 - a. "Direct" program costs can be specifically identified with delivery of a particular project, service or activity undertaken by a grantee to achieve an outcome intended by the funding program. For CSBG, such direct costs derive from the funding objectives specified in the reauthorizing statute and from the goals and outcome measures in the ROMA system required by the statute. Direct program costs are incurred for the service delivery and management components within a particular program or project. Therefore, direct program costs include expenditures on some activities with administrative qualities, including salaries and benefits of program staff and managers, equipment, training, conferences, travel, and contracts that expressly relate to the delivery of an individual program or service funded by a specific grant source.
 - b. "Administrative" costs, in the context of CSBG statutory reporting requirements, are equivalent to the familiar concepts of "indirect" federal costs or overhead. As distinguished from program administration or management expenditures that qualify as direct program costs, administrative costs refer to central executive functions that do not directly support a specific project or service. Rather, administrative costs are incurred for common objectives that benefits multiple programs administered by the grantee organization, or the organization as a whole, and as such are not readily assignable to a particular program funding stream. Administrative costs relate to the general management of the grantee organization, such as strategic direction, Board development, Executive Director functions, accounting, budgeting, personnel, procurement, and legal services.
