shall be carefully braced both horizontally and vertically to prevent distortion. Concrete shall be carefully poured to provide a good bond to the thimble without voids.
- 6.5 Under the design seating head, the leakage shall not exceed 0.1 gpm per foot of seating perimeter.

7. METHOD OF MEASUREMENT AND PAYMENT

- 7.1 The work of this Section of the Specification will be paid for at the contract lump sum price for ~~%~~ Drawdown System+ which price shall include all materials, equipment, tools, labor, and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Drawdown System	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specification.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Fabrication of barway gates.
- 2.2 Trash racks and frames.
- 2.3 Stainless steel angle frames to retain weir boards.
- 2.4 Prefabricated stainless steel ladders for access into drawdown chamber.
- 2.5 Steel access doors with steel frame cast into the concrete slab for access into the drawdown chamber. Doors to be equipped with heavy duty hasp capable of receiving padlock.
- 2.6 Handicapped parking signage and support located at the parking area.
- 2.7 Grille at toe drain headwall.
- 2.8 Miscellaneous bolts, anchor bolts, inserts for cast in place concrete, etc. which are attached to the structure or are shown on the drawings.
- 2.9 Provide 6 heavy duty brass padlocks for chain link gates, barway gates, and access hatches, all keyed alike.
- 2.10 Provide metal beam rail type R-B 350, including all miscellaneous hardware and accessories to install the metal rail as per CTDOT Standard Drawings.

3. MATERIALS

- 3.1 Pipes for barway gates to be ASTM A53 or ASTM A501, schedule 80. Plates and other rolled sections to be ASTM A36. All barway gate material to receive one coat of standard shop primer. After installation, Contractor shall apply finish coat to gate, color to be approved by Owner.
- 3.2 Trash rack, angle frame for trash rack and weir boards, angles for bar grating support, and the grille at the toe drain headwall are to be fabricated completely

DIVISION 5
SECTION 05600
MISCELLANEOUS METALS

of stainless steel. Pipe is to be schedule 80. Size of materials to be as shown on the drawings.

3.3 6x4 double leaf heavy duty access door:

- A. Door leaves shall be 1/4" steel diamond pattern plate to withstand a live load of 300 lb/sq.ft. with a maximum deflection of 1/150th of the span.
- B. Channel frame shall be 1/4" steel with an anchor flange around the perimeter and shall have a minimum cross-section area of 7 1/2 sq. in.
- C. Doors shall be equipped with heavy forged brass hinges having 3/8" minimum diameter stainless steel pins and pivot so that the cover does not protrude into the channel frame.
- D. Compression spring operators enclosed in telescopic tubes shall be provided for smooth, easy and controlled door operation throughout the entire arc of opening and closing. Operation shall not be affected by temperature. Each door shall automatically lock in the vertical position by means of a heavy steel hold-open arm with release handle. Access door shall be equipped with heavy duty hasp capable of receiving a padlock.
- E. Hardware shall be Type 316 stainless steel.

3.4 Parking signage shall be of style, type, size and design as shown on the drawings. Sign posts, their foundations, and sign mountings shall be so constructed as to hold signs in a proper and permanent position, to resist swaying in the wind or displacement by vandalism.

3.5 All miscellaneous bolts, anchor bolts, inserts for cast-in-place concrete, etc. which are attached to the structure, shown on the drawings, or specified herein shall be stainless steel.

3.6 Padlocks to be standardized so one key fits all. Padlocks to be fabricated from bronze or stainless steel and be suitable for an exterior corrosive environment.

3.7 Metal beam rail shall be type R-B 350 conforming to CT DOT Standard Drawing HW-910-02. Metal beam rail shall have curved guiderail detail conforming to CT DOT Standard Drawing HW-910-11 and rounded terminal end conforming to CT DOT Standard Drawing HW-910-17. All materials shall meet the requirements of Article M.10.02 of CT DOT Form 816.

4. SUBMITTALS

4.1 Steel shop drawings for all fabricated items.

DIVISION 5
SECTION 05600
MISCELLANEOUS METALS

5. CONSTRUCTION METHODS

5.1 Construction methods for the installation of metal beam rail shall conform to CT DOT Form 816 Section 9.10.03.

6. METHOD OF MEASUREMENT AND PAYMENT

6.1 The items specified in this Section of the Specification will be paid for at the contract unit prices for the following items complete in place, which price shall include all materials, equipment, tools, labor and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Barway Gate	Ea.
Trash Racks	L.S.
Prefabricated Ladders	L.S.
Access Doors	L.S.
Metal Beam Rail	L.F.
All other items, Section 05600	L.S.

- END OF SECTION -

1. GENERAL

- 1.1 The General Conditions and Supplementary General Conditions apply to this Section of the Specifications.
- 1.2 Provide all labor, materials, tools and equipment, as and when required to perform the work specified herein or as shown on the plans, including but not necessarily limited to the following:

2. DESCRIPTION

- 2.1 Furnish, fit and install weir boards in the drawdown chamber as shown on the drawings and specified below. Enough weir boards are to be supplied so they can be stacked to a height of fifteen (15) feet between stainless steel angle frames.

3. MATERIALS

- 3.1 The weir boards shall be made from nominal 4"x6" No. 1 Southern Yellow Pine, non-laminated, surfaced, each board shall either be lapped or single tongue and groove.
- 3.2 The lumber for the weir boards shall be pressure impregnated with CCA as per Federal specification TT-W-571 and in accordance with the American Wood Preservers Institute (AWPI) Standards for marine use. Minimum retention shall be 2.5 lb. of CCA per cubic foot.

4. CONSTRUCTION METHODS

- 4.1 The Contractor shall field measure weir board opening before ordering material to ensure a proper fit.
- 4.2 The Contractor shall make use of wedges or other acceptable methods as necessary to ensure a tight fit between the angle frame and weir boards.
- 4.3 Contractor to ensure weir boards do not significantly leak. Damaged, warped, or ill-fitting boards shall be removed and replaced. Contractor can sprinkle sawdust or beet pulp upstream of weir boards to help achieve water-tightness.

DIVISION 6
SECTION 06200
MISCELLANEOUS
LUMBER

5. METHOD OF MEASUREMENT AND PAYMENT

5.1 The work of this section will be paid for at the contract lump sum price for Miscellaneous Lumber+which price shall include all materials, equipment, tools, labor, and work incidental thereto.

<u>Pay Item</u>	<u>Pay Unit</u>
Miscellaneous Lumber	L.S.

- END OF SECTION -
