

Recovery Act – Transit Security Grant Program Department of Homeland Security

Applicant: Connecticut Department of Transportation

Project: **Upgrade Network Infrastructure, Phase 3**

Federal Grant Amount Requested: \$ 10,252,837

Summary of Project: to provide for installation of fiber optic cable to the network infrastructure along portions of the New Haven Line right-of-way in Connecticut. Security systems will also be installed at several rail stations and other facilities. This will allow capabilities to access at remote locations local video cameras at stations, yards, and bridges.

Estimated completion: must begin within 90 days of the release of funds and must be completed within 24 months of the release of funds date (this date has not yet been determined).
